To the Patrons of the Farmers and Merchants Bank:-

Just after this issue of The Enterprise I expect to leave Williamston to make my home in Rocky Mount. I am taking this method of publicly thanking you one and all for the loyal support and valuable patronage you have given the Farmers and Merchants Bank under my administration. I wish to assure you that it has been a great pleasure to me to render such services as I could to the many good friends of the Bank. As I have had the honor of being with the institution from the time it was first opened for business and have watched it grow, so to speak, from a little acorn to a tall oak. I want to see this tree continue to develop and spread out its branches. The policy of the Bank, which has been "to do the greatest good to the greatest number of people in Martin County", will remain unchanged. I earnestly request that you continue to stand by this institution and all of its officers. Your business will be taken care of by officials who are thoroughly competent to manage the affairs of the Bank and they will continue to be liberal in extending you accommodation when needed. Again thanking you and assuring you that I will always have a warm spot in my heart for the good people of Martin County, I remain,

Very truly yours,

Thos. F. Sagau

New Way of Finding Water.
An Arizona observer has found out how to tell by the mesquite whether water is near the surface or not. When the mesquite grows up into tree form the ground water lies within fifty feet of the surface, but if it remains a shrub prospects for finding water are not so good. We are always learning that every natural phenomenon has meaning for us, if we can only read the meaning.—Farm and Fireside.
