The establishment of the peanut factory in Williamston will fill a long felt want. This is a natural location for such an enterprise.

Special efforts are being made to start a planing mill, sash and blind factory and also a buggy factory in town.

If the town is successful in securing the location of these industries it will mean the circulation of from \$60,000 to \$80,000 more money each year than is now circulation in this town.

We predict the establishment of several good, substantial plants in this town within the next six or eight months.

Strained Construction

There are two sides to the question whether the cash surrender value of a life insurance policy should be taxed as other solvent credits.

Whatever one may think about the propriety of imposing such a tax now, after all Legislatures have exempted insurance policies from taxation, the suggestion that such tax would be unconstitutional is a strained construction.

of his wife and children, and in case of death of the husband, the amount thus insured shall be paid over to the wife and children, or to the guardian, if under age.

There will be a meeting of the brass band Monday night at 8:30 o'clock sharp.

Peanut Plant for Williamston

New Industry, \$10,000 Capital, to be Ready for Business July 1

The peanut factory for Williamston is an assured fact. The order for the machinery has been given, and the plant is to be in readiness for business by the first of July.

Mr. Eli Gurganus, the prime mover in this enterprise, informed us that the machinery ordered will be the very latest kind, and that the plant will have a capacity of selling two hundred bags of peas a day, and cleaning five hundred bags a day.

White the organization of this company has not been perfected the following gentlemen are interested; Messrs. Eli Gurganus, J. G. Staton, J. G. Godard, J. R. Mobley and Herbut Cowen.

The prize house on the railroad, fixed up several years ago for steam plant, has been leased and will be used for the home of the plant.

The contract for the machinery was given to Mr. A. L. Steere representing the Appomattox Iron works of Petersburg, Va., who are considered to be the best makers of this class of machinery.

Schnapps Tobacco is Made ENTIRELY from Flue Cured Tobacco Grown in the Piedmont Country. The Imitation Brands Have Schnapps Quality Only On the Outside Of the Plug

Hundreds of imitation brands are on sale that look like Schnapps tobacco. The outside of the imitation plugs of tobacco is flue cured the same as Schnapps, but the inside is filled with cheap, flimsy, heavily sweetened air cured tobacco.

claimed to be "just as good" as Schnapps, but there is only one genuine Schnapps. Be sure the letters on the tag, and stamped on the plug under the tag spell S-C-H-N-A-P-P-S and then you have it—the most wholesome tobacco produced, with just enough sweetening to preserve the mild, juicy, stimulating quality of the leaf tobacco.

If the tobacco you are chewing don't satisfy you more than the mere habit of expectorating, stop fooling yourself and chew Schnapps tobacco. Schnapps is like the tobacco chewers formerly bought costing from 75c. to \$1.00 per pound; Schnapps is sold at 50c. per pound, in 5c. cuts, strictly 10c. and 15c. plugs.
