The high cost of living is the cause of Secretary Bryan having to work during vacation. Grape juice manufacturers should pay him good advertising rates. His selection of an article counts among the American people, who delight to honor him.

The attack of the republican senators on the tariff bill as introduced by Senator Simmons, is something like darting straws at the wind. But their howls are long and loud.

Men have made great strides in materia-medica, presumably so, and yet there are only three specifics known to the fraternity to lay. These are quinine for malaria, colchicum for gout and mercury for syphilis. Yet who knows what to do until the doctor comes?

Despite the warm weather, base ball is the chief thing in the United States, overshadowing the Mexican question. Bryan's money-making during vacation, the Mulhal accusations, and every other thing even the exodus to the seashore.

Factions

Small towns and big factions go hand in hand. Petty jealousies, hide-bound selfishness, and hogishness displayed by a certain faction will dwarf the growth of any community. The first big lke who tries to arbitrarily run things just his way in spite of the rights of others should receive a full dose of his own methods by every other citizen in the town. No one man or no one man's faction should predominate for purely selfish reasons. A long pull, a strong pull, and a pull altogether, working for one another as well as one's self will build and develop any town. The best people in the world live in small towns and if they would stop looking at the mote in their neighbor's eye and be as charitable toward him as they are to the stranger in their midst, they would make a prosperity and happiness that would make trade and business. Congratulations To Greenville

Though we knew that the proposed bond issue for good roads in Greenville Township, Pitt County, was warmly opposed, we still believed that the voters over there would see the great good of the measure and vote right. And we were not mistaken in our belief. A township with a town as progressive as Greenville could do no less than vote \$50,000 worth of bonds for public highways. Greenville needs good roads to haul it millions of pounds of tobacco over. To have killed the measure, would have meant to those who trade in the town an indifference to their interest in the saving of time and team. It is hoped that even the strongest opponents of the bill will soon see the good value of the vote.

Book Exhibition.
An international exhibition for the book industry and the graphic arts, including photography, is to be held at Leipzig, the book industrial center of Germany, from May to October 1914, in celebration of the 150th anniversary of the royal academy for graphic arts and the book industry in that city. The exhibition is to be organized upon an elaborate scale, including among various allied arts the manufacture of paper, the development of newspapers, and, finally, a group devoted to measures for the protection and welfare of workers.—Springfield Republican.

Much Money Falls Due Shortly.
Industrial and public service corporations will, it is said, be called on to meet \$300,000,000 in short term notes before 1914.

Foolish.
Why go to the ant or imitate the industrious bee? The ant is a crazy parasite and the bee works all summer for honey, only to be robbed during his winter sleep. Let the ant come to man and learn method; the bee and learn practical banking.—Baltimore Evening Sun.
