—What has become of the ordinance governing the riding of bicycles on the sidewalk? The younger boys of the town come whizzing past with never a stop or even an "Excuse me." Some have a habit of riding rapidly by and touching one foot to the earth. This is their manner of interpreting a law which demands that riders of wheels shall get off when they meet a person. It is dangerous for little children to go out on the walks in front of their homes. The town seems to have gone wheel mad. The officer should see that the law is enforced and that quick.
