

# Edwin Hawley

Once messenger boy, later millionaire, said:  
 "When I made \$4.00 a week I saved 50c;  
 when I got \$8.00 a week I put aside \$2.00.  
 The time came when I had a tidy little sum in  
 the bank. I have been saving ever since."

Who Says The Little Things Don't Count?  
 Fifty cents isn't much but see where it put Edwin Hawley  
 and it will land you on the same shelf.  
 Let us keep part of your wages each week.

 Wheeler Martin, Directors.  
 Subscribed and sworn to before me, this 22 day  
 of Jan. 1914.  
 Asa T. Crawford  
 Notary Public.

#### When She Wakes Up.

Once a woman realizes that it is a very awkward and wasteful method to wash dishes with the drainboard on her right and the dishes piled on her left, she will have the drainboard changed to her left and stack her dishes on the right side where they will be most quickly get-at-able. And if she will go at her dishwashing job with the idea of eliminating every minute of waste-labor, she will also quickly learn the importance of adjusting her dishpan to the right height.

#### "Wanted—A Collaborator."

That all persons of artistic or literary aspirations are not as impractical as they are generally supposed to be, is proved by the following advertisement, which, says the Boston Herald, recently appeared in a morning paper: Wanted—A collaborator, by a young lady playwright. The play is already written; collaborator to furnish board and bed until play is produced.

#### Rats Fought for Comrade.

Rats defended a comrade at Hungerford near London, England, on a recent night. An engineer at the Hungerford outfall works of the London Sewage system struck a large rat when making his rounds. Immediately scores of rats appeared and attacked the man fiercely, tearing at his trousers. Taking to his heels, the man was pursued by the animals for several hundred yards.

#### Counting Molecules.

A French mathematician has tried to convey to our minds some notion of the infinitesimal size of the molecule. He declares that if a person were to try to count the number of molecules in a cubic millimeter of hydrogen gas, taking one-billionth of a second to repeat each number, the task would occupy him for more than 1,000 years.—Youth's Companion.

#### United States' Superiority.

According to a report issued by the American bureau of foreign and domestic commerce, based upon a study of seventeen industries in the United States and Great Britain, it requires 18 per cent more power and two and one-half times more labor to do the same work, in the industries examined, in Great Britain than it does in the United States.

#### Neighborhood Characters.

Every neighborhood has some woman who is recognized as the information bureau and official news agency.—Atchison Globe.

#### Antiquities in Danger.

Hidden away in the national museums and libraries, and zealously guarded are a number of priceless manuscripts and books which, but for a fortunate chance, might have been lost to the world. The chief treasure of a museum at St. Petersburg is the oldest known Greek manuscript of the New Testament, which was about to be burned by the monks of a Syrian monastery, when, by a lucky chance, one of the priests, struck with the antiquity of the manuscript, interfered in time to save what had been thought valueless.

#### The Church.

According to the London Telegraph, the Bishop of London, speaking at the Mansion House, said that many people nowadays had a false idea of the church. "The popular idea was that you had only to put threepence in the slot, or rather in the offertory, and you got a handsome vicar, two good-looking curates and a peal of bells."

#### Holiday Enjoyment.

Few things are more delightful than a holiday which has been well-earned by conscientious, earnest work, bravely done throughout the year. A complete change in surroundings, interests and occupations should be part of a beneficial holiday. Resting does not mean idleness or cessation from activities or companionship.

#### "Horsy" Australians.

Englishmen are supposed to be the most "horsy" people in the world, but they are far behind many other countries in regard to the number of horses per head of population. In this respect Australia leads the British empire, there being 45 horses to every 100 people.

#### To Revive Ferns.

Nitrate of soda dissolved in water should be given to ferns that are small or weak, one-quarter of an ounce of nitrate to a gallon of water. One-half an ounce of nitrate to a gallon of water should be used on plants that are large and vigorous. Soot and salt are also good to use occasionally.

#### One Little Sin.

It is astonishing how soon the whole conscience begins to unravel if a single stitch drops; one little sin indulged makes a hole you could put your head through.—Charles Buxton.

#### Bitter Sweet.

Women swallow at one mouthful the lie that flatters and drink drop by drop the truth that is bitter.—Denis Diderot.

#### Financial Acumen.

Milligan—"If I be after laying security aqull ter what I take away, will yez thrust me till nixt wake?" Sands (the grocer)—"Certainly." Milligan—"Will, thin, sell me two av thim hams, an' kape wan av thim till I come agin."—Puck.

#### Worms the Cause of Your Child's Pains

A foul, disagreeable breath, dark circles around the eyes, at times feverish, with great thirst; cheeks flushed and then pale, abdomen swollen with sharp cramping pains are all indications of worms. Don't let your child suffer—Kickapoo Worm Killer will give sure relief. It kills the worms—while its laxative effect add greatly to the health of your child by removing the dangerous and disagreeable effect of worms and parasites from the system. Kickapoo Worm Killer as a health producer should be in every household. Perfectly safe. Buy a box today. Price 25c. All druggists or by mail Kickapoo Indian Med. Co., Phila. or St. Louis

#### Dissolution of Firm

The law firm of Martin and Critcher has been dissolved by mutual consent. This firm was composed of Wheeler Martin, Wheeler Martin, Jr., and B. A. Critcher, and has been very successful in the practice of their profession. Mr. Critcher has established an office in the building recently occupied and owned by S. A. Newell on Main Street.
