Tuesday the 7th day of May is town election. There is no talk as to what will be done in regard to the government of the town, but it is thought that probably the same board will be reelected. The bond issue for the town hall will be voted on. This is expected to be carried and Williamston will have a fine public building. There is some talk, however, about passing an ordinance for keeping up cows. An ordinance of this kind should by all means be passed.

If you know of an item or a piece of news tell us about it. That's what we want. But a newspaper man sometimes experiences more difficulty in gathering news than one would imagine. This was the case when a reporter in a neighboring town, who a few days ago was sent to write up a fire in a residence. Going to the door he inquired for the lady of the house. The maid said she was out. "Are any of the family at home?" inquired the scribe. "No, they are all out," was the reply. "Well, wasn't there a fire here last evening?" "Yes," said the hired girl, "but that's out too."

The trade territory of a town is not all dependent upon the distance to neighboring trading points. The trade territory depends upon the residents of the town. If a town does not reach after the trade it will come only as fast as it has to, and it will grow as it is forced to. But if the merchants go after business in the surrounding country, advertising in every possible way, and making good every word of their advertising, trade will come from an ever-increasing radius, the town will gain a reputation for being awake and it will forge to the front. It is the men in the town and not altogether living within a certain number of miles from it that makes the town.

One of the many growing evils of this country today is the city department store. In our town, where we have the best of stores, the most honorable of merchants, and where goods are sold at a margin so small as not to afford a respectable living to our business men, thousands of dollars are annually sent to the department stores of our great cities. Farmers expect our merchants to pay them a fancy price for butter, eggs and poultry, for their peanuts, potatoes, tobacco and cotton and then they take the money received from our home merchants and send it to a city department store. There is neither economy or honor in such a manner of doing business. You can write it down in your hat, that as a rule, the city department store is a swindle. Our citizens who patronize them should be compelled to ship their butter and eggs to them. There is not a business man in our town who will not duplicate their prices for the same quality of goods, and he who turns

and the greatest quantities of every growing thing can readily be produced with the liberal use of Virginia-Carolina Fertilizers, together with careful cultivation. The material of which they are made, causes them to enrich the land, and the plants to come up rapidly and more prolific. Use Virginia-Carolina Fertilizers on your fruits and fruit-trees of all kinds, corn, wheat and all crops. For, at harvest time, you will have the largest crop. Free from Alcohol

Since May, 1906, Ayer's Sarsaparilla has been entirely free from alcohol. If you are in poor health, weak, pale, nervous, ask your doctor about taking this non-alcoholic tonic and alternative. If he has a better medicine, take his. Get the best always. This is our advice.

Ayer's Sarsaparilla

We publish our formulas
We banish alcohol from our medicine
We urge you to consult your doctor

A sluggish liver means a coated tongue, a bad breath, and constipated bowels. The question is, "What is the best thing to do under such circumstances?" Ask your doctor if this is not a good answer. Take the lively doses of Ayer's Pills.

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass.

down his home merchants to patronize these fakirs is far from being a loyal, patriotic and good citizen.

But few of our readers, we imagine, ever give a thought to the value of this paper to the community. The home paper has an influence for good that is hard to overestimate. It moulds public opinion; it does well its part in protecting and preserving the government. It takes the place of a standing army in guarding the liberties of the people; it teaches your children morality, truth and power; it brings many rich blessings to the home it visits with but little financial reward for its labors, and in too many instances not any. The home paper is the mirror in which those at a distance see us. It is the plain duty of all who are interested in our town to take personal interest in the town's paper and assist in every way possible in making it a true representative of our intelligent and hospitable people as well as our enterprising and rapidly developing little city. Send the paper to your friends, bring us the news and do your duty by your home paper and it will meet you more than half way. When you help your home paper you help your town and indirectly help yourself, for we are all equally interested in our town and community.

EUREKA!

Yes, I Have Found it at Last

Found what? Why that Chamberlain's Salve cures eczema and all manner of itching of the skin. I have been afflicted for many years with skin disease. I had to get up three or four times every night and wash with cold water to allay the terrible itching, but since using this salve in December, 1905 the itching has stopped and has not troubled me.—ELDER JOHN T. FLUE CURING IMPROVES TOBACCO LIKE ROASTING IMPROVES GREEN COFFEE

Flue Curing Develops the Stimulating Aroma and Taste Found in Schnapps that Satisfies Tobacco Hunger

There are three ways used by farmers for curing and preparing their tobacco for the market; namely, sun cured, air cured and flue cured. The old and cheap way is called air cured; the later discovery and improved way is called flue cured. In flue-curing the tobacco is taken from the field and suspended over intensely hot flues in houses especially built to retain the heat, and there kept in the proper temperature until this curing process develops in the tobacco the stimulating taste and fragrant aroma found in Schnapps tobacco, just as green coffee is made fragrant and stimulating by the roasting process. Only choice selections of this ripe, juicy flue cured leaf, grown in the famous Piedmont country, where the best tobacco grows, are used in Schnapps and other Reynolds' brands of high grade, flue cured tobaccos.

Hundreds of imitation brands are on sale that look like Schnapps; the outside of the imitation plugs of tobacco is flue cured, but the inside is filled with cheap, flimsy, heavily sweetened air cured tobacco; one chew of Schnapps will satisfy tobacco hunger longer than two chews of such tobacco.

Expert tests prove that this flue cured tobacco, grown in the famous Piedmont region, requires and takes less sweetening than any other kind, and has a wholesome, stimulating, satisfying effect on chewers. If the kind of tobacco you are chewing don't satisfy, more than the mere habit of expectorating, stop fooling yourself and chew Schnapps tobacco.

Schnapps is like the tobacco chewers formerly bought costing from 75c. to \$1.00 per pound; Schnapps is sold at 50c. per pound in 5c. cuts, strictly 10 and 15 cent plugs.
