Entered at the Post Office at Williamston, N. C. as Second Class Mail Matter.

Friday, March 12, 1909

Our neighbor "Little" Washington, is preparing to have an "Easter Week Jubilee". The citizens of that fast growing town never lose an opportunity to show the dwellers beyond that it is a good place to live. Williamston might follow in the same path with untold benefit to her material growth. It is dangerous oftimes to be too contented.

Twenty-four American girls have married foreign titles, and in most cases that is all they did marry. This business has cost the American people 185 millions of good American gold. It is a pity to lose so much and get so little in return but there is consolation in the fact that twenty-four of our worthy young men are fortunate in that they did not become the husbands of these silly girls. A girl who thinks more of a title than she does of brains and character always makes a mighty poor wife.

The late Legislature made no mistake when it passed a law to provide for an electric chair in the penitentiary for the execution of all criminals. The excitement produced by a hanging in a community is demoralizing, for morbid curiosity runs riot in the souls of the multitude. The death is not so cruel and the public cannot view the proceedings. The people need ennobling scenes, not things, while lawful, have the unmistakable air of cruelty. There must be some dire punishment for that class of brutes who take that which they can not give—full of murder and rapine, but a Christian people can punish them with death in the way that makes for the best in the life of the people. We are glad that there will be no more hangings in Martin County, when the boys of tender years would climb fences, telegraph poles and adjacent house tops to catch a glimpse of the condemned man.

The readers of the paper may not always understand why certain events are not reported, especially social happenings. Frequently the local reporter has no knowledge of things, and as the general public seems to think that newspaper folks are gifted with second sight, not even a note is handed in. Then again some articles that can be held over must, according to newspaper rules, give room for the things that cannot wait, such as ads and legal notices, which after all mean the life of any paper in a small town. We want news—both town and county, but must have some system as to publication, or else sustain a loss. Few people have any idea of the amount of work even on a country weekly that gives from ten to fifteen columns of new matter every week. There are so many things to be done in an office where job work is the principal source of revenue, and a paper must be issued on every Friday if possible. It is a class of work no novice can do, for unlike other business when crowded one cannot go out on the street and procure help. Newspaper men are conscientious and try in every way to serve the public good, often when the public fails to appreciate their efforts and withhold proper support.

GOLD POINT ITEMS

Mr. T. Jones Taylor was here Sunday.

Mr. J. H. Stalls went to Everetts Sunday.

SUPPORT OF HOME PAPER

Merchants Urged to Back Local Advertising Medium to the Limit

An appreciative view of the home newspaper is given in the Office Outfitter of Chicago, from which we make the following extracts:

Many a good town isn't worth a cent because the local newspaper is neglected. Many a good merchant dising center is dead because the men in business treat the editor of the newspaper as an object of charity. This is wrong. The local paper is the greatest thing in the community. It should be supported. It should be read and patronized. The merchants who think they are clever and smart when they slip one over on the local paper make a big mistake. Every dollar you take away from the local newspaper in schemes and knocks hurts the town. It hurts business, and most of all, it hurts the merchants who indulge in it.

Whatever else you merchants do, patronize your home paper. Don't tell me that it has a small circulation. Don't tell me that you reach

60 YEARS' EXPERIENCE
PATENTS
TRADE MARKS, DESIGNS, COPYRIGHTS & C.
Anyone sending a sketch and description may quickly ascertain our opinion free whether an invention is probably patentable. Communications strictly confidential. HARRISON & MANN, 351 Broadway, New York.
Patents taken through Munn & Co. receive special notice, without charge, in the Scientific American.
A handsomely illustrated weekly. Largest circulation of any scientific journal. Terms, \$5 a year; four months, \$1. Sold by all newsdealers.

Branch Office, 25 F St., Washington, D. C.

ten times as many people with less expense using circulars. Don't spring any of those time worn gags on me at all. Stop standing on your own light. Get behind the local paper and push it for all you are worth. I don't mean push it to the wall. Push it up grade to a position where it ought to be, and as sure as you are alive you will push your own business up with it to a point you never dreamed of before.—Ex.

Improving the Quality, Increasing the Quantity of Tobacco Crops

The ambition of every tobacco planter is to secure the largest possible crop of the best possible quality—and this is most surely, easily, and quickly accomplished by the use of

Virginia-Carolina Fertilizers

As a rule the more liberal the amount of these fertilizers used per acre, the better the results. Mr. John F. Cunningham of Cunningham, N. C., probably one of the largest tobacco growers in the world, says: "I have been using your fertilizer for twenty years. I have sold tobacco made by this fertilizer as high as 90c a lb. Virginia-Carolina Fertilizer is used by the best tobacco farmers in the Tobacco States. It stands upon its merits. There is no better fertilizer made or used in the United States. I take great pleasure in recommending it not only to the farmers of Virginia and North and South Carolina, but to all the tobacco growers in the Union."

The best results are invariably obtained with the use of Virginia-Carolina Fertilizer. Over one million tons were sold last year.

Be sure and get the 1909 Virginia-Carolina Farmers' Year Book from your fertilizer dealer, or write our nearest sales office and a copy will be sent free.
