Cure Your Dandruff

Why? Because it is annoying, untidy. And mostly, because it almost invariably leads to baldness. Cure it, and save your hair. Get more, too, at the same time. All easily done with Ayer's Hair Vigor, new improved formula. Stop this formation of dandruff!

The new Ayer's Hair Vigor will certainly do this work, because, first of all, it destroys the germs which are the original cause of dandruff. Having given this aid, nature completes the cure. The scalp is restored to a perfectly healthy condition.

PRESS CLIPPINGS

The action taken by the banks of Greenville and Pitt county to temporarily pay drafts in cashiers' checks instead of cash, need not give any one the slightest uneasiness. It is done merely to tide over a time when the money they have deposited in other banks is not available, and to meet the demands of business. The cashier's checks which the banks give out are as good as so much money, and will be accepted as such money in any business transaction. Let everybody keep confident and business will go right on without interruption. The banks should be commended for this action, for if such a step had not been taken to protect business while money is being held in the cities, there is no telling what would have happened.—Greenville Reflector.

They rushed Treasury money to Wall street to keep the bottom from falling out of stocks. So far as heard from there is no disposition to do likewise to prevent the bottom dropping out of cotton and tobacco. Both are lower than they should be because millions of currency are locked up in New York. If the Treasury can protect the stock market it can protect the cotton market. The money should be left in the hands of the people and there should be no partnership between Wall street and the Treasury Department.—News & Observer.

Not a day passes but prohibition in the south has come a step nearer. In nearly every instance where an election is held the sentiment is overwhelmingly for no liquor. The day is coming when the final step will be taken and the whiskey business driven out of the country. Already the people, who fail to see what right a state has to make drunkards, are looking to the time when the legalized sale of drink will be one of the vices of the past.—Raleigh Times.

The panic of 1873 came while Grant was serving his second term; the panic of 1893 came while Cleveland was serving his second term; and the panic of 1907 comes while Roosevelt is serving his second term. Is this an argument against a second term for a president? The best rule would be a six-year term and ineligibility for re-election.—News & Observer.

The Louisville Courier-Journal wants to know whether it should be called "the Philippine Assembly, Douma or Mob". It is probably immaterial to the members so long as the salary is the same.

What the Governor of North Carolina said to the Governors of Alabama and Georgia is not recorded, but it wasn't as dry as his prohibition record.

Finding Money

OUR PARAGRAPHER

In the flurry, a lot of wildcat corporations took to the woods. And now it appears that there is a collar button trust. The people get it in the neck again, of course. Luckily, however, not many of our American girls can afford to buy those dinky little foreign noblemen.

A Missouri woman is asking \$10,000 for a kiss. How can she have the face to demand a price like that?

Another thing in favor of a balloon race is that it doesn't get the innocent bystander's eyes and lungs full of dust.

Harriman and Rockefeller lunched together the other day. Between them both they usually lick the platter clean.

Just because the devil is always portrayed as a man some women look with suspicion on every male person they meet.

When a woman is over thirty she conceals her age, but when she is over a hundred she brags about it.

In some restaurants they are now cooking with electric stoves. That shocks the steaks; the price shocks the consumers.

Twenty years from now, averts a scientist, we will all be flying. However, the chances are that a good many of us will be flying.

An impression seems to prevail that American warships have a right to go where it may seem desirable to send them, without asking permission.

"Mr. President you are no tender foot," said a guide, thereupon Mr. Roosevelt handed him a \$20 bill," says a news item. Does this really prove that he is or he isn't?

Abel Ruef of Frisco, recently, swore in court that he did not know the meaning of "graft". Abel certainly would make an ideal Standard Oil witness.

A Connecticut man wants a divorce from his wife because she will give him only sausage for breakfast. He is supposed not to be a dog fancier.

Where Senator Tillman is at present, we do not know, but we are free to assert that the boy-office nearest him, shows no signs of tightness in the money market.

Boiled down, the findings of the Hague Peace Conference amounts to this: There will be no more war, but if there is, it should be as lady-like as possible; and if there isn't, why, the delegates can't help it.

It is now said that President Roosevelt is going to make all the fat admirals climb up a mast to prove their efficiency in seamanship. This ought to bring a big revenue to the government at 25 cents a ticket.

According to the N. Y. Press, a country paper announces gravely, that "Miss Legg has given her hand to Mr. Grasp." Let us hope that he will hold on to her.

The finest Coffee Substitute ever made, has recently been produced by Dr. Shoop of Racine Wis. You don't have to boil it twenty or thirty minutes. "Made in a minute" says the doctor. "Health Coffee" is really the closest Coffee Imitation ever yet produced. Not a gram of real coffee in it either. Health Coffee Imitation is made from pure toasted cereals or grains with malt, nuts, etc. Really it would fool an expert—were he to unknowingly drink it for "Coffee." J. A. Mizell, & Co.

The President and his hunting companions in Louisiana, ate three bears, six deer, one wild turkey, twelve squirrels, one duck and one possum. After that they ought to be able to get along on beefsteak and potatoes for a while.

Loyal B., alias Limber Twig

Dr. W. E. Warren, the owner of Loyal B., and Mr. and Mrs. A. R. Mizell returned from Suffolk, Va., last Friday. After arriving at Suffolk Dr. Warren was informed that Loyal B. could not trot in the 2:40 class, in which he had been entered, owing to the fact that he, Loyal B., had a lower record. Upon investigation it was found that Loyal had been on the track under a different name, Limber Twig, and had won a race in 2:30, this being true he was barred from the 2:40 class. A 2:25 class was made up and Loyal B. entered in that, winning second money. He was a close second in all three heats, which were trotted in 2:16, 2:18 and 2:19. Loyal B., was also entered in the free for all, winning third money. The free for all race was made up of fast pacers, Loyal being the only trotter in the bunch. There were pacers in this race that had records below 2:15.

Limber Twig was sold last May at the Norfolk Special Horse Sale. The following is his pedigree, taken from the Norfolk Special Horse Sale Co.'s catalogue.

Limber Twig, record 2:30; Trial 2:22 1/4. Trotter: Bay horse, 7 years old, 16 hands high. Sired by Portsmouth 9536. Son of Alcyone 732, sire of Bush 2309 3/4, Martha Wilkes 2308, Alcyon 2310 and 55 others in 2:30 or better.

A statement appended to the above reads as follows: "Limber Twig was worked on a farm until last spring, (1906), when he was put into Mr. Frank Covington's hands at the Norfolk track, and in just six weeks work stepped a full mile in 2:22 1/4, last half in 1:10. He is good headed, always on the trot, and we believe he will make a most consistent trotter and train out to a fast horse. His qualities are extra good wherever you place him."

What Would You Do?

Resolutions of Respect

Resolutions of respect adopted by the Woman's Auxiliary, of the Church of the Advent, on October 31th 1907.

WHEREAS, God, to whom belong the issues of life and death, has in mercy taken to Himself the spirit of Louallie Poole Staton, therefore be it resolved:

1. That this the first break in the chain which binds us together, comes with saddening force, but teaching us the great lesson of patient submission to the Divine will.

2. That while our deceased friend could not be with us in the midst of our labors for the rebuilding of the parish, she was ever ready to respond generously to every call.

3. That we deplore our loss, and mourn with the husband upon whom the dark hand of affliction has fallen so heavily, but with faith we can turn with him and looking upward, say, "The Lord gave, the Lord hath taken away; blessed be the name of the Lord."

4. That a copy of these resolutions be inscribed upon the minutes of the Woman's Auxiliary, one be given to the bereaved husband and one be sent to the Enterprise for publication.

GAMBLER'S PANIC

BETTER BE A HERO IN CIRCULATION INSTEAD OF A MARTYR BY HOARDING. (News & Observer.) To the Editor: I understand the banks at Rocky Mount have stopped paying full amount in cash for checks, which leads me to conclude that it is suicidal to any interest, whether it be merchant, farmer, contractor, real estate dealer, or any other occupation to draw out their deposits from the banks and put it in idleness. It all has a tendency to retard business and depreciate the product of their labor. Out of the six or seven hundred thousand dollars of deposits in the banks of Rocky Mount I would suppose that three-fourths of the amount is out on good papers which is not due, and since one bank can't draw from another in time of need, the best thing to do is to increase deposits all you can instead of drawing on them unnecessarily. It is a gambler's panic and a people's scare, and needs being extinguished instead of adding fuel to the flames. Better be a hero in circulation instead of a martyr by hoarding.

The Butter Dish Factory Committee at Work

The committee appointed at the meeting of the business men last week to look into the freight rate, and to secure a site for the butter dish factory, secured from the rail roads a rate, while not quite as low as was wanted, which was indeed quite a cut in the regular rate. The committee has been at work since last Saturday trying to secure a still lower rate, but up to the present time has only been able to get letters from the railroads acknowledging receipt of its letters.

In regard to the site for the plant several were visited by the committee, accompanied by the gentlemen interested, and it was found that a site satisfactory to these gentlemen could be had.

Mr. O. B. Lay left last Sunday morning for Emporia, Va., where they have an option on a plant, to take a further look into the timber situation there.

Mr. O. H. Lay left Wednesday morning for his home in Port Alleghany, Pa., whither he was called on account of a serious accident to one of the members of his family.

Before leaving, however, Mr. Lay stated to the writer that Williamston was the most favorable location yet visited. He also stated that the freight rate was a little high, but the main trouble was that he feared he could not secure the labor necessary to operate the factory. He further stated that he would see his son at Emporia and would send him back to Williamston for a further look into the matter.

Lincoln's Great Oration. Lincoln's Gettysburg speech derives its power from the following facts: Its brevity—everything is concise and right to the point, so that the reader receives the fullest effect at once; its absolute sincerity, creating the impression that the speaker is aiming not at effect, but at the honest unfolding of his soul's commingled joy and sorrow, sympathy and hope; its perfection of style, its words being just such as were needed properly to express the idea, simple, yet powerful, going straight to the mark like well aimed cannon balls.—New York American.

Female Weakness

"Last Fall," writes Mrs. S. G. Bailey, of Tun-nelton, W. Va., "I was going down by inches, from female disease, with great pain. After taking Cardui, Oh! My! How I was benefited! I am not well yet, but am so much better that I will keep on taking Wine of Cardui till I am perfectly cured."

Despite the envious attacks of jealous enemies and rivals, Cardui still holds supreme position today [as in the past 70 years] for the relief and cure of female diseases. It stops pain, tones up the organs, regulates the functions, and aids in the replacement of a misplaced organ.

Town Drummers. In Scotland the town drummer was an important personage and performed many duties. When beggars or suspicious characters could not give a satisfactory account of themselves on being brought before the bailies and were ordered to be placed in the pillory or in the jongs they were afterward drummed out of the town.
