

THE ENTERPRISE

Published Weekly.

WILLIAMSTON, NORTH CAROLINA

Keep cool and it won't be half so hot.

Blessings on the man who invented the summer vacation!

Our respect for arctic explorers rises with the mercury.

There is only one way to account for the recent excess of thunderstorms. Plenties!

Edison says there will be no poverty 100 years hence. Too late to do us any good.

Beholding those Bulgarian bathing suits, one gets a new idea of Balkan atrocities.

China claims to have invented the photograph 1,000 years ago, but it has almost lived it down.

Still, the real test of a Boy Scout should be his willingness to do the chores around the house.

If gasoline were cheaper it might be genuine charity to give the castoff automobiles to the poor.

Sandals are cooler than shoes and cost less. Perhaps these are reasons why so few of us wear them.

Only \$9,000,000 a year for corsets in United States! That's certainly squeezing dough out of the public.

It is a vain masculine hope that the less material the new fashions call for the cheaper will be the cost of the dress.

Boy scouts in France are known as "clairreurs" and little Willie naturally wants to know if they are chocolate soldiers.

We Americans are an ingenious race, as is evidenced by the woman who took to drink because her husband snored.

The English chorus girl who got \$250,000 in lieu of a title in a breach-of-promise suit will probably live to bless her luck.

"Keep falling in love if you would keep eternally young," says a philosopher. He should have added, "with the same person."

Possibly the greatest tragedy of the beach is when the last year's bathing suit splits up the back 100 yards from the dressing booth.

Henri Rochefort's achievement of living to be eighty-three seems to establish that the French duel is a healthful form of exercise.

A new religion in Chicago teaches its adherents to worship their feet. Must be something after all in those stories about Chicago feet.

A supreme test of friendship is when the neighbors ask you if you will take care of their dog while they are away on their vacation.

We know of one man who greatly enjoyed the sermon last Sunday. He dreamed that a rich uncle had died and left him a million dollars.

A Philadelphia man says he has discovered a way to burn water. That's nothing new. We saw a man burning up a river in a motor boat last summer.

The man who has been furnishing motive power for a pen all winter is just making his annual discovery that rowing a boat is not as easy as it looks.

An expert advises blondes to wear colored glasses when they go into the sunlight. Which shows how much some experts really know about blondes.

The mosquitoes and flies which were not swatted last summer in the annual war of extermination, are now singing psalms of victory over their survival with biting refrains.

A lot of valuable time is being wasted nowadays listening to the thrilling tales told by friends who have just returned from the national convention of some fraternal order.

The man who has written a great many words in a very small space has bobbed up again. This time he used a postal card and wrote 7,109 words on it when he might have been doing something useful.

The Pennsylvania blacksnake which climbed a tree to eat English sparrows must have acted under the belief that the fish story had had the field of picturesque fiction to itself entirely too long.

While the wife of his bosom is away the average man feels as though he were regularly molting buttons.

Our notion of a truly superior person is the boy scout, who actually looks down upon a college graduate!

Long distance philanthropy is a doubtful business. For example, a Bostonian, dead these 59 years, left \$600 a year to be spent in buying cook stoves for the poor, who have long since discarded cook stoves in favor of gas and electric heaters.

THAW ESCAPES FROM ASYLUM

THAW'S DASH FOR LIBERTY HAD BEEN WELL PLANNED. RUSHED AWAY.

THE INMATES WERE ASLEEP

Keepers Didn't Know What Was Occurring Until Thaw Leaped Into Auto and It Dashed Off.

Matteawan, N. Y.—Harry K. Thaw, the lawyer of Stanford White, escaped from the hospital for the criminal insane here at 7:45 o'clock in the morning. A dash for liberty through an open gate, a leap into the open door of a powerful automobile that stood quivering outside and a flight like a rocket for the Connecticut state line thirty miles away accomplished the escape.

Darting past an attendant who had just opened the gate to the asylum grounds for the milkman to enter, Thaw leaped into a six-cylinder automobile which stood throbbing opposite the entrance, and disappeared in a whirlwind of dust in the direction of the Connecticut state line. A second automobile followed him.

In his powerful car Thaw swept through the hamlet of Stormville, ten miles away, at 60 miles an hour, heading for Connecticut.

A reward of \$500 has been offered by Doctor Kieb for Thaw's apprehension.

Thaw's former counsel and officials of the state hospital commission expressed the opinion that Thaw would be a free man once outside the state's boundaries. They thought he could not be brought back to New York by extradition unless he were legally adjudged insane in the state to which he fled.

Mrs. Mary Copley Thaw, the fugitive's aged mother, manifested delight at his escape. Mrs. Evelyn Nesbitt Thaw, playing at a New York theater, professed to be terrorized and said she feared he would attempt to execute his threat to kill her. Police and detectives guarded her.

Five confederates manned the car in which Thaw escaped and a big limousine which trailed it past the asylum gate.

The mix-up in Albany over the governorship is regarded as favorable to Thaw's prospect of remaining long out of the state, even if apprehended and extradition papers are issued for his return.

Howard H. Barnum, the gateman, whom Thaw eluded in his dash for the waiting automobile, was lodged in the county jail at Poughkeepsie on the charge of aiding and abetting Thaw in his escape. Sheriff Hornbeck and John E. Mack of the district attorney's office took Barnum in an automobile to the jail. An all-night "third degree" ordeal awaited him there, it was said.

May Indemnify Japanese.

Tokio, Japan.—It was announced here that the United States has intimated readiness to favor in principle the payment of an indemnity to Japanese subjects who have been affected by the California alien land ownership legislation. The United States also recognized the right of Japan to adopt a measure similar to the California bill. From intimations given in official circles it appears unlikely that Japan will adopt either idea. What Japan desires is permanent friendly relations with the United States and therefore she seeks a fundamental solution of the difficulty. If the United States has no solution to offer, it is stated Japan will lution to offer, it is stated Japan will as a grievance.

Killed in Pistol Duel.

Blakely, Ga.—W. C. Stamper shot and killed G. R. Keen in a pistol duel on the public square of Blakely in a dispute over the divisions of the proceeds of a debt owed both by a common debtor. Both are well known timber men of Blakely. Keen shot twice at Stamper and missed him except a slight wound over the left eye. Keen had five bullets in his body. He leaves a wife and several children.

Offers Bill for Military Highway.

Washington.—Provision for a military highway between Savannah and Fort Screven, Tybee Island, was made in a bill introduced by Representative Edwards of Georgia. The measure would appropriate \$300,000 for the work. Acceptance of offers of free rights-of-way and other assistance would be authorized, and the federal house roads office would be required to make necessary surveys and superintend the construction. Work would not begin until the Chatham county officers consent to the road.

Huerta Urged to Expel Doctor Hale.

Mexico City.—Popular interest in the outcome of John Lind's visit to Mexico as the personal representative of President Wilson was divided by the efforts of a portion of the local press to secure the application of Article 33 of the Constitution to Dr. William Bayard Hale, who, for some time, has been investigating conditions in Mexico on behalf of the United States government. Article 33 is the clause that provides for the expulsion of "pernicious foreigners."

HARRY K. THAW

Made sensational escape from New York state insane asylum.

GOVERNOR IS IMPEACHED

MRS. SULZER MADE EFFORT TO SAVE HER HUSBAND BY SAYING SHE WAS RESPONSIBLE.

Question Arises as to Whether Governor Must Vacate Office Pending Final Settlement.

- Only Seven Other Governors Have Faced Impeachment. New York.—In all the United States only seven other governors have faced impeachment proceedings. These men and the results that followed were: Charles Robinson, Kansas, 1862, acquitted. Harrison Reed, Florida, 1868, charges dropped. William W. Holden, North Carolina, 1870, removed. Powell Clayton, Arkansas, 1871, charges dropped. David Butler, Nebraska, 1871, removed. Henry C. Warmoth, Louisiana, 1872, term expired and proceeded. Albert Ames, Mississippi, 1876, resigned.

Albany, N. Y.—William Sulzer of New York state, was impeached by the assembly. This action raised a vital question, as to whether, under the constitution, the governor must vacate office pending final adjudication of the impeachment issue by the senate and the court of appeals, sitting jointly as a trial court.

Long articles of impeachment, embracing the findings of the Fawley investigating committee in substance, lay ready for presentation in the desk of Democratic Leader Levy hours before the organization trusted its impeachment resolution to a roll call. With the adoption of this resolution and the creation of a committee headed by Mr. Levy to prepare the articles a recess was taken. Mr. Levy and his associates went through the formality of retiring to reappear within an hour and sent the articles to the speaker's desk with a resolution that they be adopted.

A roll call showed the adoption of the articles of impeachment. A committee was appointed to acquaint the senate with the assembly's findings. After the adoption of the articles of impeachment the assembly quickly passed a resolution appointing nine managers to conduct the impeachment proceedings on behalf of the lower house.

Articles of impeachment against Governor Sulzer, as passed by the state assembly, make a document of over 4,000 words.

They charge the governor with violating penal laws of the state, not only in connection with the filing of an improper and incorrect account of his campaign expenses and diverting campaign contributions to the purchase of stocks, but also in connection with his alleged efforts to prevent witnesses from testifying before the Fawley investigating committee. He is also charged with attempting to manipulate the stock market by attacks on the exchange.

\$20,000,000 Requested for Waterway.

Washington.—Congressional expenditure of twenty million dollars in the immediate future to complete the inland waterway between Boston, Mass., and Beauford, N. C., was recommended to the house by the war department. The plan contemplates a construction of a 12-foot canal, with later improvement to a sea level canal, 25 feet wide. Former Chief Engineer Boxby, in making his report to the house, urged federal purchase of the Chesapeake and Delaware canal between Chesapeake and Delaware bays.

Herr Bebel is Dead.

Zurich, Switz.—August Ferdinand Bebel, German Socialist leader, died here, aged 73. August Bebel probably was the best known of the modern Socialist leaders. He joined the German labor movement in 1862, and continued to struggle for the working classes until his death. He was a member of the imperial parliament almost continuously from its formation in 1871. Not long after the first session he was sentenced to two years' imprisonment for high treason and nine months for les majeste.

ENVOY LIND HAS DELIVERED NOTE

PRESIDENT WILSON'S MESSAGE TO HUERTA HAS BEEN PRESENTED.

CONTENTS NOT MADE PUBLIC

Lind Admits That He Has Held Conferences With Mexican Minister Gamboa.

Mexico City.—President Wilson's message to President Huerta is now in the possession of the government, which may be expected to reject it or to return some answer shortly. Foreign Minister Gamboa, in the two conferences he has had with John Lind, came to the conclusion, with the consent of President Huerta, that the simplest way to an end was to accept the document for President Huerta and his cabinet, and study it.

It would appear now that, as the message has been in the possession of the Huerta government some time, and no action concerning it has yet been announced, the government is not disposed summarily to reject it. It is argued by those who have been watching the efforts of President Wilson to effect a settlement of Mexico's difficulties that the longer Mexico delays her answer, up to a reasonable time, the more reason there is for hope that President Huerta is disposed to give friendly consideration to the document.

The government remains silent regarding the entire matter, but Mr. Lind, with the consent of Senor Gamboa, admitted for the first time to American newspaper correspondents that he had held conferences with the Mexican minister of foreign affairs.

While neither of the principals will admit the fact, information has been obtained that the object of Mr. Lind's visit to Senor Gamboa was to deliver President Wilson's note. As an indication of the determination of Mr. Lind to so conduct himself that he cannot be criticized for talking too much in unofficial quarters, he refused to grant an interview to a group of well-known politicians, including a number of members of the chamber of deputies. The group belongs to what is known as the reform element, and were close supporters of the late President Madero. Mr. Lind told them that, until his official mission was fulfilled, he did not desire to discuss Mexican politics with other persons than officials.

REFUSES CALL FOR PRAYERS

Their Efficacy in Case of Drouth is Doubtful by the Chief Executive.

Kansas City.—Prayers for rain were asked for in Kansas and Missouri by citizens and clergymen who believe that spasmodic prayers are not sufficient to end the drought which has beset the southwest. In Kansas hundreds of persons wrote to Governor Hodges, asking him to issue a proclamation calling for a day of public prayer. The governor declined. "I believe in the efficacy of prayer," said the governor, "but not in the case of food or drouth."

At Springfield, Mo., Rev. J. E. McDonald, pastor of St. Paul's Methodist Episcopal church, announced public services would be held to offer prayers for rain.

The letters to Governor Hodges were from all parts of the state. Some urged the governor to ask that every resident attend church Sunday, and that every one make a prayer of his own. Others urged that the proclamation simply ask each citizen to offer a prayer at his home or at church.

Destruction by Electrical Storms.

Winnipeg, Man.—The worst electrical storm in years accompanied by a sixty-mile gale, swept across Manitoba from Brandon to the eastern boundary. Hundreds of thousands of dollars damage was done. The harvest had just begun and damage to the grain cannot be estimated. At Milwaukee, Wis., buildings were struck by lightning when the severest electrical storm of the year swept over the eastern portion of Wisconsin. The loss will reach thousands of dollars. Oshkosh reported 37 houses struck by lightning.

Cincinnati Loses Taft as Citizen.

Cincinnati.—That Cincinnati has lost former President William H. Taft as its most prominent citizen was made known through the report of an humble collector of taxes in the ward in which Mr. Taft formerly resided. The assessor reported that he had never received a report from Mr. Taft as to his taxation. The board of review, the official taxing body, took up the matter with Mr. Taft at his summer home at Point-au-Pie, Canada, and Mr. Taft replied that he is now a citizen of New Haven, Conn.

1,200 Persons Killed in Fighting.

Canton, China.—Twelve hundred were killed in fighting in Canton. Pillage is in progress everywhere. Half of the government troops have joined the rebels and altogether they have looted the principal goldsmiths and silvermiths stores. Local officials and army officers are powerless owing to dissensions among themselves. An attack on the foreign concessions at Shamen is believed by foreign residents to be in contemplation and the Indian native troops stationed were reinforced from Hong Kong.

THAD A. THOMPSON

The diplomatic ability of Thad A. Thompson, the newly appointed minister to Colombia, may be put to an early test in connection with the Canal Zone. He is a wealthy business man of Austin, Tex., and never before held public office.

JAPAN WON'T RECEIVE DIAZ

PRESIDENT HUERTA'S ENVOY IS BARRED BY MIKADO OF JAPAN.

The Japanese Government Refuses to Receive Felix Diaz as an Official.

Tokio, Japan.—The Japanese government intimated to the Mexican government that it would not receive Gen. Felix Diaz as special envoy to Japan to express the thanks of Mexico for Japanese participation in the Mexican centennial. It declared that it would receive General Diaz only as a private individual.

The Diaz party left Seattle for Vancouver, whence they planned to sail for Japan.

Gen. Felix Diaz was appointed special envoy to Japan on July 17 and left Mexico City two days later. He intended to proceed to Japan by way of Los Angeles and Vancouver. In Los Angeles he was met by a hostile demonstration from opponents of the present provisional government of Mexico and was kept there for several days in consequence of the receipt of lengthy dispatches from Mexico City.

It was announced on August 2 by the Japanese legation in Mexico City that the emperor of Japan would be absent from the imperial palace for several weeks.

Vancouver, B. C.—After reading the dispatch from Tokio, General Diaz said he would go to Japan anyhow, regardless of the Japanese government's attitude toward his mission.

Two Men Injured by Train.

Marjetta, Ga.—Mitt Latimer and Emmett Benson were badly injured, the two horses they were driving were killed and the carriage was demolished, when struck by a southbound W. & A. train at a crossing three miles north of this city. Latimer had an arm broken. The two were returning from a reunion of Philip's Legion, held at Kenesaw, and had driven upon the track unaware of the swiftly approaching freight train.

No Government Money for Speculation.

Washington.—Banks which borrow or loan money for speculative purposes will be denied any portion of the \$50,000,000 of government funds about to be deposited in national banks to assist in moving the crops, and the entire amount will go to institutions that earnestly strive to meet the currency demands of the agricultural sections. This policy of the treasury department was announced when Acting Comptroller of the Currency Kane, in connection with a call for the condition of national banks.

Kansas Hottest State in U. S.

Kansas City.—Reports from the various government weather stations showed that average temperatures in Kansas were higher than on any previous year. In Missouri and Oklahoma the maximum temperature of the season was equalled. For six consecutive days temperatures in Kansas have averaged higher than 100 degrees. This has been the most severe hot weather period in Kansas in 27 years and at Topeka. Extreme humidity and hot winds added to the discomfort in Kansas.

MEXICAN AFFAIRS NEARING A CRISIS

PRESIDENT HUERTA REFUSED TO TOLERATE INTERFERENCE BY UNITED STATES.

RELATIONS WILL BE SEVERED

President Wilson is Very Disappointed Over the Stand Taken By Our Neighboring Republic. — He Has Nothing to Say at Present.

Mexico City.—The United States Government has been given a few hours by President Huerta to recognize Mexico, it is officially stated. The Government is not specific in the public announcement as to what course then will be pursued but it is understood that it means the severing of all relations between the two countries.

Senor Urrutia, Minister of the Interior, who on previous occasions has been the spokesman for the Administration, was the person chosen to make the announcement.

Senor Urrutia refused to give out the text of the correspondence between Mr. Lind and the Mexican Government but confirmed the fact that an exchange of notes had taken place. Two notes from Mexico have been sent to Washington. The first was a reply to that delivered by Mr. Lind. This note included the demand for recognition of Mexico.

The second note was sent directly to Washington and demanded that a reply to the previous note be made. This is regarded here as an ultimatum.

One official in discussing this latter note said that Mexico had reached the point where she either must bow her head in humiliation before the United States or adopt an attitude of defiance. The first contingency, he added, was regarded as impossible.

Attorney General Gives Opinion. Albany, N. Y.—Lieutenant Governor Martin H. Glynn is the lawful Chief Executive of New York state pending the outcome of impeachment proceedings against Governor Sulzer according to an official opinion handed down by Attorney General Thomas Carmody to Secretary of State Mitchell. Mr. Carmody holds that the Assembly was within its rights in instituting impeachment proceedings at an extraordinary session. "When the Governor is impeached by the Assembly," says the opinion, "all of his powers are automatically suspended until he has been acquitted or the impeachment proceedings dismissed by the Court of Impeachment."

No Trace of Harry K. Thaw.

New York.—Sunday Monday marked the thirty-sixth hour of Harry K. Thaw's freedom and the police of the United States and Canada had not picked up his trail. They seek him not as the slayer of Stanford White, or as escaped lunatic, but on a warrant issued at Poughkeepsie charging him with conspiring with the aged keeper Howard Barnum and the five men who managed the asylum delivery. On such a technicality does New York state base its hope of bringing about the fugitive's return.

Both factions of the double-barreled Government at Albany have promised rigid investigation and the exertion of every effort to bring about his capture.

Are Examinations Too Rigid? Washington.—Whether the entrance examinations for the Naval Academy are so rigid as to be virtually prohibitive, is a question the navy department is to leave to the decision of a jury of 2,000 grave and dignified educators. It became known that the department, stung by repeated charges that the examinations were unfair and illogical, had determined to submit the matter to 2,000 high school principals and college professors in every part of the United States.

Governors to Meet August 25.

Montgomery, Ala.—Governor O'Neal chairman of the Rural Credits Committee of the Conference of Governors, has telegraphed the members of the committee calling a meeting of the body August 25 at Colorado Springs, to prepare and present a report to the conference which assembles the following day. He wired the following members: Governors Hadley of Missouri, Cox of Ohio, Mann of Virginia, Foss of Massachusetts, Plaisted of Maine, Carey of Wyoming and Johnson of California.

Fight to Seat Clayton Begins.

Washington.—The fight to seat Henry D. Clayton as Senator from Alabama began in earnest. A statement by Senator Robinson upholding Governor O'Neal's action in appointing a successor to the late Senator Johnston became public and at the close of the Senate's session Senator Bankhead of Alabama asked permission for the public printing of the legal opinions upon which the Governor based his action. Senator Bankhead said Mr. Clayton's credentials would be presented to the Senate later.
