At any rate nothing has been heard of Admiral Evans bombarding any South American fishing fleets.

S. of Plant City, Fla., who says: "I was trucking on a small scale, and decided I would try a few sacks of your fertilizer, as it was cheap and said to be good. I put it under some tomatoes by the side of some other high grade fertilizer about cost me \$15 a ton more, and in the same proportion per acre. I don't think I exaggerate in the least in saying that the yield from my Virginia-Carolina Fertilizers was three times that of where I used the other brand of so-called high-grade fertilizer."
