

sour stomachs in five minutes -Time It!

"Really does" put bad stomachs in 'really does" overcome indigestion, dyspepsia, gas, heartburn and sourness in five minutes-that-just that-makes Pape's Diapepsin the largest selling stomach regulator in the world. If what you eat ferments into stubborn lumps, you belch gas and eructate sour, undigested food and acid; head is dizzy and aches; breath foul: tongue coated: your insides filled with bile and indigestible waste, remember the moment "Pape's Diapep-sin" comes in contact with the stomach all such distress vanishes. It's truly astonishing—almost marvelous, and the joy is its harmlessness.

A large fifty-cent case of Pape's Diapensin will give you a hundred dollars' worth of satisfaction.

It's worth its weight in gold to men and women who can't get their stomachs regulated. It belongs in your home-should always be kept handy in case of a sick, sour, upset stomach gluring the day or at night. It's the quickest, surest and most harmless stomach doctor in the world.-Adv.

Peculiar Belief.

Two centuries have passed since the Scottish judge Lord Monboddo was born. In his "Origin and Progress of Language" he argued that human beings should be studied like other animals, but this doctrine seemed to the contemporaries of Dr. Johnson so ridiculous that the wags based many a jest upon it. His belief that mem got rid of their tails by sitting upon them would now scarcely raise a smile among anthropologists. Among his more startling propositions was the earnestly maintained one that the ourang-outang "was a class of the human species, and that its want of speech was merely accidental.

ADVISORY BOARD TO EFFECT CLOSE ORGANIZATION.

ADJUSTMENT BADLY, NEEDED

Governor Craig Praises Corporation Commission's Work and Outlines Plan to Supplement it for Better

Results in the Near Future.

Raleigh .- The Just Freight Rate Association of North Carolina in special session here a few days ago in the office of Governor Craig adopted resolutions offered by T. J. Forester of Greensboro providing that the permanent organization of the association be delegated to the present officers and advisory board with power to adopt constitution and by-laws, fix dues and all membership and other regulations that shall govern the association. Under the resolutions there must be an annual meeting of the association not later than May 15 for

the election of officers and getting ready for the summer and fall campaign. A clause was added to the resolu

tions by Col. J. L. Ludlow of Winston-Salem to the effect that one of the reasons for the putting the association on permanent footing is that Governor Oraig especially insisted that this course be taken.

On motion of A. A. Thompson of Raleigh the number of the members of the advisory board was increased from seven to ten. This was in order to allow President Tate to name new and more active members for certain sections without actually dropping

any of the members now on the list. Mr. Forester insisted that there is great deal of work still to be done by the association. He thought the association should have some competent and active persons to give special attention to the pending adjustment that the rates named in the Justice act are purely suggestive and that the whole scale of rates must be adjusted. Indeed, he predicted that two years hence, when the special commission has completed its adjustment of rates, there will still be much to be done for this adjustment and that the retirement of Mr. Craig as governor will see this rate fight still far from

settled. The Forester resolutions were a Thompson of Raleigh and E. R. Preston of Charlotte looking to permaremarked something about being in 'Winter quarters" until May 15 and Mr. Forester and Secretary . Leake to the term "Winter quarters" and insisted that there should be steady and continued activities.

Contest for Stamp Collector.

The contest for the position of dep uty stamp collector at Durham has been going on quietly for the past month, and it seems at the present time that there is no surer indication of who will be appointed to succeed Mr. W. F. Cheek, the Republican incumbent, than there was at the time J. W. Bailey was appointed head of this district. The candidates and oth- fall and winter bats and clothing. ers who claim to know something of the intentions of the federal officers say that there is no doubt of the fact took charge of this district he sent Mr. Cheek his appointment for only 90 days and this time has about expired.

Best In History of Mecklenburg Coun ty .-- Weather Was Excellent and Exhibits Good.

Charlotte .- The Mecklenburg fair and all its transient equipment are now things of the past, a light-hearted directorate remains behind. The enterprise which closed its gates recently was one of the most successful ever held. This is true with regard to attendance and gate receipts and also to the number and merit of the exhibitions.

Denizens of the court house will see more of President C. C. Moore and Secretary-Treasurer Edgar B. Moore will be more often found in the vicinity of the Selwyn now than for some days past. These two energetic citizens, one name expressing unlimited breadth of vision and the other an ambition to extend con-stantly the zone of his achievements, have fairly lived at the grounds of Charlotte Fair Association for the the past week. Bearing in mind Poor Richard's maxim, "If you would have a thing done, go-4f not, send," they have given personal direction to the manifold details which must be executed in order to secure success.

"We have delivered the goods, and am liable to have a case of the big-head," said President C. C. Moore. "Its success exceeded my fondest expectations," said Secretary E. B. Moore.

For the first time in years, clean weather prevailed from start to finish and the result was shown in the attendance. During the last day and two nights the temperature was too low for perfect comfort and this fact diminished receipts considerably. but did not have the deterrent effect which, would have been exercised by a depressing rain and clouded sky which too often make their appear ance on such occasions.

Twelve thousand people rushed through the turnstiles Wednesday, Charlotte day. The total paid admissions for the fair was not quite 20,000, but thousands of school children were admitted free on Tuesday and others on Friday. The custom of securing Tuesday as a holiday and admitting the children free has of the intrastate act. He insisted proven a wise one. Besides advertising the fair, it results in the presence of many parents who accompany the children and what in former years was a dull day is transformed into one of the liveliest of the entire quartet. The paid attendance this year was more than double-that of last year.

That the importance of the fair to the agriculture of the county in arous arousing enthusiaem for better methods is appercetated was shown by the substitute for motions by A. A. interest taken by the farmers and their co-operation. A majority of the 200 stockholders are farmers and nent organization. Mr. Preston had the largest individual stockholder is one. Its president is one of the best known agriculturists in the state. The association does not use the word Carraway, more especially, excepted agriculture merely as a cloak behind which to hide some radically different project. The farming exhibits are

very real and genuine features.

The fair proved a magnet of no mean drawing power in attracting visitors to Charlotte not merely from this but from surrounding counties. Towns and countryside within a radius of 50 or 100 miles sent visitors. The principal hotels had all that they could do to accommodate the throng comfortably. It was a stimulus to trade, because men brought their wives and children and purchased
