—Just so soon as boys are allowed the liberty of firing crackers, they begin a species of rudeness which makes them liable to the law. Private houses have been bombarded with dynamite crackers and the inmates very much annoyed. Such conduct needs to be taken notice of by the police and the violators punished. Fun to some people is to do the wrong thing.

—Quite a crowd gathered Monday morning to watch the flight of an eagle which had been captured by William Baker in a steel trap. Before giving the majestic king of the air his freedom, a tiny bell was fastened to his neck. The bird measured six feet and seven inches from tip to tip of wings. When liberated, the bird became entangled in the telephone wires and fell to the ground but soon recovered and took his flight across the river.
