I. Pierpont Morgan is about to invest in another great work of art-the Chicago street railway.

While the debate on the rate-bill is ended, trust the Senate to find plenty of things to keep on talking about.

The trouble would be over in hurry if the Senate could pass the railway rate bill as easily as it does

The drug trust denies the charges: and there is no doubt but that it is as innocent as the Standard Oil Company.

Perhaps it is beginning to dawn on the Standard Oil that what is known as public opinion, cuts a good deal of ice.

Senator LaFollette voted for the rate bill, but only on the principle that a small slice off the heel of the loaf, is better than no bread.

During the past week there has been several explosions in powder magazines. And the one in McClure's Magazine seems to have been fatal, also blowing out four of its editorial force.

A Milwaukee paper is boosting Senator LaFollette as a presidential candidate on the Democratic ticket. This is a little surprising as Wisconsin has been counted as divided between Roosevelt and Bry an for that nomination.

A Tennessee paper announce that Senator Carmack is in no sense a candidate for the nomination for Governor. It might have been guessed that the Senator has had trouble enough lately without jumping into the briar patch.

PREPARE FOR YOUR WORK.

We publish elsewhere a letter than any benedict. from a Martin county teacher urging the teachers of the county to attend the Teachers' Assembly, which convenes at Raleigh, and neets immediately thereafter.

It is your duty, teachers of Martin county, to make yourselves as thorough in the work you offer to your county as possible; and you should teach somewhere else. But Martin county will hire you if you show that you are ambitious to institute, follow and originate new ideas gotten by association with the best of teachers.

We trust every teacher in the county will attend these meetings and come back home able to offer the very best ideas that the State teachers have and work with these and make the average Martin county school as good or better Even if peace were to come to than any rural school in the State.

If you do not go to these meetings, then you must be either a 'mossback'' or unable financially. If you are the former the sooner you are shelved the better; if the latter you ought to borrow the money, go to the meetings and get a more paying school, as the author of the article suggests.

It is your duty to give the very youth of Martin county. We expect it of you. We demand it as a progressive people. It is to your own interest to go to these meet-

Every man should marry who has this desire, but, because he is not married, is no sign that he is a brute and should be ostracized

We should remember that every man has his own idea of life; and if one prefers a married state, and the other not, he is a man of feeling and must be recognized. A bachelor's life may be lonely, so, let us cheer him.

#### Bonds for Public Roads.

Many of the counties through out the state have issued bonds for the construction of macadem and other good roads. The result has been that these counties have been more thoroughly developed and become more prosperous than those counties which have been content with poor roads. The issning of bonds by a county will mean but a very small increase in taxes, which as the years go on, will be more than counterbalanced of land and of other taxable property. It is a fair and equitable arrangement that future generations should pay for a portion of the improvements of our public roads, as they derive as great a benefit as the present generation. Too many have the idea that to bond their county will mean a very large increase in their taxes without their deriving any material benefit from the expenditure, not realizing that the increase in the value of property; and the decrease in the cost of maintenance of the roads and wear and tear on horses, wagons and harness is so much money saved. #### To Martin County Teachers.

There will be two events in the State this summer that should claim the interest of every teacher in Martin county. The first is the North Carolina Teachers' Assembly, which convenes in Raleigh June 12 and continues in session three days. The second is the Raleigh Summer School for Teachers which begins June 16, at the close of the Assembly, and continues three weeks.

The first reason for attending these meetings is the exchange of ideas. To meet with a thousand teachers from every section of the State and hear the best lectures by some of the most noted educators best ideas the State has to the by the large increase in the value both in and out of the State, will be invaluable to any teacher interested in the work.

Besides the intellectual uplift, there is something more subtle and very often more powerful for good, and that is the professional spirit arising from attending such meetings. You will feel inspired for the work if you are a true teacher; and if you are not a true teacher perhaps it will help you to the very important decision to get out of the work.

There is also a more practical view to take of this subject. If you desire a better position it is a very good place to meet people who Most of the progressive county superintendents will be there looking either for superintendents for their graded schools or for wide-a-wake teachers for their best positions It is a fine opportunity for the employer to meet the employe and fit the right teacher in the right place Officers and teachers cannot afford to stay away from these meetings both for their own sake and for the sake of those they serve. By attending these meetings teachers will be prepared to earn better salaries and will have the opportuni ter salaries.

All the progressive counties o the State will have a large repre sentation at these meetings. Let Martin be among the foremost. Let us rise to the occasion and use this opportunity for advancing our own interest and the interest of the county. The cost will be very small and the returns should be

All those who contemplate at tending these meetings should write Chas. J. Parker, Raleigh, N. C. for programmes.
