

ROOSEVELT RETURNS AND IS GIVEN AN OVATION SELDOM EQUALED

The Mighty Traveler Goes Buoyantly Through a Long and Trying Reception-Parade, Showing Lively Interest in Everything American.

The White Company Receives Unique Compliment For the Sturdy Reliability of Its Steam Car From Mr. Roosevelt and Family.

Theodore Roosevelt and Party in White Steamer.

After fifteen months' absence, exactly as scheduled, Colonel Theodore Roosevelt disembarked from the Kaiserin Auguste Victoria, Saturday morning, June 18, at 11 a. m. To the keen disappointment of a large group of newspaper correspondents, Mr. Roosevelt absolutely refused, as heretofore, to be interviewed or to talk on political subjects, but his rapid fire of questions showed the same virile interest in public affairs as before.

If the welcome tendered by the vast throng may be considered a criterion upon which to base a "return from Elba," surely there was no discordant note in the immense reception-parade, nor in the wildly clamorous crowd which cheered at every glimpse and hung on his very word.

The incidents of the day in New York were many, but perhaps none better illustrated the nervous energy and vitality of the man, the near-mania to be up-and-doing, which he has brought back to us, than the discarding of horses and carriages for the swifter and more reliable automobiles. The moment the Roosevelt family and immediate party landed, they were whisked away in White Steamers to the home of Mr. Douglas Robinson at 433 Fifth avenue. A little later, when the procession reached the corner of Fifty-ninth street and Fifth avenue, Colonel Roosevelt again showed his preference for the motor car in general and the White cars in particular, when he, Cornelius Vanderbilt and Collector Loeb transferred from their carriage to White Steamers, which were in waiting for them.

After luncheon at Mr. Robinson's house, the entire party, including Colonel Roosevelt, again entered the White cars and were driven to Long Island City, where they were to take a special train to the ex-President's home at Oyster Bay.

The supremacy of the White cars with the Roosevelt party was again demonstrated on Sunday, when the party was driven to church in the White Steamers, and a group of some forty prominent Rough Riders were taken in a White Gasoline Truck to a clambake at the Travers Island clubhouse of the New York Athletic Club.

Sixteen bull's-eyes in sixteen minutes, with twelve-inch guns,—the new achievement of the battle-ship South Carolina,—gives point to the answer which the sailor made to the admiral who tried to quiz him. "Can you hit that man in the eye?" the admiral asked, pointing to a figure a thousand or more yards away. "Yes, sir. Which eye, sir?"

WEAK KIDNEYS WEAKEN THE WHOLE BODY.

No chain is stronger than its weakest link. No man is stronger than his kidneys. Overwork, colds, strains, etc., weaken the kidneys and the whole body suffers. Don't neglect the slightest kidney ailment. Begin using Doan's Kidney Pills at once. They are especially for sick kidneys.

Frank H. Reynolds, 327 Pine St., Providence, R. I., says: "My doctor told me an examination of the urine showed albumen. I took his medicine for a whole year, doctored with a New York specialist and took electrical treatments without relief. My suffering was simply awful. Six weeks' use of Doan's Kidney Pills cured me, however, and the cure has been permanent for four years."

Remember the name—Doan's. For sale by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

Another New Steel.—At Chester, Pennsylvania, a new kind of steel is now being manufactured under the name of "cementation steel." It is of the highest carbon variety but contains more sulphur and less manganese than ordinary tool steel. The steel is so dense that it remains unresolved under the microscope with a magnification of 1,200 to 1,600 diameters, although that of open-hearth, crucible and Bessemer steels can be resolved with a magnification of 100. Its elastic limit is said to be very high and its ultimate strength eighty thousand pounds. It is intended especially for fast gears, crank-shafts, connecting rods, and so forth. The process of manufacture takes from six to eight weeks.

A Mistake.
"You don't want to make any mistake about Philadelphia's being a slow town," said Dobbleigh. "No, sirree. I discounted a thirty-day note over there once, and, by Jingo, thirty days pass just as quickly over there as they do here!"—July Lippincott's.

For the South Pole—The British antarctic expedition, to be commanded by Captain Scott, composed of 28 officers and men of science and a crew of 27 picked men, sailed from the Thames, June 1st, in the Terra Nova. Captain Scott hops to reach the south pole in December, 1911. In addition to ponies and dog-teams, the party is provided with a novel means of transport in the form of a motor-sledge, which has been satisfactorily tested on the snow of Norway.

The New Reporter.
Possibly all of you have heard of metropolitan daily who sent out one of these cub reporters on his first important assignment—to cover a wedding, the biggest of the season because of the social prominence of the contracting parties. The college youth bustled out in high glee. Midnight came and he had not turned up. Donning coat and hat the city editor went on a still hunt. He found that aspiring journalist chatting idly with a group of friends in front of a corner drug store. "What's the trouble," he exclaimed with some heat, "what about that wedding story?" "Aw, there was nothing to it," the cub exclaimed, "the groom didn't show up and there wasn't any wedding."

Speaking of by-products, the rubbish of New York city nets the city some two hundred and thirty-four thousand dollars a year over the cost of collection. Municipalities have learned some lessons from the packing-houses.

It was in this very cottage in Brookside, 15 miles from Birmingham, Ala., that three Italians nearly died of Fever. They had been sick 3 months. Johnson's Tonic cured them quickly—read letter below

Brookside, Ala., May 4, 1908.
The two physicians here had 3 very obstinate cases of continued Malarial Fever. All were Italians and lived on a creek 50 yards from my store. These cases were of three months standing, their temperature ranging from 100 to 104. The doctors had tried everything in vain. I persuaded them to let me try Johnson's Tonic. I removed all the pills and let the medicine go out in a plain bottle as a regular prescription. The effect in all three cases was immediate and permanent. They recovered rapidly and there was no recurrence of the Fever. S. H. SHIPLEY.

A Burning Eruption Covered Her From Head to Feet.

"Four years ago I suffered severely with a terrible eczema, being a mass of sores from head to feet and for six weeks confined to my bed. During that time I suffered continual torture from itching and burning. After being given up by my doctor I was advised to try Cuticura Remedies. After the first bath with Cuticura Soap and application of Cuticura Ointment I enjoyed the first good sleep during my entire illness. I also used Cuticura Resolvent and the treatment was continued for about three weeks. At the end of that time I was able to be about the house, entirely cured, and have felt no ill effects since. I would advise any person suffering from any form of skin trouble to try the Cuticura Remedies, as I know what they did for me. Mrs. Edward Nanning, 1112 Salina St., Watertown, N. Y., Apr. 11, 1909."

The Newspaper Guy.

I see a man pushing his way through the lines
Where the work of the terrible fire-friend shines:
"The chief?" I inquire, and a policeman replies—
"Why, no, he's one of them newspaper guys."

I see a man walk through the door of a show
Where the great throngs are blocked by the sign "S. R. O."
"Is this man a star that no ticket he buys?"
"Star nothing; he's one of them newspaper guys."

I see a man start on the trail of a crook,
While he scorns the police and brings him to book.
"Sherlock Holmes?" I exclaim, and someone replies,
"Sherlock Holmes! He's one of them newspaper guys."

And some day I'll pass by the great gates of gold,
And see a man pass through unquestioned and bold.
"A Saint?" and Saint Peter will surely reply,
"He carries a pass; that's a newspaper guy."

COASTING ON GRASS.

The Canadian has his toboggan, the mountaineer his ski, the rustic Easterner his sled, the city boy his wheel-coaster for paved streets, but on the hillside of suburban San Francisco a boy may coast without snow, without a cement sidewalk, without even a coaster. All he needs is a piece of board and a hillside where there is a vacant lot covered with "sticker grass," and away he goes like a sand-bag out of a balloon.

It is a dangerous sport, but no boy loves it less for that. Even full grown men have been known to break faith with life insurance companies, forget their duty for a mad hour into this intoxicating frolic.

Foxtail grass, or "sticker grass," as it most commonly is called, is the terror of gardeners. The seed head of foxtail is borne on a rodlike stem that, as the season advances, becomes stiff and sleek like wire. In California, beginning usually in May, the foxtail makes its appearance on every hillside, thus furnishing an unrivaled coasting track.

June is the ideal month for grass coasting. Almost any June day the boys are enjoying this sport on the slopes of Bernal Heights. Occasionally a long beard starts down the precipitous descent with a sturdy steersman in front and a row of boys snatching along its entire length. On the downward flight some of the coasters are generally "spilled," tumbling comically with the one seated farthest back—Infer-Ocean.

Stomach Blood and Liver Troubles

Much sickness starts with weak stomach, and consequent poor, impoverished blood. Nervous and pale-people lack good, rich, red blood. Their stomachs need invigorating for, after all, a man can be no stronger than his stomach. A remedy that makes the stomach strong and the liver active, makes rich red blood and overcomes and drives out disease-producing bacteria and cures a whole multitude of diseases.

Get rid of your Stomach Weakness and Liver Laziness by taking a course of Dr. Pierce's Golden Medical Discovery—the great Stomach Restorative, Liver Invigorator and Blood Cleanser.

You can't afford to accept any medicine of unknown composition as a substitute for "Golden Medical Discovery," which is a medicine of known composition, having a complete list of ingredients in plain English on its bottle-wrapper, same being attested as correct under oath.

Dr. Pierce's Pleasant Pellets regulate and invigorate Stomach, Liver and Bowels.

Think of Last Summer--

You can remember days when the heat inside your kitchen was so great you could hardly bear it. With the right stove you would have made a better hostess. Save your health. Don't put up with the drudgery of a coal range. You can have a clean, cool, pleasant kitchen. The

New Perfection Oil Cook-stove

does away with all drudgery of cooking. Why should you be a slave to a coal range when you can have an Oil Cook-Stove that is cheaper than coal, cleaner than coal, doesn't "smell," doesn't smoke, lights instantly, can be put out instantly, leaves no ashes, and doesn't heat the kitchen. With one of these stoves you can boil, bake or roast the most elaborate dinner. You can change from a slow to a quick fire, or the other way about, by simply turning a wick. Apply a match, and instantly the heat from an intense blue flame shoots upward through the turquoise-blue enamel chimneys to the bottom of pot, kettle or oven—but nowhere else. The stove has every convenience that can be thought of: Cabinet Top with shelf for keeping food and dishes hot, drop shelves to hold coffee or teapots, towel rack; in fact every convenience possible.

The nickel finish, with the bright blue of the chimneys, makes the stove ornamental and attractive.

Cautionary Note: Be sure you get this stove—see that the name—'New Perfection'—reads 'New Perfection'.

Made with 1, 2 and 3 burners; the 2 and 3-burner stoves can be had with or without Cabinet.

Farm Notes.

It has long been known that birds eat insects, but it has remained for a Rhode Island farmer deliberately to cultivate and encourage birds on his farm for that particular purpose. Eave swallows, robins, orioles and many other "feathered friends" were got to live within a few hundred yards of the house. As a result, there was not only plenty of sweet music, but in a year when the aphids, or lice, ravaged the apple-crop, farmers had a big yield of valuable fruit.
