—There was a crap game in operation last Saturday night. A crowd of negroes broke into the rooms above Watts & Co.'s bar after the stores had closed, and were having a good quiet time till some dispute arose over the game and then a fight began. Sometime during the night the oil gave out in their lamp so they proceeded to borrow one of the street lamps from which they got oil to refill their lamp. The night policeman knew nothing of the game till he heard them fighting, as they were in a back room and the light could not be seen. He heard two names called and these he had arrested and brought to trial Tuesday evening, but for lack of evidence they were turned loose.

SPECIAL BARGAINS
IN PIANOS

We frequently take other makes of pianos as part payment for a STIEFF. In such cases we have our expert factory men thoroughly overhaul and put them in fine condition. We then sell them at very low prices on easy payments. If you feel that you don't wish to pay the price for a new Stieff, let us tell you about what we have in those instruments. If later you wish a new Stieff, we will take the old one back. Write us about it.

DOINGS AT
JAMESTOWN

Jamestown Exposition, Va.—The second annual meeting of the North Carolina Architectural Association was held at the Jamestown Exposition, on the 12 and 13 of July. This association was formed at Wilmington, North Carolina July 7, 1906, and elected the following officers; President Charles C. Hook, Charlotte, N. C., Vice President, Charles W. Barret, Raleigh, N. C.; Secretary and Treasurer, Franklin Gordon, Charlotte, N. C.

The association was formed to unite the architects of the state of North Carolina and the contiguous territory, and to combine their efforts so as to promote the artistic, scientific and practical efficiency of that profession.

The association had as its guests at this meeting the architects of Virginia and South Carolina.

Among the many addresses and lectures which took place as part of the program of that meeting was the lecture of a well known engineer, whose subject was "Steam Heating as Applied to the Architects Work". There was also addressed by the president of the association and officials of the exposition.

This meeting was held in assembly room number one, on the first floor of the auditorium.

Texas Elks Coming

Among the thirty thousand Elks who will come down from Philadelphia July 22 to observe Elks' Day at the Jamestown Exposition there will probably be no delegation attract more attention than the El Paso Quien Sabe Club of Elks, of El Paso, Texas.

Its members, attired to represent every type of the picturesque costumes in the sister republic of Mexico. The Quien Sabe Club will go east to the national convention in Philadelphia this year with a kaleidoscopic collection of garments, educative and instructive, to people unaccustomed to the manners and dress of the Mexicans, and picturesque indeed in their beautiful blending of the soft blended shades at which the Mexicans and Indians are adepts.

Again the Quien Sabes will make the trip in a special train all the way from the border of sunny Mexico to the borders of picturesque Canada on the north, through Canada to Niagara, and thence down south to the convention city of brotherly love and on to the Jamestown Exposition. Two years ago the same organization made the trip to Buffalo, N. Y., and was awarded the first prize for traveling the longest distance of any organization at the meeting. This time they will travel much further.

For the second time the club will also take the famous Guardalajara band. This is the personal band of the governor of the Mexican state of Jalisco, 650 miles from Mexico and is tendered again to the club as a compliment from the big, six foot governor, Miguel Ahumada, who is an honorary member of the El Paso Elks, the only foreigner who has such a distinction in the entire membership of the order. This band, composed of sixty-two pieces, under the leadership of Augusto Azzalia, son of a noble Italian family won first prize in competition with bands from all over the United States at Buffalo in 1905 and is entered for the Philadelphia contest under the leadership of the same man.

En route to the convention the train will make numerous stops where visits will be made to the lodges of the cities visited and the band will play a concert in some convenient spot. Stops will be made at Kansas City, Davenport and Topeka, Moline and Rock Island, Chicago, Detroit, Buffalo, Niagara Falls and elsewhere en route to Philadelphia and after the close of the national convention in Philadelphia, the Elks, in their Mexican costumes and accompanied by their Mexican band, will visit the Jamestown Exposition on "El Paso Day".

Among the pilgrims of the special train, every costume from the gay charro of the male with gold and silver braid and buttons, down to the bright hued attire of the peasant or, to use the Mexican word poem, will be represented. Even the bull fighter will not be neglected and the gaudy colors of scarlet and gold and green and purple of the gay and gallant mat-

adors, picadors and bandilleros will be worn. The gaudy capes carried by the bull fighters to lure Mr. Toro to his death and the beautiful Zerapes, the wonder of all easterners, will adorn many shoulders. It will be one of the most picturesque aggregations ever sent to a national reunion of Elks, and will be educational in that it will correctly represent the dress of all classes of citizens of Mexico. The Mexican government would not recognize the organization and permit the use of its band if the costumes were not correct.

—Tuffy-Tolu, that's me.

—Ask for El Coreso, Refuse others.

—Smoke El Coreso.
