

DIZZY, HEADACHY, SICK, "CASCARETS"

Gently cleanse your liver and sluggish bowels while you sleep.

Get a 10-cent box. Sick headache, biliousness, dizziness, coated tongue, foul taste and foul breath—always trace them to torpid liver; delayed, fermenting food in the bowels or sour, gassy stomach. Poisonous matter clogged in the intestines, instead of being cast out of the system is re-absorbed into the blood. When this poison reaches the delicate brain tissue it causes congestion and that dull, throbbing, sickening headache.

Cascarets immediately cleanse the stomach, remove the sour, undigested food and foul gases, take the excess bile from the liver and carry out all the constipated waste matter and poisons in the bowels. A Cascaret to-night will surely straighten you out by morning. They work while you sleep—a 10-cent box from your druggist means your liver clear, stomach sweet and your liver and bowels regular for months. Adv.

The Sacred Ballot.

Apropos the "sacredness" of the ballot, after the last election in which I took part, I asked a laborer (who had nothing to fear from me) how he voted. "God knows," was the answer "I don't."

"Not know how you voted?" I said; "what on earth do you mean?" "Well, sir," he explained, "this here ballot is sacred, ain't it? So I sez, 'Let God decide,' and I sez a prayer to him, and I shuts my eyes and makes my mark. He knows where I puts 'em, I don't."—Correspondence of the London Observer.

HER STATEMENTS DESERVE NOTICE

Mrs. Walls Makes Public Some Interesting Facts Which Should Interest All Women.

Leinarts, Tenn.—Mrs. Martha Walls, of this town, makes the following statements for publication: "I feel it my duty to tell you what your medicine, Cardul, the woman's tonic, has done for me.

For four (4) years I suffered terribly with womanly troubles, and I found no relief in different medicines which I took. Finally, I began to take Cardul, the woman's tonic, and after taking six bottles I am completely cured. I feel like a different person altogether. All the pains are gone, and I am in better health than I have been in for four years. Have gained a great deal in weight.

I still take Cardul as a tonic. My husband, as well as myself, cannot praise it too highly.

I hope this letter will induce other poor, suffering women to try Cardul, for it is the best medicine in the world for women."

If you suffer from any of the numerous ailments so common to all women, why not take this lady's advice, and try Cardul? It has helped her, as well as a million other women in the past half century. Why shouldn't it do the same for you? We feel sure it will.

Reading of Mrs. Walls' helpful experience should encourage you to try what this medicine will do for you.

Get a bottle of Cardul from your druggist to-day. You won't regret it.

N. B.—Write to: Chattanooga Medicine Co., Ladies' Advisory Dept., Chattanooga, Tenn., for special instructions on your case and 64-page book, "Home Treatment for Women," sent in plain wrapper. Adv.

Hard to Break the Habit.

She was turning over the pages of a new song.

"Would you mind running over this accompaniment for me?" she asked him, presently.

"Certainly not," he returned absently, "throw it in the middle of the street and get out of the way!"

Showing how difficult it is for the reckless autoist to break a long-established habit.

Important to Mothers

Examine carefully every bottle of CASTORIA, a safe and sure remedy for infants and children, and see that it bears the

STATE FAIR A GRAND SUCCESS

CATTLE AND POULTRY EXHIBITS ARE WONDERFUL AND EXTEND ALL OVER STATE.

BETTER BABIES CONTEST

Four Hundred Entries and an Interesting Affair Regardless of Rain.—First Winners Were Boys.—200 Honorably Mentioned.

Raleigh.—That North Carolina might be a great live stock and poultry producing state is demonstrated by the extensive, varied and high quality exhibits at the state fair held recently. In these exhibits, which are more numerous, and of higher class than in former years, there are horses, cattle, swine and fowls to excite the wonder and admiration of North Carolinians, many of whom have been unaware that such magnificent specimens were raised in their state.

Most of the fowls, of course, are fancy birds, of the prize winning class, sold at fancy prices, for breeding purposes. They demonstrate another wealth producing possibility in North Carolina, but there is a great deal in the remark of a gentleman, while looking with amazement and admiration at the many excellent exhibits, that he wanted to see thousands of poultry farms in North Carolina where the owners worked as systematically and as energetically and with as much pride in the business of raising poultry for market as these many exhibitors show in producing fancy birds for show purposes.

Instead of a grand climax, the last day was an unpleasurably slosh about in the muck.

But the best show of the week took place all the same. Providence again interfered and made it so. The rain drove the crowd, a mighty good one, under the big main building and the Better Babies Contest was brought to an end. The young immortals were brought out and figuratively crowned. It was the finest exhibit of the week.

The winners were three, all boys, but two hundred children received honorable mention. Robert Royal Smith, the son of a widowed young mother, Mrs. R. R. Smith, of Wendell, took the first prize with 99.9 of a possible 100 score; Dick Hester Frazier, of Bahama, came next with 99.8 and Charles Aycock Poe, of Kautledge, won third prize with 99.7. Master Poe took first prize in the six months class. Little Robert Royal Smith is 33 months old.

Four hundred babies were entered in the contest. The bulk of them came from Wake county, of course, and Raleigh furnished most of these, but they came from several different counties and towns.

Breaks into Chain Gang.

While many instances of prisoners breaking out of convict camps are on record, Buncombe county enjoys the distinction of having one man at least who recently made an effort to break into a camp. However excellent work on the part of the guards is said to have made it impossible for him to gain admittance. He earned though, that his efforts were not in vain, for he was given an opportunity to spend 30 days in the camp into which he tried to force an entrance.

Cornelian Literary Society Meets.

The annual banquet of the Cornelian Literary Society of the State Normal and Industrial College was held in the dining hall of the Spencer building at Greensboro recently. In addition to the present membership more than half a hundred former students were in the city for the banquet and there were a number of specially invited guests from the faculty and city.

Governor to Serve Two Days on Roads

Governor Locke Craig will serve his two days' term on "Good Roads Days" in Buncombe county, having announced recently that he will shovel dirt in this county during the holidays. Governor Craig stated that he will go to Asheville from Raleigh on the night of November 4 and he hopes to be in fine form to use the shovel on November 5 and 6. Having been bantered by a good roads enthusiast Governor Craig has agreed to shovel all the dirt Jim Morgan, of Asheville, can pick.

N. C. Pine Association Meets.

The twenty-fourth semi-annual meeting of the North Carolina Pine Association recently was held at Charleston, S. C., attended by lumber manufacturers from Virginia, North and South Carolina. The business was carried through with dispatch and everything had been concluded in time for the luncheon at 2 o'clock, which wound up the meeting. The feature of the meeting was the address of President Horton Corwin, Jr., in which he told of the condition of the North Carolina pine industry.

FIRE PREVENTION NEEDED

With Advent of Cold Weather and Building of Fires, The Danger Period is At Hand.

Charlotte.—With the advent of winter weather and the firing of furnaces, grates and stoves, attention should be given the subject of dwelling house hazards, to which general subject the North Carolina Fire Prevention Association is paying very particular attention at this time. Recently inspectors representing this organization visited all the buildings in the business district and submitted reports as to what they found. Of timely concern was the reference to the vast amount of gasoline that was found to be lying about in open vessels in the various pressing clubs and other establishments which constituted constant menace to the business district of the city. Mention was also made of the many heaps of rubbish and refuse found lying about in attics, basements and backdoors, which also added to the conflagration risk.

Under the heading of dwelling house hazards, the North Carolina Fire Prevention Association, which maintains headquarters in this city, is issuing warning to housekeepers for the purpose of preventing fires. A few of these suggestions may be worth while and are herewith reproduced:

"Housekeeping—The attic, cellar and all closets and outbuildings should be cleaned at least once every year, and all useless material and rubbish removed therefrom and burned. These unnecessary accumulations are dangerous, and are the causes of many fires. Store all remaining material neatly so that a clear passage may be had between or around boxes, cases, barrels, etc.

"Metal waste baskets, only, should be used.

"In storing clothing, first remove all matches and other material from the pockets and then carefully fold and neatly place away. Do not hang clothes where they will be near hot chimneys.

"Do not go into closets with lighted matches or candles.

"Care should be exercised in burning leaves, dead grass or rubbish. Keep these fires a safe distance from buildings, and never light them on windy days.

"Do not bank houses in the winter with straw, excelsior or other readily inflammable material; a chimney spark or carelessly thrown match may ignite it.

"Matches—Use only safety matches, make it impossible for children to get them. Always place burned matches in metal receptacles; never throw them on the floor or into the waste baskets.

"Heating Hazards—Coal and kindlings should preferably be kept with in a brick or stone enclosure and not stored against frame partitions nor directly against walls of boiler or furnace rooms.

"Never put kindling into the oven. Deposit all ashes in metal receptacles or upon non-combustible floors, removing same from buildings at least once a week. Barrels or boxes should not be used for storing or carrying ashes unless they are constructed entirely of metal."

To Purchase Additional Lands.

A movement looking to the purchase of additional lands under the provisions of the Weeks' act and the setting aside of the timber lands bought under the bill as health and recreation grounds has been started by prominent western Carolinians interested in the project who held a meeting and perfected an organization in Asheville. Governor Craig, who was an Asheville visitor, was named as president of the association and Geo. S. Powell was elected secretary.

Much Work of Roads.

Work on the first link of Edgecombe county's good roads, as recently provided for in the passage of a bond issue of \$200,000 for the building of roads and bridges, has been started between Mildred and Coneto under the supervision of E. O. Hathaway, senior highway engineer of the office of public roads, United States department of agriculture. This new road will connect Mildred and Coneto and will be of sand-clay for the entire distance of three and one-half miles.

Large Cargo of Cotton.

With the largest and most valuable cargo of cotton for export from port of Wilmington this season, the British steamer Cardigan, Captain Williamson, sailed recently for Bremen, Germany. The Cardigan carries 14,443 bales of the staple, valued at \$1,100,000. While the record cargo for the port is something like 18,000 bales in a single cargo, the Cardigan carries the greatest number of bales of the season. One other large ship is now taking on cargo at the compresses.

Tar Heels Inventive.

Patent attorneys report to citizens of North Carolina: George P. Crutchfield, Greensboro, windlass attachment for vehicle-brakes; Samuel V. Laughinghouse, Grifton, car-coupling; Benjamin P. Rucker, Charlotte, vending machine for liquids; Samuel O. Thompson, assignor of 40 1-100 to R. M. Williams, Maxton, automatic water cut-off; William E. Wine, Wilmington, assignor to the Wine Railway Appliance Company, leader and hand-hold for railway cars; Horace B. Phillips, Fairmont, still.

FOR GOOD ROADS

ASHEVILLE GOOD ROADS CONVENTION ADJOURNS AFTER ELECTING NEW OFFICERS.

FOR A NATIONAL HIGHWAY

Resolutions Adopted Placing Southern Appalachian Association on Record—North Carolina Fares Well in Offices—Meet Next at Bristol.

Asheville.—With the election of officers for the coming year and the selection of Bristol, Tenn., as the next meeting place, the fifth annual convention of the Southern Appalachian Good Roads Association adjourned recently. The officers for the coming year follow:

President and treasurer, Dr. Joseph Hyde Pratt, of Chapel Hill, secretary, Henry B. Varner, of Lexington; vice-presidents, Cyrus Kehr, of Knoxville; C. M. Strahan, of Athens; E. C. Chambers, of Asheville; John Crawford, of Mobile; James Maret, of Mt. Vernon, Ky.; E. F. Lipecomb, of Gaffney, E. C.; Henry Roberts, of Bristol, A. D. Williams, of Morganton, West Va.

Executive committee: J. A. Smith, of Gainesville, Ga.; J. N. Fisher, of Morristown, Tenn.; E. P. Wharton, of Greensboro, N. C.; C. P. Light, of Martinsburg, W. Va.; P. St. J. Wilson, of Richmond, Va.; Dr. C. P. Ambler, of Asheville; R. C. Terrell, of Frankfort, Ky.; W. T. Winn, of Atlanta; W. G. Sirrine, of Greenville; W. S. Kelley, of Montgomery, Ala.; H. C. Elliott, of Roanoke.

Resolutions were adopted placing the organization on record as favoring a system of national highways, built and maintained by the national government. A system of state highways built and maintained by the state governments, and a system of county highways built and maintained by the county governments. The association will petition congress to authorize the president of the United States to appoint a commissioner from civil life with sufficient funds to investigate and make recommendations as to what action congress should take regarding the numerous bills introduced providing for federal aid to highways.

On the last afternoon Governor Locke Craig spoke on plans for making "Good Road Days" successful.

Reports from persons interested in the construction of various inter-city roads reported the progress of the work. In his report of the work on the central highway of North Carolina, Henry B. Varner predicted that the work will be completed by 1915 and that the greater part of it will be finished within six months. He took an occasion to repeat his charge that the highest goal in the state is that which enables promoters of "worthless railroad schemes" to carry on their work with convicts furnished, fed, clothed and guarded by the state. His characterization of this plan as a "steal" was received with applause.

The organ of the convention on record as endorsing Atlanta as the place of holding the next American Road Congress.

Defer Inauguration.

Greensboro.—The administration of Greensboro College for Women announces that conditions have arisen which prevent the inauguration of Dr. S. B. Turrentine as president on Thursday, November 6, the date selected for the inaugural exercises. The inauguration will be held at a later date, and will be duly announced.

New Deputies Soon.

Washington, D. C.—Senator Overman has returned to Washington. He is pleased with the action of President Wilson in signing the deficiency bill, which carries his amendment exempting deputy collectors from the civil service. He thinks that the collectors of the state will put Democrats in the deputy collectorships inside of two weeks.

Banks Combine.

Southport.—A business deal of interest to Southport and Wilmington people has just taken place by which the Bank of Brunswick and the Bank of Southport have been combined and the business will be continued under the name of Bank of Southport. Most of the business men of Southport were interested in one of the two banks, and uniting the two banks means that they are united in the up-building of the town and county. The Bank of Southport becomes a strong financial institution.

A Deadly Affray.

Kinston.—Recently when Charley Allen and Johnson Mills, Greene county negroes, engaged in an affray with deadly weapons in Brown town at the home of the later, Allen was severely cut with a knife by his host and in self-defense shot Mills through the abdomen, fatally wounding him. The men married sisters, and Allen interfered when Mills attempted to chastise his wife. The man who was shot was too badly wounded to be moved and was left under guard at his home, while Allen was locked up.

FLEET STARTS ON WORLD TOUR

GREAT AMERICAN SQUADRON SAILS FROM HAMPTON ROADS ON LONG JOURNEY.

BEARS GREETING OF U. S.

Nine Grim Garbed Wardogs Steam Out of Port, Carrying America's Compliments to Eastern Hemispheres—On Peaceful Mission.

Hampton Roads.—Bearing the greetings of the New World to the Old, the great sea fighters of the Atlantic fleet recently were started on their way to the ports of the sunny Mediterranean. Nine sombre garbed war machines, carrying thousands of American fighting men and sailors, received the final nod of farewell from the trim yacht Dolphin, bearing Assistant Secretary Franklin D. Roosevelt and slid slowly out between the protecting capes in the open seas—the course due east.

As the creeping gray forms melted into the shadows of the horizon, the crackling wireless flashed the last word from the assistant secretary of the navy, acting as representative of the president, commander-in-chief of the navy.

"In sending you as representatives of the United States navy of today we hope to show to the old world that the achievements and traditions of the past are being sustained and carried forward to a still more splendid future. Good luck, and Godspeed."

Thus read the final benediction as it had it crashed from the aerials when the assistant secretary and scarcely back came the prompt reply signed by Rear Admiral Charles D. Badger, in command of the fleet.

"The fleet thanks you for your parting words and will do its utmost to reflect honor upon the country and service."

In battle formation the ponderous gray ships slid by the trim little yacht, straying to just inside the capes. Straight down the channel gray bulk after gray bulk crept by, the crew lined the rail quarters, marines and bands on parade. First came the big Wyoming, America's latest word in warcraft, her bows sliding through the water upturning a sheaf of foam. At her masthead flew the blue double-starred flag of the commanding rear admiral. But two ships lengths behind, and directly in her wake, the Arkansas, flagship of the first division, under Rear Admiral Cameron McR. Winslow, stole along.

Then at exact intervals followed the Utah, the Florida, the Delaware, Kansas, Vermont and Ohio.

Congress Hall Rededicated.

Philadelphia.—Congress Hall, in historic Independence Square, where the senate and house of representatives sat from 1790 to 1800, was rededicated recently with patriotic exercises, the occasion marking the completion of the restoration of the hall to almost its original appearance. President Wilson delivered an address in which he harked back to the early days of the republic and contrasted men and things of those times with the present. President Wilson, who was accompanied from Washington by Secretaries Wilson and Houston, Speaker Champ Clark, Ambassador Jusserand of France, and a delegation of members of the senate and house, was given an enthusiastic welcome.

Five Killed by Explosion.

Lynchburg, Va.—The premature explosion of a charge of dynamite and powder, which was being rammed for blasting recently nearly wiped out a night force in one of the mines of the Piedmont Manganese Corporation, owned by a New York and London syndicate, six miles east of Lynchburg. As a result of the explosion five men were killed and two are injured, one probably fatally. The injured are in a hospital here.

Philippine Scout Killed.

Manila, Philippines.—Capt. Harry McDermery of the Thirteenth company, Philippine scouts, died recently from wounds received during a fight between the Scouts and Moros.

View Employer's Remains.

St. Louis.—Employees of the brewery of which Adolphus Busch was the head, led by 500 secretaries and officials of the brewing company, recently passed through the Busch home here and viewed for the last time the features of their old employer.

Mrs. Harriman Chosen.

Washington.—The federal industrial commission completed temporary organization and adjourned until late in December, when additional investigators will be appointed. Mrs. J. Borde Harriman of New York was chosen president commissioner and will have supervisory charge of the work of the commission with headquarters in Washington. W. J. Lauck, of Lexington, Va., was appointed chief expert in charge of all investigations. R. P. Ritter of Kansas City was named secretary and executive clerk.

INDIGESTION, GAS OR BAD STOMACH

Time it! Pape's Diapiesin ends all Stomach misery in five minutes.

Do some foods you eat hit back—taste good, but work badly; ferment into stubborn lumps and cause a sick, sour, gassy stomach? Now, Mr. or Mrs. Dyspeptic, jot this down: Pape's Diapiesin digests everything, leaving nothing to sour and upset you. There never was anything so safely quick, so certainly effective. No difference how badly your stomach is disordered you will get happy relief in five minutes, but what pleases you most is that it strengthens and regulates your stomach so you can eat your favorite foods without fear.

You feel different as soon as "Pape's Diapiesin" comes in contact with the stomach—distress just vanishes—your stomach gets sweet, no gases, no belching, no eructations of undigested food.

Go now, make the best investment you ever made, by getting a large fifty-cent case of Pape's Diapiesin from any store. You realize in five minutes how needless it is to suffer from indigestion, dyspepsia or bad stomach. Adv.

LITTLE JOKE BY SKIMPS

Backed His Statement With Money, but Was Compelled to Compromise.

"Speaking of bantam chickens," remarked Skimps, when the conversation turned to poultry, "I have a hen whose eggs are so small that I put three dozen of them in a collar-box the other day."

"Give him the Ananias club medal!" shouted the rest, in chorus.

"Have any of you gentlemen money with which to back your doubts of my veracity?"

"I have a couple of dollars," replied Gaswell.

"So have I," added Dukane.

"Good enough! I'll cover both of those bets."

"Very well. Now show us those eggs in that collar-box."

"Well, I can do it if you insist, but perhaps it may not be necessary."

"Of course it's necessary! You don't expect to win our money without proof, do you?"

"Not at all, but I merely wish to observe that it was a horse-collar-box I put the eggs in."

With some difficulty the matter was compromised, and Skimps was warned that the next break of the kind would cost him his life.

GRANDMA USED SAGE TEA TO DARKEN HER GRAY HAIR

She Made Up a Mixture of Sage Tea and Sulphur to Bring Back Color, Gloss, Thickness.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color, and lustre to the hair when faded, streaked or gray; also ends dandruff, itching scalp and stops falling hair. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays, by asking at any store for "Wyeth's Sage and Sulphur Hair Remedy," you will get a large bottle of this famous old recipe for about 50 cents.

Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, thick and glossy. Adv.

Father's Neat Rebuke.

This is a story told of an old Evangelical clergyman who had a son in orders. The young man became a full-blown Ritualist. On one occasion the father paid a visit to his son, who asked him to preach in his church. For some time the old man refused, but pressed to do so, he at length consented, and chose the text, "Lord, have mercy upon my son, for he is a lunatic."

BEST REMEDIES FOR SORES AND ULCERS

Mr. C. A. Butler, of Salem, Va., writes: "I can safely say that Hancock's Sulphur Compound is the best remedy I ever used for sores. One of my little boys, eight years old, had a solid sore all over his face, we tried different kinds of medicine, but none seemed to do any good. Our son, nineteen years old, had a sore on his leg for three months and nothing did him good. We used Hancock's Sulphur Compound on both and it did its work quickly and it was not over a week until both were well." Hancock's Sulphur Compound is sold by all dealers. Hancock Liquid Sulphur Co., Baltimore, Md.—Adv.

In Plunkville.

"Why do you keep your jail barricaded so strongly? These tramps don't want to get out."

"I know that," said the constable, "but there's plenty want to slip in."

To prevent gangrene use Hanford's Balsam because it cleanses and heals the wound. Adv.

Where some women are concerned beauty is only enamel deep.
