

WASNT WORTH THE LIVING

Was Mrs. Bowling's Conception of Life at One Time—Thinks Differently Now.

Loveland, Ky.—"When I first wrote you, I was feeling so miserable, that life wasn't worth living." So writes, in a recent letter, Mrs. Anna Bowling, of this place.

"I was in bad shape, my left side hurt so, at times, I could hardly bear it, and I could not lie on that side at night, at all. I also had another serious symptom of womanly trouble.

I finally decided to give Cardui, the woman's tonic, a trial, so I purchased a bottle, and by the time I had taken it, I felt better in every way, so I got another bottle, and it straightened me out entirely.

I feel as well now as I ever did in my life, and I can be safe in saying that Cardui is the best medicine on earth for women. I had little faith in it before I commenced taking it, but now I would not exchange it for all the other medicines.

Are you one of those poor women sufferers, who feel that life is hardly worth the living? Have you that everlastingly tired, nervous, worn-out, headache feeling? If so, get a bottle of Cardui and begin taking it today. No doubt it is the very medicine you need.

Mrs. Wye—Yes.
Mrs. Exe—Well, I wish she hadn't. She's put the crazy notion into my girl Bessie's head to call herself "Bessica."—Boston Transcript.

Man She Wanted.

"Will you marry me?" he asked.
She paused for a moment before she replied. Then she said:

"Listen carefully, please. You are a man of ordinary abilities and perfectly conventional ideas. You haven't the slightest conception of the new world movement which is now taking place. You are intensely blind to all of its radicalism, intensely unoriginal, satisfied to be an intellectual nonentity, engrossed in that horrible, stagnating thing known as business, and a mental slave to the opinions put forth by your daily paper. I am a true feminist, an individual searcher, bound by no ties, seeking the highest self-expression in advance art forms and acknowledging no preconceived standards. Will I marry you? Of course I will. You're just the man I want."—Life.

MUST QUIT SELLING CALVES

An Expert Sounds a Warning Against the Selling of Female and Immature Stock.

Atlanta, Ga., Sept. 14.—If the Southeast is to become the great cattle growing section that it should in view of its natural advantages and the present and growing demand for cattle with commensurate prices, farmers must quit selling their female and immature stock, declares Dr. C. M. Morgan, dairy agent of the Southern Railway, who sounds a warning against a continuation of the wholesale deportation of cattle from the South.

"Farmers should keep their heifers and build up the quality of their stock by the use of pure-bred bulls of dairy or beef type as desired," says Dr. Morgan. "This is the only way to increase the number or the quality of cattle in the Southeast. The scarcity of cattle is world-wide and it will never be possible to secure enough pure-bred cattle to develop the industry in the Southeast.

"Farmers who sell calves are simply giving the dealer a good part of the profit they should have themselves. If calves were hitted on the farm, using cotton seed meal as a concentrate, a higher price per pound would be received and the farmer would not only profit by this and the additional weight but would have in the manure 85 per cent of the fertilizing value of the cotton seed meal.

"With the good grazing furnished by Bermuda grass and Burr clover and the abundance of forage crops that yield bountifully in the Southeast, this section should be the great source of the country's beef and dairy products supply. The dairy division of the Southern Railway will send a man to help build a dipping vat or silo and to co-operate with persons in the dairy business or desiring to enter it. The U. S. Department of Agriculture has offered to co-operate with farmers who have eradicated ticks and will send an expert to aid farmers in choosing desirable bulls of either dairy or beef type."

II Advised Laws Hamper Railroads.
Chicago.—W. L. Park, vice president of the Illinois Central Railroad, said that American roads were inferior to foreign roads because the American lines "had been hampered by ill advised, costly and pernicious laws, orders and regulations." He delivered the chief address before the Roadmasters' and Maintenance of Way Associations convention here.

"The money wasted in many directions through the interference of those who know little about the actual conditions on railroads would provide real safety if the railroad managers were permitted to spend it in the proper direction," he said.

"The money to make the improvements required to bring our roads up to the standards of foreign roads is available in Europe but can not be borrowed unless investors are assured that the investment will be safe and the interest paid when due."

Charlton Trial Again Delayed.
Como, Italy.—Porter Charlton, the young American who is to stand trial for the murder of his wife in 1910, has prepared a long memorandum on which he will base his defense and has turned it over to the official interpreter, Signor Vitale. The examining magistrate, Judge Rognoni, who already had begun investigation of the case, has been promoted and transferred to Milan. It is expected that another magistrate will be named to continue the investigation. On this account and for the additional reason that Charlton, according to trustworthy information, now gives a different version of the murder than that which he furnished in the United States, the investigation will be delayed and it is feared that the trial will not begin before April.

Two Governments Sign Agreement.
Paris.—The governments of France and Haiti have signed an agreement to submit for arbitration the claims made against Haiti in 1910 by France, jointly with the United States, Great Britain, Germany and Italy. The agreement also covers the claims of Syrians and Ottomans.

English Builder Awarded Contract.
Washington.—An English builder was awarded the contract for turbine drums for the newest American battleship No. 39 at a little more than one-third the price offered by the lowest American bidder. The accepted bid was \$57,436, submitted by New York agents of the Cyclops Steel and Iron Works, Sheffield, England. It is exceptional for the navy department to send a contract abroad but Acting Secretary Roosevelt held that the action was justified by the difference between English and American prices.

Twentieth Century Menace.
Colorado Springs, Col.—The social evil is the menace of the twentieth century was the contention of Dr. J. H. Landis, of Cincinnati, before the American Health Association recently. "There is no reason why diseases occasioned by the social evil should not receive the same treatment, so far as their handling by health departments is concerned, as the plague—that of isolation," he said. Dr. Landis advanced the idea that dress worn by women is responsible for infectiousness which are undermining race.

Quaint Critic.
George B. Luka, the painter, said to a critic in his New York studio: "Your criticism is at any rate original and amusing, my boy. It reminds me of the colored laundress in the Uffizi Gallery. "When this colored laundress visited the Uffizi, her mistress led her up to Correggio's masterpiece. "There, Hannah, what do you think of that?" she said. Hannah, shaking her head lugubriously, stared a long while at the pictured angels whose white robes were all yellowed by time, and then, with a sigh and a disapproving shake of the head, she said: 'De saints is de last folks to put up wiv bad laundry work.'"

Very Warm.
A party of commercial travelers were drawing the long-bow and spinning yarns of wonderful adventures on sea and land. A silent listener sat in the corner. Presently one of the company addressed him.

"Have you traveled much, sir?"
"A little. I've been round the world seven times."
"Then you must have had some striking experiences. Perhaps you would like to tell us one or two."
"Well," said the stranger, "perhaps the most remarkable was on my last voyage. At one time we found the heat so terrific that we used to take it in turns to go down into the stokehold to get a cooler."
No more yarns were related that evening.

THE BEST TREATMENT FOR ITCHING SCALPS, DANDRUFF AND FALLING HAIR

To allay itching and irritation of the scalp, prevent dry, thin and falling hair, remove crusts, scales and dandruff, and promote the growth and beauty of the hair, the following special treatment is most effective, agreeable and economical. On retiring, comb the hair out straight all around, then begin at the side and make a parting, gently rubbing Cuticura Ointment into the parting with a bit of soft flannel held over the end of the finger. Anoint additional partings about half an inch apart until the whole scalp has been treated, the purpose being to get the Cuticura Ointment on the scalp skin rather than on the hair. It is well to place a light covering over the hair to protect the pillow from possible stain. The next morning, shampoo with Cuticura Soap and hot water. Shampoos alone may be used as often as agreeable, but once or twice a month is generally sufficient for this special treatment for women's hair.

Cuticura Soap and Ointment sold throughout the world. Sample of each free, with 32-p. Skin Book. Address postcard "Cuticura, Dept. L, Boston."—Adv.

Women Avoid Operations

When a woman suffering from some form of feminine disorder is told that an operation is necessary, it of course frightens her.

The very thought of the hospital operating table and the surgeon's knife strikes terror to her heart, and no wonder. It is quite true that some of these troubles may reach a stage where an operation is the only resource, but thousands of women have avoided the necessity of an operation by taking Lydia E. Pinkham's Vegetable Compound. This fact is attested by the grateful letters they write to us after their health has been restored.

These Two Women Prove Our Claim.

Cary, Maine.—"I feel it a duty I owe to all suffering women to tell what Lydia E. Pinkham's Vegetable Compound did for me. One year ago I found myself a terrible sufferer. I had pains in both sides and such a soreness I could scarcely straighten up at times. My back ached, I had no appetite and was so nervous I could not sleep, then I would be so tired mornings that I could scarcely get around. It seemed almost impossible to move or do a bit of work and I thought I never would be any better until I submitted to an operation. I commenced taking Lydia E. Pinkham's Vegetable Compound and soon felt like a new woman. I had no pains, slept well, had good appetite and was fat and could do almost

all my own work for a family of four. I shall always feel that I owe my good health to your medicine."
—Mrs. HAYWARD SOWERS, Cary, Me.

Charlotte, N. C.—"I was in bad health for two years, with pains in both sides and was very nervous. If I even lifted a chair it would cause a hemorrhage. I had a growth which the doctor said was a tumor and I never would get well unless I had an operation. A friend advised me to take Lydia E. Pinkham's Vegetable Compound, and I gladly say that I am now enjoying fine health and am the mother of a nice baby girl. You can use this letter to help other suffering women."
—Mrs. ROSA STAN, 16 Wyona St., Charlotte, N. C.

Now answer this question if you can. Why should a woman submit to a surgical operation without first giving Lydia E. Pinkham's Vegetable Compound a trial? You know that it has saved many others—why should it fail in your case?

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No one sick with woman's ailments does justice to herself if she does not try this famous medicine made from roots and herbs, it has restored so many suffering women to health.

Write to LYDIA E. PINKHAM MEDICINE CO. (CONFIDENTIAL) LYNN, MASS., for advice. Your letter will be opened, read and answered by a woman and held in strict confidence.

Physicians Recommend Castoria

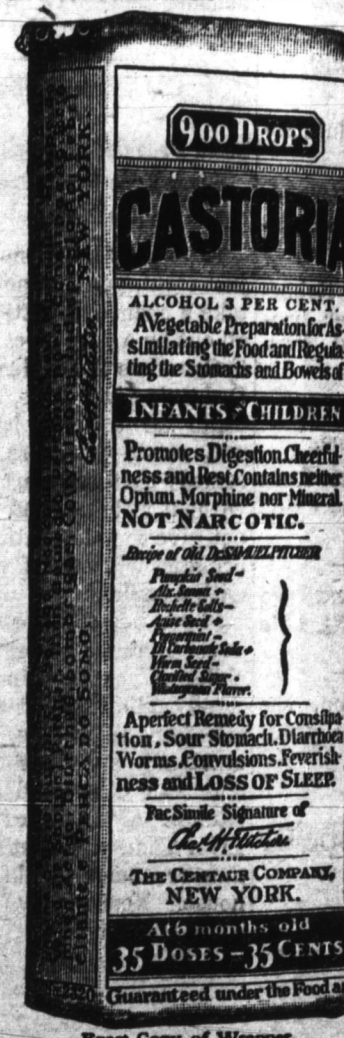

CASTORIA has met with pronounced favor on the part of physicians, pharmaceutical societies and medical authorities. It is used by physicians with results most gratifying. The extended use of Castoria is unquestionably the result of three facts: *First*—The indisputable evidence that it is harmless; *Second*—That it not only allays stomach pains and quiets the nerves, but assimilates the food; *Third*—It is an agreeable and perfect substitute for Castor Oil. It is absolutely safe. It does not contain any Opium, Morphine, or other narcotic and does not stupefy. It is unlike Soothing Syrups, Bateman's Drops, Godfrey's Cordial, etc. This is a good deal for a Medical Journal to say. Our duty, however, is to expose danger and record the means of advancing health. The day for poisoning innocent children through greed or ignorance ought to end. To our knowledge, Castoria is a remedy which produces composure and health, by regulating the system—not by stupefying it—and our readers are entitled to the information.—*Hall's Journal of Health.*

Letters from Prominent Physicians addressed to Chas. H. Fletcher.

Dr. B. Halstead Scott, of Chicago, Ill., says: "I have prescribed your Castoria often for infants during my practice, and find it very satisfactory."
Dr. William Belmont, of Cleveland, Ohio, says: "Your Castoria stands first in its class. In my thirty years of practice I can say I never have found anything that so filled the place."
Dr. J. H. Taft, of Brooklyn, N. Y., says: "I have used your Castoria and found it an excellent remedy in my household and private practice for many years. The formula is excellent."
Dr. R. J. Hamlen, of Detroit, Mich., says: "I prescribe your Castoria extensively, as I have never found anything to equal it for children's troubles. I am aware that there are imitations in the field, but I always see that my patients get Fletcher's."
Dr. Wm. J. McCrann, of Omaha, Neb., says: "As the father of thirteen children I certainly know something about your great medicine, and aside from my own family experience I have in my years of practice found Castoria a popular and efficient remedy in almost every home."
Dr. J. R. Clauson, of Philadelphia, Pa., says: "The name that your Castoria has made for itself in the tens of thousands of homes blessed by the presence of children, scarcely needs to be supplemented by the endorsement of the medical profession, but I, for one, most heartily endorse it and believe it an excellent remedy."
Dr. R. M. Ward, of Kansas City, Mo., says: "Physicians generally do not prescribe proprietary preparations, but in the case of Castoria my experience, like that of many other physicians, has taught me to make an exception. I prescribe your Castoria in my practice because I have found it to be a thoroughly reliable remedy for children's complaints. Any physician who has raised a family, as I have, will join me in heartiest recommendation of Castoria."
