

Thousands Have Kidney Trouble and Don't Know It.

How to Find Out.
Fill a bottle or common glass with your water and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys; if it stains your linen it is evidence of kidney trouble; too frequent desire to pass it or pain in the back is also convincing proof that the kidneys and bladder are out of order.

What to Do.
There is comfort in the knowledge as often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy, fills every vein in the curing rheumatism, pain in the back, kidney, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in 50c. and \$1. sizes. You may have a sample bottle of this wonderful discovery and a book that tells more about it, both sent absolutely free by mail. Address Dr. Kilmer, Swamp-Root Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

Pneumo Medicine Co., Chicago, U. S. A.

Insomnia and Indigestion Cured
"Last year I had a very severe attack of indigestion. I could not sleep at night and suffered most excruciating pains for three hours after each meal. I was troubled this way for about three months when I used Chamberlain's Stomach and Liver Tablets, and received immediate relief," says John Dixon, Tallamore, Ontario, Canada. For sale by S. R. Biggs.

THE ISLAND OF SANTA CRUZ.

Has Been a Possession of Several European Powers.
Probably no other of the West Indian islands has had such a checkered career as Santa Cruz. In turn it has belonged to Spain, which abandoned it; to England and Holland jointly; to England alone; to Spain again, which took it from Spain; to the Knights of Malta, who received it as a gift from France; to a private company of adventurers. Then it was resumed possession of by France, but abandoned, so that in 1720 it was uninhabited. Then it became a no man's land until 1727, when France took it again, and presently sold it to a Danish company, which sold it in turn to the king of Denmark. In 1801 England took it once more, gave it back to Denmark, repented, and took it away again in a few months, held it for eight years and then returned it to Denmark, which holds it still.

Widespread Earthquakes.

Some surprise has been expressed at the largeness of the area over which the recent earthquake in the Midlands was felt, considering that the shock at its worst was very slight. But the mildest of earth movements produce, as a rule, sensible effects over wide regions. Dr. Charles Davison, F. G. S., who has made a special study of recent earthquakes, computes that the disturbance which shook the city of Hereford on December 17, 1896, caused notable tremors over 115,000 square miles, which is about twice the size of England and Wales, this estimate being based on 2,302 records from 1,943 places affected. The Inverness earthquake of September 18, 1901, though of still less intensity, was felt over an area of 38,000 square miles, about the size of Ireland. "In Japan," says Dr. Davison, "we see the mountain making forces acting with violence and producing effects only too apparent to the eye. In Scotland, whatever may have happened in former geological epochs, the changes in surface structure are now taking place with almost infinite slowness, and hundreds of thousands of years must elapse before Loch Ness makes any visible progress in its march to the sea."—London Telegraph.

The Simple Life in Pepys's Time.

In Pepys's time the simple life was represented by small establishments, though not by small meals. He kept only one servant, for instance, but she had to do the work of a whole staff, including cook and kitchenmaid. Still, the one that he took from the Duke of Albemarle was paid £4 in wages, and he tells us that he "never before did spend so big a sum on a wage." Here is one of the dinners she served up: "We had a fricassee of rabbits and chickens, a leg of mutton boiled, three carps in a dish, a great dish of a side of lamb, a dish of roasted pigeons, a dish of four lobsters, three turkeys, a lamprey pie, a most rare pie, a dish of anchovies, good wine of several sorts—most neatly dressed by our own only 'mayde.' The simple life generally means work for some one.

A Modern Solomon's Temple.

Prince Luca Esterhazy, who has enormous possessions in Transylvania, is about to erect a church on his estates which will be a model of King Solomon's temple. Count Esterhazy is a mystic, almost a recluse, and has for years been engaged in the study of ancient oriental architecture. He made a special study of the Biblical account of the building of Solomon's temple, and, while he does not intend to lavish expenditure on cedar, gold and ivory as marked the venture of the Hebrew king, his church will be an exact copy of the original.

Better Wheels for Vehicles.

Attention has been called by technical writers to the fact that the wheels of vehicles intended for driving roads have not kept pace in development with other parts of carriage mechanism. Experiments with heavy vehicles indicate that wheels should be made both higher and broader. In England it has been recommended that with a maximum axle load of eight tons the width of the tire should be about ten and a half inches. Increase of the diameter of the wheel is said to be more effective in preventing damage to roadbeds than width of tire.

Diamond Mines of Kimberly.

From 1889 to 1904 the De Beers and Kimberly mines in South Africa produced diamonds to the value of 31,854,582 carats, the value of which was about \$27,828,000. From 1898 to 1904 the Premier mine, now the Wesselsfontein, produced 3,075,850 carats to the value of about \$23,603,000. The Bullfontein mine produced 229,343 carats to the value of about \$1,223,000, and from tailings and debris there were secured 910,742 carats to the value of over \$5,235,000.

Weight of Earth and Water.

A cubic foot of earth weighs about five and a half times as much as a cubic foot of water. A cubic mile of earth weighs 25,649,300,000 tons. The volume of the earth is 269,880,000,000 cubic miles. The weight of the world, without its atmosphere, is 6,666,250,000,000,000,000,000 tons. To add to this the weight of the atmosphere gives a grand total of 6,666,255,819,600,000,000,000 tons.

South African War Scandal.

One of the most recent discoveries in connection with the British South African war stores scandal is that the army authorities bought "one pound" tins of jam which weighed 12 ounces. This discovery was made when 1,350,816 surplus tins were sold at the end of the war.

It is difficult to cure a cold or free yourself from the discomforts of a cold unless you move the bowels.

Bee's Laxative Honey and Tar acts on the bowels and drives all cold out of the system. For Croup, Whooping-Cough, Colds, and all Lung and Bronchial affections, no remedy is equal to the original Bee's Laxative Honey and Tar. A Liquid Cold Cure. Sold by S. R. Biggs.

LITTLE KNOWN OF ICELAND.

Southern Coast Rendered Impassable from Sand and Ice.
During the past two years the Danish government has begun a careful topographical survey of Iceland, a work never before undertaken except in a few parts of the island. The least known region is the southern coast, which is impassable in the summer time, owing to the immense quicksands and the inland ice masses pushing down from the mountains. Last spring as long as the frost kept the morasses and streams in a traversable state, the survey was pushed, and one of its results was to show that the highest point of Iceland is not the Orseta Jokull, as hitherto supposed, but the Hyannadalshur, the elevation of which is 9,963 feet.—Exchange.

Skeletons Unearthed in France.

A curious discovery has been made in the course of some excavations that have been in progress in St. Martin de Re, in France. The excavators unearthed trenches in which lay skeletons which were presumably those of the citizens who fell fighting there in defending the town against the English in 1627. Among the skeletons was found a spherical iron bomb containing a moist black powder, which was found to consist of about a third of nitre, a third of carbon and a fifth of sulphur, the remainder being iron oxide derived from the rusting of the iron shell.

World's Biggest Vine.

The largest grapevine in the world is growing in the Carpinteria Valley, 13 miles east of Santa Barbara, Cal., and is called La Para Grande. It was started from a cutting 61 years ago by a young Spanish woman, Donna Ayala. It is 9 feet 4 inches in circumference at its base, and one of the horizontal branches measures more than three feet in circumference. The trellis covers about a third of an acre, and 60 heavy posts support it. The vine produces as many as 5,000 bunches annually.

Highest Lake in the World in Peru.

A second steamship is placed in service upon Lake Titicaca, in Peru, the highest lake in the world, 15,000 feet above sea level. There is already one vessel engaged in traffic upon this sheet of water. The latest vessel carries about 550 tons dead weight. It has ample accommodations for 24 passengers. The dimensions are 220 feet in length by 30 feet beam and 14 feet depth.

To Suppress Cock-Crowing.

Portsmouth, England, has passed an ordinance for the suppression of cock-crowing. The chicken fanciers say it cannot be suppressed, but the London News says that a partial remedy consists in placing the perch where the cock roosts so high that when he stands up to crow he knocks his head against the roof and desists. A swinging board hung over his head answers the same purpose, it says.

Japanese Educational Motto.

The Japanese Imperial Educational Receipt says: "Advance learning and regulate your pursuits, developing the intellectual faculties and perfecting the virtuous and useful elements. In any emergency, exert yourselves in the public service, and exhibit voluntarily your bravery." This exhortation hangs on the walls of every Japanese school house, and is read in unison aloud daily.

Elephants of Uganda.

"Elephants in Uganda have a peculiar aspect that I have not noticed elsewhere," writes a traveler. "They cover their bodies, as a protection against flies, with the bright red volcanic dust contained in the soil. This gives them a remarkable appearance, as, instead of being slaty gray, as in the Nile valley, their color, when thus covered with dust, resembles that of a chestnut horse."

Blackmalters of Budapest.

Budapest has a gang of blackmalters who operate much like the "Black Hand" here. Letters have been received by many well-to-do persons, all signed simply by the number "13," and all demanding sums of not less than \$500, and oftener still large, under threats of dynamite in case of refusal. A grain or two of explosive material is inclosed with the letter by way of a sample.

Tubercular Poultry.

Thirty per cent of the poultry reared in England has suffered, at some time or other, from some form of tuberculosis. "There are districts in England," said an officer of the National Poultry Organization Society, "where it is impossible to carry on poultry farming owing to the presence of the germs of tuberculosis in the soil."

Collar Through the Post.

A lines collar has been put to a strange use by a resident in Gloucester. Upon clearing the letter box at the postoffice there recently it was discovered that a letter had been written upon one side of a collar. It being properly stamped the message reached its destination.—Exchange.

German Professors in Russia.

The Russian government is looking for German professors to fill chairs at Russian universities. Twenty years ago Alexander III. drove all Germans away from places of trust, and now the German professors are unwilling to serve in Russia, conditions seem so uncertain in that country.

Valuable Magnetic Iron Sand.

Magnetic iron sand has recently been discovered on the south coast of Java.

New Cure For Cancer.

All surface cancers are now known to be curable, by Bucklen's Arnica Salve. Jas. Walter, of Duffield, Va., writes: "I had a cancer on my lip for years, that seemed incurable, till Bucklen's Arnica Salve healed it, and now it is perfectly well." Guaranteed cure for cuts and burns. 25c at S. R. Biggs Drug store.

Drinking less Whiskey.

During the last five years there has been a steady decrease in whiskey drinking. A Chicago newspaper has been gathering statistics which warrant it in saying that the consumption of distilled spirits, other than those made from fruits, in the fiscal year 1905, was 116, 143,732 gallons, or 703, 640 gallons less than in 1904. What is the cause of this falling off? The Chicago paper says:

"The falling off is attributed to various causes, among which is a genuine reform in popular drinking habits is gratifyingly included. Another cause is the rigor with which the Sunday saloon closing laws have been enforced in many cities since Governor Folk, of Missouri, led the crusade for law and order in that State."

How to Cure Corns and Bunions.

First, soak the corn or bunion in warm water to soften it; then pare it down as closely as possible without drawing blood and apply Chamberlain's Pain Balm twice daily, rubbing vigorously for five minutes at each application. A corn plaster should be worn a few days to protect it from the shoe. As a general liniment for sprains, bruises, lameness and rheumatism, Pain Balm is unequalled. For sale by S. R. Biggs.

A smile that can be bought for a dime is soon swallowed.

Some Seasonable Advice.

It may be a piece of superfluous advice to urge people at this season of the year to lay in a supply of Chamberlain's Cough Remedy. It is almost sure to be needed before winter is over, and much more prompt and satisfactory results are obtained when taken as soon as a cold is contracted and before it has become settled in the system, which can only be done by keeping the remedy at hand. This remedy is so widely known and so altogether good that no one should hesitate about buying it in preference to any other. It is for sale by S. R. Biggs.

How'd you like to be a member of the McCurdy family?

Don't Borrow Trouble.

It is a bad habit to borrow anything, but the worst thing you can possibly borrow, is trouble. When sick, sore, heavy weary and worn-out by the pains and poisons of dyspepsia, biliousness, Bright Disease, and similar internal disorders don't sit down and brood over your symptoms, but fly for relief to Electric Bitters. Here you will find sure and permanent forgetfulness of all your troubles, and your body will not be burdened by a load of debt disease. At S. R. Biggs drug store. Price 50c. Guaranteed.

During September 1,431 rural free delivery routes were established, making the total 33,486.

Backache is never known to those persons who take an occasional dose of Pineules.

The value of the resin from the Pine tree has long been recognized in the treatment of diseases of the bladder and kidneys. One dose of Pineules will give relief, and one bottle will cure. Sold by S. R. Biggs.

Frozen through.

At the boarding-house on Morrison Street they were discussing climate. The Portland man declared that the ground last winter never froze a depth of two inches. "It froze two feet where I came from," said the man from New Jersey.

'Up in the Adirondacks.'

re-marked the New Yorker, "the ground last winter froze to a depth of ten feet." The Iowa man sat quietly munching his lettuce while the others expectantly awaited his effort to "pshaw!" he said, "that's nothing. Why quack in Des Moines, the ground froze so deep that the Chinese Emperor sent a request to Governor Cummins to start a fire. He complained that his subjects had cold feet.—Portland Oregonian.

ORINO Laxative Fruit Syrup
Pleasant to take and does not gripe or nauseate
Cures Chronic Constipation, Stomach and Liver Trouble
Stimulation Without Irritation.
The condition of the patient remains unchanged. The Stomach, Liver and Bowels have not been stimulated and in a few days a stronger purgative may have to be taken. This is why Pills and Aperient Waters never give permanent relief. Their violent action results in an unnatural movement of the bowels and it is necessary to keep taking them indefinitely.
Why ORINO is different.
ORINO Laxative Fruit Syrup is the only preparation that really acts upon all of the digestive organs. Other preparations act upon the lower bowel only and do not touch the Liver. It can very readily be seen that a preparation that does not act upon all of the digestive organs can not cure Chronic Constipation, Torpid Liver, Indigestion, Sour Stomach, etc.
For Biliousness and Sick Headache.
Take ORINO Laxative Fruit Syrup. It sweetens the stomach, aids digestion and acts as a gentle stimulant on the liver and bowels without irritating these organs.
Clears the Complexion.
ORINO Laxative Fruit Syrup stimulates the liver and thoroughly cleanses the system and clears the complexion of pimples and blotches. It is the best laxative for women and children as it is mild and pleasant, and does not gripe or sicken. Refuse substitutes.
Take ORINO Laxative Fruit Syrup and if you are not satisfied your money will be refunded.
Prepared only by FOLEY & CO., Chicago, Ill.
SOLD AND RECOMMENDED BY
S. R. Biggs, Williamston, N. C.
