Six More Gone.

Sheriff Crawford went to Charlotte Monday morning to carry six good road hands to be worked on the Mecklenburg county roads where they have the finest roads in America. Mecklenburg County pays \$20 each for these convicts and their railroad fare with that of the sheriff who takes them. This makes twenty good road builders with terms from six months to three years that have been carried to other counties since the first of January. It seems reasonable to us to say that if it pays these counties to get all the convicts it can for road work at this high price it might pay us to keep them at nothing. Here are twenty that have been taken out of this county this year to counties that are building good roads while we plunge through mud and sand. Mecklenburg county says it pays and gets all the convicts it can, it has good roads the best in America, yet we say it will not pay us and we will not try it. This is an unfortunate position for us to take.

We have conscientious leaders but they are leading us in the darkness, who will advocate our present system and its retention. Any man is willing to give more for good roads than his tax would amount to yet he will not vote a little tax and a convict system. Why is it? Think about it!

—Work has begun on the brick hotel situated on Main and Brogden Streets and owned by Hadley Bros. The design is modern and combines both beauty and convenience of arrangement. The first floor contains a store room, lobby, office, dining-room, kitchen, sample room etc. The ladies entrance, from which the main stair-way ascends, opens on Brogden street and is conveniently connected with the lobby. The second floor contains the sleeping apartments. A broad balcony reaches the full length of the front, and two octagon windows add much to the attraction of the front of the building and makes the rooms large and pleasant. The estimated cost of the structure is \$9,000, and was designed by Barber and Klutz, Architects, of Knoxville, Tenn. It will be conveniently situated for the public and is one of the many things needed in Williamston.
