

DIZZY, HEADACHY, SICK, "CASCARETS"

Gently cleanse your liver and sluggish bowels while you sleep.

Get a 10-cent box. Sick headache, biliousness, dizziness, coated tongue, foul taste and foul breath—always trace them to torpid liver; delayed, fermenting food in the bowels or sour, gassy stomach.

Poisonous matter clogged in the intestines, instead of being cast out of the system is re-absorbed into the blood. When this poison reaches the delicate brain tissue it causes congestion and that dull, throbbing, sickening headache.

Cascarets immediately cleanse the stomach, remove the sour, undigested food and foul gases, take the excess bile from the liver and carry out all the constipated waste matter and poisons in the bowels.

A Cascaret to-night will surely straighten you out by morning. They work while you sleep—a 10-cent box from your druggist means your head clear, stomach sweet and your liver and bowels regular for months. Adv.

FALLING HAIR MEANS DANDRUFF IS ACTIVE

Save Your Hair! Get a 25 Cent Bottle of Danderine Right Now—Also Stops Itching Scalp.

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; of dandruff—that awful scurf.

There is nothing so destructive to the hair as dandruff. It robs the hair of its luster, its strength and its very life; eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast. A little Danderine tonight—now—any time—will surely save your hair.

Get a 25 cent bottle of Knowlton's Danderine from any store, and after the first application your hair will take on that life, luster and luxuriance which is so beautiful. It will become wavy and fluffy and have the appearance of abundance; an incomparable gloss and softness, but what will please you most will be after just a few weeks' use, when you will actually see a fine, downy hair—new hair—grow over the scalp. Adv.

Be Kind. "There were straight issues in this campaign, were there not?" "Yes; and one of them was straight whisky."

INDIGESTION, GAS OR BAD STOMACH

Time! Pape's Diapiesin ends all Stomach misery in five minutes.

Do some foods you eat hit back—taste good, but work badly; ferment into stubborn lumps and cause a sick, sour, gassy stomach? Now, Mr. or Mrs. Dyspeptic, let this down: Pape's Diapiesin digests everything, leaving nothing to sour and upset you. There never was anything so safely quick, so certainly effective. No difference how badly your stomach is disordered you will get happy relief in five minutes, but what pleases you most is that it strengthens and regulates your stomach so you can eat your favorite foods without fear.

You feel different as soon as "Pape's Diapiesin" comes in contact with the stomach—distress just vanishes—your stomach gets sweet, no gases, no belching, no eructations of undigested food. Go now, make the best investment you ever made, by getting a large fifty-cent case of Pape's Diapiesin from any store. You realize in five minutes how needless it is to suffer from indigestion, dyspepsia or bad stomach. Adv.

A Surprise. "Dobbs is a mild-mannered man." "Yes he is. I wonder if he's natural by so, or married?"

PELLAGRA SPREADS

THE PUBLIC HEALTH SERVICE ISSUES VALUABLE BULLETIN ON THE DISEASE.

SHOWS INCREASE IN N. C.

Bulletin Contains Up-to-Date Statement of Surgeon C. H. Lavinder Who Has Made Long Study of Disease.

Raleigh.—Special from Washington says, the most recent figures on pellagra show that the disease is spreading in North Carolina and other states. The death of prominent persons in North Carolina with the dreaded disease has caused the people there to take more interest in it.

The public health service here has issued a bulletin on pellagra. In it appears an up-to-date statement by Surgeon C. H. Lavinder who has made a study of the disease for several years. Doctor Lavinder says:

"The literature of pellagra continues to increase in volume but our actual knowledge of the nature of the disease still leaves much, very much to be desired. The etiology of pellagra remains in obscurity. The Italian school continues to ring changes on the corn theory, while the American school seems largely inclined to regard pellagra as an infectious disease of some undetermined nature."

"Taking all things into consideration, at present the safest point of view with regard to the causation of this disease is probably one of frank agnosticism, backed up by healthy spirit of criticism and investigation, with the suppression of all desire to rush into print with immature speculations fantastic hypotheses and incomplete experimentation."

"It is worthy of remark that Sambon has shown what was already suspected, that the disease is far more prevalent than has been heretofore stated. In striking confirmation of this fact he has reported recently the discovery of over 50 cases of the disease in the British Isles. In the United States there is little doubt that pellagra continues to spread and numerous cases are now found where the disease scarcely existed a year ago."

"There is no specific remedy for pellagra," Doctor Lavinder says. "Lacking a specific remedy however, we have no need to throw up our hands in despair," he adds. "There is a treatment for this disease which properly applied gives good results, especially in early cases. This treatment is largely summed up in the removal of the patient from his surroundings if possible, and preferably to an institution, proper diet properly regulated rest, hydrotherapy and intelligent attention to general symptomatic treatment without too much drugs."

Sues for \$12,800. Asheville.—An unusual case, in which damages are sought for losses alleged to have been sustained as the result of forest fires, has been transferred from the superior court of Avery county to the United States district court. In the complaint, a copy of which was received at the office of the clerk recently, Noah P. Webb seeks damages from the W. M. Ritter Lumber Company in the sum of \$12,800, claimed to have been sustained as follows: To rhododendron shrubs, \$12,000; growing timber \$500; galax, \$200; other shrubs, \$100.

Inspect School Children's Teeth. Kinston.—The children in the local grammar school are being examined by dentists at the rate of 50 daily now under the plan of the authorities for free dental inspection in the schools. Although the examination is not compulsory, no children have declined to be inspected. The dentists give their services free and alternate in making the examinations.

Check Flasher Caught. Raleigh.—Addison P. Jones, a young man claiming Baltimore as his home, is under arrest in this city charged with flashing checks and is also wanted for the same offense in Columbia, S. C., Washington, N. C., Philadelphia, Baltimore and several other cities.

Will Transfer Colored Clerk. Asheville.—Charles A. Brown, colored, who has been employed as a helper in the railway mail service for the past year or more, between Asheville and Union, S. C., is to be transferred from this to some other run. The transfer papers have not yet been received, but Congressman James M. Gudger, Jr., is authority for the statement that all arrangements have been completed for the transfer of the negro at an early date. Brown is the only negro in this service working on any of the runs from this city.

Good Price For Peanuts. Scotland Neck.—The short cotton crop in this section of the state does not badly hamper the farmers, since they do not depend on cotton by any means a their only money crop. It is true that because of the storm early in the fall the cotton crop is damaged at least 25 per cent, and in a few cases even as high as 50 per cent, but with the good prices at which the staple has been selling and the extra high prices paid for peanuts, the farmers are yet on top and likely to stay there.

CHILDREN LOVE SYRUP OF FIGS

It is cruel to force nauseating, harsh physic into a sick child.

Look back at your childhood days. Remember the "dose" mother insisted on—castor oil, calomel, cathartics. How you hated them, how you fought against taking them.

With our children it's different. Mothers who cling to the old form of physic simply don't realize what they do. The children's revolt is well-founded. Their tender little "insides" are injured by them.

If your child's stomach, liver and bowels need cleansing, give only delicious "California Syrup of Figs." Its action is positive, but gentle. Millions of mothers keep this harmless "fruit laxative" handy; they know children love to take it; that it never fails to clean the liver and bowels and sweeten the stomach, and that a teaspoonful given today saves a sick child tomorrow.

Ask at the store for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly on each bottle. Adv.

Good luck is like a lot of other things. You never fully appreciate it until you haven't it.

GRANDMA USED SAGE TEA TO DARKEN HER GRAY HAIR

She Made Up a Mixture of Sage Tea and Sulphur to Bring Back Color, Gloss, Thickness.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray; also ends dandruff, itching scalp and stops falling hair. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays, by asking at any store for "Wyeth's Sage and Sulphur Hair Remedy," you will get a large bottle of this famous old recipe for about 50 cents.

Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, thick and glossy. Adv.

Few men care to say what they think about women.

COLDS & LAGRIPPE

5 or 6 doses 666 will break any case of Chills & Fever, Colds & LaGrippe; it acts on the liver better than Calomel and does not gripe or sicken. Price 25c.—Adv.

Great opportunities seldom employ an advance agent.

SHAKE INTO YOUR SHOES. "Don't buy the Antiseptic powder for Tired Feet. It's a deception. Gives best and most pleasant relief. Sold everywhere. Do not expect any substitute. For FREE sample, address Allen S. Oldham, Le Roy, N. Y. Adv.

GUARDS OFF FLOODS

East Side Levee and Sanitary District of Illinois.

Section is a Municipality Chartered by the State and Has Power to Collect Taxes to Keep the Mississippi River Within Bounds.

East St. Louis.—The east side levee and sanitary district, in which the city of East St. Louis is situated, is a municipality, chartered by the state of Illinois and given power to levy and collect taxes for the purpose of providing flood protection and drainage for a 150 square mile area situated on the east side of the Mississippi river, opposite the city of St. Louis.

The area extends about 30 miles along the Mississippi river, and is bounded on the east by a chain of bluffs. Within the area is a large industrial center, and a very prolific agricultural district. The principal city in the area is East St. Louis, which has a population of 75,000. The other cities are Granite City, National City, Madison, Venice, Brooklyn, Nameoki and Cahokia.

In the past this area has had to endure many floods, resulting from an unusual combination of causes. The estimated cost of the work provided for in the present plans of the east side levee and sanitary district is \$6,500,000. The east side levee and sanitary district as a municipality embrace a large territory, including the cities mentioned, but is in no way directly connected with them. The district is governed by a board of trustees elected every four years, which board appoints a chief engineer, a treasurer, a clerk and attorney.

To appreciate the significance of the measures taken by the east side levee and sanitary district to guard against future floods in the area, it is necessary to have a clear understanding of the causes of the frequent floods.

The area is comparatively low, and the Mississippi river formerly spread over a large portion of it. Through the area runs a stream called Cahokia creek. Lying northwest of the area is a 200 square mile plateau, which forms a watershed for

Showing Levee District.

Cahokia creek. Practically all of the watershed of the plateau was formerly carried through the lower area by the Cahokia creek to the Mississippi river.

In the event of a heavy rainfall the water from the plateau would augment the drainage of the lower area, and the Cahokia creek would overflow its banks in the lower area. High water in the Mississippi river and the Cahokia creek would frequently occur at the same time. The Mississippi river water packing up into the channel of the Cahokia creek would meet the downward rush of the water from the plateau and the result would be a disastrous overflow. The Mississippi river inundating the area from the west and the Cahokia creek overflowing in the central part furnished enough water to almost submerge the area. These overflows occurred frequently, and caused great inconvenience to traffic and devastation of property.

Keeping the Mississippi river out of the area was simply a matter of building a levee high enough, but harnessing the Cahokia creek was a problem presenting a number of difficulties.

WALK TO AVOID STARVATION

Eight Children Trudge Forty Miles in Search of Father, Mother and Food.

Los Angeles, Cal.—Facing starvation in their isolated home in the Malibu mountains, eight children, ranging in ages from eighteen years to eighteen months, started on a 40-mile walk to Los Angeles in search of food and their father and mother. The father, R. W. Baller, a homesteader, came to Los Angeles some days ago to seek work, they said.

After they had walked 15 miles the older children, taking turns in carrying the youngster as well as their pet dog and cat, which they would not leave to starve, they were found by Ray Nimmo, an attorney of Los Angeles. He gave them money with which to ride to this city, where they have arrived.

Good Samaritan Arrested. Newark, N. J.—Because he played good Samaritan to a suffering liveryman in East Orange and pined his corn, Thomas Wood was arrested charged with practicing chiropraxy without a license.

What is Woman's Beauty but Health?

And the Basis of Her Health and Vigor Lies in the Careful Regulation of the Bowels.

If woman's beauty depended upon cosmetics, every woman would be a picture of loveliness. But beauty lies deeper than that. It lies in health. In the majority of cases the basis of health, and the cause of sickness, can be traced to the action of the bowels.

The headaches, the lassitude, the sallow skin and the lusterless eyes are usually due to constipation. So many things that women do habitually conduce to this trouble. They do not eat carefully, they eat indigestible foods because the foods are served daintily and they do not exercise enough. But whatever the particular cause may be it is important that the condition should be corrected.

An ideal remedy for women, and one especially suited to their delicate requirements, is Dr. Caldwell's Syrup Pepsin, which thousands of women endorse highly, among them Mrs. C. S. Vance, of 511 S. Ray St., New Castle, Pa. At times she had spells of indigestion so severe that she thought she would die. Syrup Pepsin regulated her stomach and bowels, and she attributes her excellent health today to this remedy.

All the family can use Dr. Caldwell's Syrup Pepsin, for thousands of mothers give it to babies and children. It is also admirably suited to the requirements of elderly people, in fact to all who by reason of age or infirmity cannot stand harsh salts, cathartics, pills or purgatives. These should always be

DISFIGURED WITH PIMPLES

R. F. D. No. 2, Box 46, Matthews, Ga.—"For three years or more I was troubled with pimples and blackheads. At first my face would itch and burn and then the pimples would break out. They looked almost as if I had measles, causing great disfigurement. They would make my face very red and sore. Then they festered and came to a head and large boils would come on my chin and nose.

"I also had dandruff which caused my scalp to itch and burn. It itched and burned so that I had to scratch it until it was irritated. The dandruff scaled off and showed plainly in my hair. It also caused my hair to break off and become very thin. I used several remedies which did not cure and gave but little relief. After I received a free sample of Cuticura Soap and Ointment I began using them according to directions. I secured two cakes of Cuticura Soap and two boxes of Cuticura Ointment, which cured me perfectly." (Signed) Miss Willie M. Walker, July 31, 1912. Cuticura Soap and Ointment sold throughout the world. Sample of each free, with 32-p. Skin Book. Address postcard "Cuticura, Dept. L, Boston."—Adv.
