Gentlemen:—

In traveling through North Carolina the past fall buying peanuts for Rogers, McCake & Co., I had the occasion see your Lilliston Peanut Picker in operation in several localities; in each case I found them doing superb work.

I bought several large lots of peanuts from the various farmers, and in each case I paid 1-8c to 1-4c per pound more for the Lilliston picked peanuts than I did for peanuts picked by other machines working in the same crop.

I take great pleasure in recommending the Lilliston Peanut Picker to all growers, as I consider it the best on the market.

Yours very truly,

Dear Sirs:—

The Picker which I bought of you last fall did its work satisfactory to all. I picked 4,345 bushels, paid for my picker the first season, wasn't out a cent for repairs and consider I have a picker as good as new. My patrons got fourteen cents a bushel more for their peanuts than others got for peanuts threshed. I had applicants that wanted me to pick their crops fifty miles from home. That alone speaks enough for your picker, as nobody wants their peanuts threshed that have ever heard of the Lilliston Peanuts Picker.

Yours very truly,
(Signed) EDD LILLEY.

WHAT THE LILLISTON DOES: The peanut vines are fed to the machine, passing through springs that are arranged over a wire netting, the springs break up the vines and the wire pulls off the nuts, the nuts drop on a conveyer belt and then carried a suction system where the trash, pops and all dirt are separated. Picks Spanish or Virginia peanuts, leaves them perfect; no cracked nuts. The vines make the best hay and bring a good price, and are left in a convenient place to be baled. Prompt and safe shipments are made.

This season's supply is limited. We want place one in your section. The man who delays never gets anything. Write for catalog, prices and full information right now while you think of it.
