—Hat Lanier, who was in the toils of the United States once for retailing but was cleared of the charge, was arrested Monday morning on a warrant sworn out by Chief White for the same offence. —James G. Staton has resigned from the Board of Town Commissioners and G. W. Blount was appointed to fill the vacancy. Mr. Staton's resignation removes a strong member from the Board as he has been much interested in street and other improvement. He is a member of the Virginia Carolina Peanut Co., which will take the contract for lighting the town and without a violation of the law could not serve on the Board.

—A good position can be had by ambitious young men and ladies in the field of "Wireless" or Railway telegraphy. Since the 8 hour law became effective, and since the Wireless companies are establishing stations throughout the country there is a great shortage of telegraphers. Positions pay beginners from \$70 to \$90 per month, with good chance of advancement. The National Telegraph Institute operates six official institutes in America, under supervision of R. R. and Wireless Officials and places all graduates into positions. It will pay you to write them for full details at Davenport, Ia., Cincinnati, O., Portland, Ore., or Memphis, Tenn.
