

Facts and Reasons!

We candidly submit the following **FACTS** and **REASONS** why particularly the men of Martin County should should patronize the **MARYLAND LIFE INSURANCE COMPANY**.

First. The Maryland Life is the only Company that lends money in this County. All other Companies drain the Financial resources.

Second. It is the only company that collects it North Carolina renewals through Martin County. Thus thousands of dollars from other sections of the State flow through the County annually, on their way to the Home Office

Third. The location of the General Agency renders it convenient in the matter of loans and changes in policies and many other courtesies and accommodations that are often necessary to prevent lapsing.

Fourth. The Maryland Life is the only Company that has been doing business for over 48

years without ever having contested a death claim.

Fifth. This company issues annual dividend policies affording dividends from the first year.

Sixth. The premium rates are lowest and the guaranteed values are higher than corresponding policies in the Mutual Life, Equitable or New York Life.

Seventh. The Maryland Life stands 5th in the whole list of companies in relation of assets to liabilities.

Eighth. Its conservatism in selecting risks has resulted in a mortality experience continuously favorable; last year's mortality having been only 52 per cent of expected.

Consider these reasons and insist on the Maryland Life where your interest will always be taken care of
