"Health Coffee" is really the closest Coffee Imitation ever yet produced. This clever Coffee Substitute was recently produced by Dr. Shoop, Racine, Wis. Not a grain of real Coffee in it either. Dr. Shoop's Health Coffee is made from pure toasted grains, with malt, nuts, etc. Really it would fool an expert—who might drink it for Coffee. No 20 or 30 minutes tedious boiling. "Made in a minute" says the doctor. Sold by J. A. Mizell & Co.

If one feels dull and spiritless, in the spring or early summer, they call it "Spring Fever". But there is no fever—usually. It is the after effect of our winter habits. The nerves are mostly at fault. Tired, worn-out nerves leave us languid, lifeless, and without spirit or ambition. A few doses of Dr. Shoop's Restorative will absolutely and quickly change all of these depressing symptoms. The Restorative of course won't bring you back to full health in a day or two, but it will do enough in 48 hours to satisfy you that the remedy is reaching that "tired spot". Druggists everywhere are advising its use as a splendid and prompt general tonic. It gives more vim and more spirit to the spoonful than any other known nerve or constitutional tonic. It sharpens a failing appetite, aids digestion, frees sluggish livers and kidneys, and brings new life, strength and ambition. Test it a few days and be convinced. All Dealers.

Farmers Wishing to Have Their Primings Graded
I would say my Warehouse is now clean and I have 3 or 4 good graders, so if you will bring in your primings, I will have them nicely graded and not charge you a cent more than what I actually have to pay for the grading, and will guarantee the very top market prices on all tobacco sold with me.
Your friend,
TOM S. GRAHAM

A Remarkable Man

The death of W. J. Hardison removes from the community a remarkable man, he was conspicuous for a high sense of honor, devotion to duty and loyalty to friends. His sense of duty was a fulcrum that supported a splendid equipoise. In combat he was a foeman worthy of your steel, in friendship he was the Fidas Achates, in the performance of duty the most desperate chances could not deter him from an attempt to discharge it. He was staunch, straight, strenuous, and fearless. There was no better soldier in the army than he. Were I called upon to select the name of an ideal soldier, I should without hesitation choose W. J. Hardison.

Respectfully,
M. A. COTTEN.

LATE NEWS FROM ROBERSONVILLE

(Continued from page 1)
brain and heart; muscular and thoroughly self-controlled." Had they not cultivated the outdoor habit, the recreation habit, this could not be said of them. Athletics, says President Winston, is an essential feature in the daily national life. "Practically the entire population is in the open air at least six hours a day." Tired mothers and pale seamstresses need the air and sunshine to help restore the ruddy complexion of youth. We need rest and some excitement occasionally to make us forget the treadmill grind of our work. While all this and more can be said of legitimate athletics, it should be carefully guarded against the professional Games should be for healthful rivalry, not antagonistic combat.

The Remedy That Does

"Dr. King's New Discovery is the remedy that does the healing others promise but fail to perform," says Mrs. E. R. Pierson, of Auburn Centre, Pa. "It is curing me of throat and lung trouble of long standing, that other treatments relieved only temporarily. New Discovery is doing me so much good that I feel confident its continued use for a reasonable length of time will restore me to perfect health." Dry Corn For Sheep.

Dry corn gives better results than soaked corn for sheep owing to the better secretion of saliva in eating the dry corn. Oats make a satisfactory ration when given to fattening lambs, but it requires about 25 per cent more oats than corn for a given gain. It requires about twice as much corn as grain for lambs. Roots should be fed in combination with grain. A ration of equal parts of corn and oats or two parts of oats to one of corn, fed with roots, is an economical ration for fattening lambs.—Farm Progress.
