year for ten years by the government to dam the great rivers and store their flood waters in such a manner as to prevent freshets and afford a constant flow of water throughout the

Herbert Myrick said the Southern Commercial Congress has made certain that rural credit systems will be established which will enable small

farmers to pool their interests and obtain the money necessary to finance their operations. He also said the congress will be instrumental in inaugurating farm loan associations, which will make land the basis for bonds, which will be better invest ments than government securities. J. O. Wright told of the manner in which Florida has tackled the drainage problems and advocated similar activity by other states.

The waterways conference was ad dressed by Herbert Knox Smith, commissioner of corporations, and Sena tor Francis G. Newlands.

The conference adopted resolutions providing that congress shall be asked to provide for a survey of all districts in need of drainage. This reso lution will undoubtedly be adopted by the Southern Commercial Congress. Launching the conference on cotton handling and financing, Harvie Jor dan of Atlanta declared the bad manner in which American cotton was handled a national and international disgrace, estimating that one hundred million dollars was lost to growers by antiquated methods-the cred-

it system with annual interest charges fifty to one hundred per cent. unmerchantable bales, freight rates 300 per cent, higher than on other staple products and poor warehouse facilities.

Dr. A. C. True, director of experiment stations; J. O. Wright, chief drainage engineer of Florida; Director E. Dana Durand of the census bureau, and John Lee Coulter of the same bureau spoke at various conferences

# AMERICAN LEADS MEXICANS

SOLDIER OF FORTUNE DIRECTS THE GUNS WHICH SHELL PAR-RAL FOR INSURRECTOS.

Samuel Drebin of Philadelphia Com mands Artillery in Mexican

Army.

Jiminez, Mexico.-General Campa has reformed his insurrecto army and, according to a courier, who arrived here after being in the saddle a long while, has begun to shell Parral, where General Villa, the victorious Federal leader, is entrenched.

A dispatch from General Fernantez, one of the rebel leaders, said that the insurrectos has succeeded in surrounding the city and cutting off the lood supply. Troops under General Salazar of the rebel forces destroyed portions of the national railway which uns into Parral, preventing armored troop trains from entering. The Fed eral generals, Vila, DeSoto and Urbina, have defended the city with resourcefulness and daring. They have turned the tallest of the adobe and tone buildings into blockhouses with artillery mounted on the roofs,

The from cannon and mortar shells is not known, but the rebel dead and wound ed in the fighting is said to be nearly four hundred.

whose home is in Philadelphia and who has fought in many revolutions, is in command of the rapid-fire battery in the rebel artillery and has established himself on Prieta Hill, ac cording to last reports sent.

pledged. In explanation of his action, Governor Foss says he had learned repre-States senator to succeed the late sentatives of one or more of the avow-

## **ALL ORIENTALS ARE BARRED**

Union Men in Pacific Coast Citles Demand the Recognition of Their Organization.

San Francisco .- With the events cf the last week, the struggle between the employers of the Pacific coast and the Industrial Workers of the World has narrowed down to two is

A manifesto issued by the San Diego Free Speech League is making the fight to spread the open shop propaganda. The question of higher wages and shorter hours has been eliminated -at least, temporarily, in the Northwest-by the stand of the strikers on the sole issue of recognition of the industrial workers' organization.

San Diego has been beset by the free speech agitators since January 1, and the announcement was made that an army numbering 10,000 industrial workers would mobilize at San Francisco. Sacramento and Stockton and march to the Southern city.

San Diego special deputies and citizens assert they will meet the re-inforcements of industrial workers, now headed souhtward, and will drive them back.

The struggle in the Northwest cen ers around six thousand striking railroad laborers in British Columbia, and 14,000 sawmill workers in Southwestern Washington. The first strike of the Industrial Workers of the World in British Columbia was called late in March, when the laborers on construction work on the Canadian Northern railroad quit. Premier Richard McBride refused to

aid the employment of Orientals to take the place of the strikers. The Washington strike began March 15 with a strike of about 1,500 saw-mill workers. Rioting began almost immediately and 150 men were arrest ed. The strike spread to Raymond, Aberdeen, Seattle and the Hump Tulwips river district. At Grays Harbon the employers granted the demands of the strikers for a minimum wage of \$2.25 a day. This brought the re-ply that the workers would demand the recognition of their organization, regardless of any other grants made

So Charge the Special Commissioners of Orozco.

New York .- The three special commissioners from General Orozco, leader of the Mexican revolutionists, who arrived here to present to the American people the revolutionists' side of the present trouble in their country, in a long statement, given out by Manuel L. Lugan, head of the commission, bitterly assailed the administration of President Madero and declared that his tactics in the government of Mexico are slowly wrecking

the nation. Madero is charged with violating every oath he made to the men that helped him to overthrow the reign of Diaz. He is charged with misuse of government funds, with making it impossible to walk the highways of Mex-ico in safety, and with not protecting

FLOODS LEVEES BREAK

Workers Battle Against Waves Until Collapse, and Then Are Forced to Flee for Their Lives.

Memphis, Tenn.-With one main levee gone, water lapping the crest of the embankments at half a dozen points and several breaks believed to be only the question of hours, Ma-jor Clark S. Smith, United States engineer directing the fight against the water's encroachment, described the Mississippi river flood situation as grave. The Reelfoot Lake levee, west of Hickman, Ky., was the first of the main embankments to go.

Golden lake, 50 miles north of Memphis, and the levee on the Arkansas side, eight miles below this city, are regarded as in imminent danger. At both points sandbags have been piled on the surface of the revetments to a height of one and a half feet, and the water is washing over. At Mound City, Ark., and at Holy Bush also the Mound levees threaten to cave.

### TELEPHONE CANNOT! TRANSMIT DISEASE

Scientists Prove Telephones Do Not Spread Disease. It is reassuring to learn on what

appears to be excellent authority that the danger of acquiring tuberculosis through the use of telephones is practically inconsiderable. time ago an inquiry into the condition of public telephones in this country produced only negative results. A further inquiry of a more elaborate kind has since been made in England and the conclusions are equally encouraging. The experiments were planned by Doctor Spltta, bacteriologist to the king, at the instance of the postmaster general. First he picked various telephones which had been in use for various periods, and having prepared washings from the mouthpleces inoculated a number of guinea pigs to determine the presence of tubercle bacilli. The results were in every case negative. The telephones in this series of experiments were chosen at random from railway stations, meat markets, postoffices and other public places. But

#### WHEREIN DADDY WAS WRONG

Fommy Resented Injustice Done to Saw, After He Had Proved Its Temper.

Mr. A-, who was planning to build an outdoor sleeping porch at the back of his house, had an expensive new saw sent home from a hardware store. He left his office early the next afternoon, with the intention of get-ting the porch well under way before dinner; and, as he was very much interested in doing the work himself, he donned a pair of overalls and went at It in good spirits. An hour or so later e tramping into the house, his face dark with exasperation, and flung himself down in disgust.

"That new saw I bought isn't worth five cents," he stormed. "Why, the thing won't cut butter!"

His small son Tommy looked up in vide-eved surprise.

"Oh, yes, it would, daddy," he said, earnestly; "why, Ted and I sawed a whole brick in two with it just this norning!"-Harper's Magazine.

RASH ALL OVER BABY'S BODY

Itched So He Could Not Sleep

"On July 27, 1909, we left Boston for a trip to England and Ireland, taking baby with us. After being in Ireland a few days a nasty rash came out all over his body. We took him to a doctor who gave us medicine for him. The trouble started in the form of s' rash and was all over baby's body. head and face, at different times. It irritated, and he would scratch it with all his might. The consequence was it developed into sores, and we were afraid it would leave nasty scars on his face.

"When we reached England we took haby to another doctor, who said his condition was due to change of food and climate, and gave more medicine. The rash got no better, and it used to tich and burn at night so had that the child could not sleep. He was com-pletely covered with it at different times. It was at this time that my mother advised us to try Cutic Soap and Ointment. After using Cuticura Soap and Cuticura Ointment for about nine months the places disappeared. There are not any scars, or other kind of disfigurement, and baby is completely cured by the Cuticura Soap and Ointment. We have no fur-ther trouble with baby's skin. Nothing stopped the itching, and allowed baby to sleep but Cuticura Soap and Cuticura Ointment." (Signed) Mrs. Margaret Gunn, 29 Burrell St., Roxbury, Mass., March 12, 1911.

Although Cuticura Soap and Ointment are sold everywhere, a sample of each, with 32-page book, will be mailed free on application to Cuticura," Dept. L. Boston.

Extra inducement. Cohen, the clothier, followed a cus

tomer out to his buggy. "Dot's a pretty fine horse you are driving," he commented approvingly.

'Yes, he's a good one.' "How much would you sell him for?"

"Seventy-five dollars." "Mein Gott! is he silk lined?"-Everybody's.

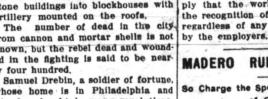

Logical. The car labored heavily over wet and deeply scarred roads.

"Have you any idea where we are?" asked Blinks.

"No," said Garraway, "though the roads suggest we are near either Wa-terville or Rutland-I don't know which."-Harper's Weekly.

A Confession.

Startled by convincing evidence that they were the victims of serious kid-

Living on \$102.50 a month is easy. coording to Johnny Rockefeller, Jr., Getting \$102.50 a month is comparatively easy if one's father owns a flock of oil wells.

Those highbrows who have bottled chunks of Chicago atmosphere probably intend to use it for lampblack.

Thomas Edison says there will be no poverty 100 years from now. This may be optimism, but we can't see it.

A Texas judge adjourned court long enough to whip the man who had called him a liar, and then fined himself \$10 for contempt of court. Did remit the fine?

The attorney general of California ces that a woman who marries an alien loses her right to vote. It behooves girls to be careful, especial by during leap year.

Austria is reported to be trying to anopolize radium. We have suspect ed from the first that something uld be done to keep radium out of the hands of the poor.

One hundred and forty-eight mur ders were committed in New York last year. One murderer was executed. Apparently a case of hard luck so far as he was concerned.

Atlantic City announces the cap ture of an immense lobster. Which is probably intended as an invitation to bathing beach girls to hurry there and make him get busy with his pock etbook.

Grasshoppers came out in force in s New York town, a Connecticut woman was stung by a wasp, and a pollywog caught under ice is being exhibited in store window in a town in the same tate. After this no weather expert f any experience or real knowledge ill dare to deny that spring is near

Senator Robert L. Taylo ders is state chairman of the Republican party and a prominent manufacturer of Chattanooga. Newell Sanders, who was named by

Governor Hooper to fill the unexpired term of the late Senator Robert L. Taylor, will be the third Republican who has served the state of Tennes see in the United States senate. The first was Joseph S. Tyler, Union-Re-

publican, who was in the senate from 1865 to 1871. The other was William G. Brownlow, who was senator from 1869 to 1875.

Mr. Sanders is a native of Indiana nd a graduate of the University of Indiana, but has lived in Chattanooga since 1878. He is a prominent manu facturer and capitalist and has been chairman of the Republican state executive committee of Tennessee for

many years. Murdered Girl and Killed Self.

Statesville, N. C.-J. Columbus Schoemaker shot and killed a 15-yearold sweetheart and then blew out his own brains, his victim being Miss Jeanette Templeton, both residents of Iredell county. Schoemaker fied after the murder of the girl and the searching party soon found his body a short distance away. He had removed his coat and placed the muzzle of the gun used in murdering Miss Temple ton to his forehead and pulled the trigger. His attentions had been repelled by the young woman.

#### Caterpillars Killing Crops.

Washington .- In the midst of the hubbub over saccharin and the Ever glades, Secretary Wilson of the de partment of agriculture has given out a statement to the effect that he is greatly worried over the peanut crop. Caterpillars, according to the "father cabinet," are doing \$3,000,000 a of th year damage to a \$15,000,000 peanut crop, and it is high time the ravages of this worm cease. The blight is killing the chestnuts, black walnuts are almost extinct and blckory nuts are growing scarcer.

ed candidates for president were preparing to withdraw their names out of to him. He asks that those representatives be urged to permit the names of their candidates to remain, as if only one name appeared no chance would be given for an expres sion of popular preference,

Mrs. McRee Is Free.

Opelousas, La.-Mrs. Zee Runge Mc Ree, who shot her young friend, Allan Garland, to death in her home here September 21 last, was acquitted by a jury of the charge of manslaugh-Holding her golden-haired lit. ter. Holding her golden-naireu in tle daughter, Vallera, in her arms and with tears streaming down her cheek, Mrs. McRee arose as soon as the foreman had announced the verdict and thanked the jury. All smiles and all tears, husband and wife em braced.

Tariff Revision by Tariff Board. Washington .- President Taft, in an address to the members of the Ameri can Cotton Manufacturers' Associa tion, renewed his plea for revision of the tariff only by a tariff board that would make revision possible upon scientific lines. Sanitary improve ments in Southern cotton mills con stitute one of the most important changes in cotton mill construction according to J. E. Sirrine of Green ville, S. C. Healthful working quar ters are taking the place of unhealth ful surroundings, he said.

> British Strike Declared at End. London,-Albert tSanley, secretary of the Midland Miners' Federation mons, practicaly announced the end of the national coal strike in the United Kingdom Mr. Stapley sold and member of the house of comof the national coal strike in the United Kingdom. Mr. Stanley said that it was now impossible to secure the necessary two-thirds majority of the miners in favor of continuing the strike. The postmaster general, Her bert Louis Samuel, also stated that he was confident the strike would be declared over

the interests of foreign busines the people of his own country.

"The present revolution is not a new one," the statement says; "it is merely a continuance of the revolu tion which began when the rule of President Diaz became unbearable. It is intended to carry out the reforms that it was hoped would result in the success of the revolution a year ago, the failure of which is a sad disappointment to patriotic Mexicans, "Madero, by what was almost his first official act, violated the very thing we had won. By his use of the army he not only intimidated congress into calling an election, at such an early date as to prevent any op position, but also intimidated the peo ple and crushed out all opposition to

hime "Madero has all but accomplished the complete ruin of Mexico."

foodrow Wilson's Letters Stoler Chicago .- Thieves, apparently with political affiliations, broke into the ooms of Gov. Woodrow Wilson and stole a suit case full of private cor-respondence and papers belonging to Governor Wilson. Governor Wilson Governor whom, atatement regard-made the following statement regarding the robbery: "The robbery will greatly inconvenience me. But whoever obtaine dthe papers and corre ience will be greatly disappoint ed, as there is nothing but what may be published without doing me harm."

Louisville, Ky., Scourged by Meningitia Louisville, Ky.-In a final effort to eradicate cerebro spinal meningitis, the city health department has or-

and advised the postmaster general to allow him to undertake further experiments with telephones used xxclusively by consumptive patients. Accordingly telephones were fitted in the wards of a sanatorium and used by patients in various stages of pulmonary tuberculosis. They were nelther sterilized nor even wiped while in use and at various intervals the mouthpleces were removed and handed over to Doctor Spitta for investigation. The experiments were carried on during the year 1911 and final report has now been published showng that the results were uniformly negative. Doctor Spitta's conclusion is "that the transmission of tubercu losis through the medium of the ephone mouthpiece is practically im-"- New York Evening Sun, March 27, 1912.
