Operatives Wanted

Machinery is now being installed in the new No. 3 Mills of the Rosemary Manufacturing Company, and this machinery will require about 300 men, women and children to operate it.

We prefer large families of industrious people who are seeking permanent homes, but will be glad to communicate with large or small families, whether trained or untrained in mill work.

Our mills are splendidly equipped, the houses and the village exceptionally good and are lighted by electricity. All water in the village is from deep drilled wells. The village is kept clean and the health of the people is exceedingly good.

For full information concerning the village, mills and work, apply to
