FRIDAY, AUGUST 13 - 1918

There is no vacation on the fring line.

Thrift Stamps are on sale in every business house in the town; when you make a purchase, do not forget to help the boys "over there." Buy a Thrift Stamp

Let's remember in this sugar fight the motto of Foch is "Attack", and the method of our boys. "Fight as long as the fighting is good - and then some more." So "Up and at 'em!"

No doubt, there are many people who want to buy Thrift Stamps, and they can find them right at the store where they purchase goods. You can buy Stamps, do it now.

Turkey is starving, Germany pinched and Austria rioting for food. The Allies are well fed and full of fight, thanks to Uncle Sam who invited them to sit down to his table a year ago - he has been passing around the victuals ever since.

"The American people will gladly make any sacrifice in consumption and in the production of foodstuffs that will maintain the health, comfort and the courage of the people of the Allied countries. We are in fact eating at the common table with them." President's Message to the Conference of Allied Food Controllers in London

Joe Daniels and Religion

In the Elizabeth City Independent of last week, Editor Saunders, in answer to an inquiry as to the church relations of Secretary of the Navy Josephus Daniels, made the statement that the Secretary was a Baptist. Is it true that since he has had so much to do with water, oceans of it that he has left the Methodist Church of which he was for so long a most prominent member? No doubt, the Secretary believes in water, plenty of it, but at the present time he is evidently opposed to certain kinds of submersibles.

The church affiliations of those in the administration of government affairs seem to be giving some people lots of concern, when the truth is a man's religion has nothing to do with his efficiency in carrying on the work which has been assigned him.

The Fourth Liberty Loan

The campaign for the Fourth Liberty Loan will begin September 28 and close October 19. The result of the loan will be watched with keen interest in Europe, not only by our associates in the war against the Teutonic powers but by our enemies. It will be regarded by them as a measure of the American people's support of the war.

The Germans know full well the tremendous weight and significance of the popular support of the war, or of the people at home backing up the Army in the field. As the loan succeeds our enemies will sorrow; as it falls short they will rejoice. Every dollar subscribed will help and encourage the American soldiers and hurt and depress the enemies of America.

The loan will be a test of the loyalty and willingness of the people of the United States to make sacrifices compared with the willingness of our soldiers to do their part.

There must be and will be no failure by the people to measure up to the courage and devotion

of our men in Europe. Many of them have given up lives; shall we at home withhold our money? Shall we spare our dollars while they spare not their very lives?

Market Your Tobacco

The tobacco season is on; and it behooves every raiser of the weed to take stock of what he has to place on the market, and carefully handle the leaf to the best advantage. It is the season of high prices and the farmer should get every cent in his crop; he should grade and put it on the floors himself, and receive the checks from the book-keepers. The cost of raising was greatly increased this year, and the farmer needs every dollar in the business. Therefore, he should, if possible, grade and market the crop himself on the Williamston warehouse floors; this is the market for high prices, courteous treatment and every convenience that the times demand. So many farmers have the habit of selling their crops in the rough state, thereby losing hundreds of dollars. The man who works all through the months to grow the weed, then sits up night after night at the barns, should reap the full reward of his labors, and this can only be done when he sells every pile on the warehouse floors himself. Carefully grade and pack your tobacco and bring it to Williamston and bank your money.

German View of Christianity

Frederich Wilhelm Nietzsche was one of the most noted of modern German philosophers. How much has his philosophy affected the views and character of the Germans of to-day? Is not the answer written in the blood of the women and children, the old men of occupied France and Belgium? Are not the Lusitania victims witnesses to German adoption of Nietzsche's faith?

Here is his indictment of Christianity: "With this I conclude, and pronounce my sentence: I condemn Christianity. To me it is the worst of all imaginable corruptions. The church is the great parasite, with its anemic idea of holiness it drains life of all its strength, its love, and its hope. The other world is the motive for the denial of every reality. I call Christianity the one great curse, the one great intrinsic depravity, the one great instinct of revenge, for which no expedient is sufficiently poisonous, secret, underhand, to gain its ends. I call it the one immortal shame and blemish upon the human race."

Active Campaign Against Typhoid

August is the worst month in the year for the prevalence of typhoid fever. During July there were 822 cases reported in the state. If past experience is repeated August will show a total much larger, September will be only slightly better.

A large number of the cases result fatally. Last year 628 people in North Carolina died from this cause alone. It is estimated that typhoid fever entails a money cost of \$2,000,000 each year upon the people of the State. The prevalence of the disease this summer has been the occasion of grave concern to officers of the United States Army as well as the State authorities, and energetic steps have been determined upon to combat the ravages of the disease.

Typhoid fever is the most easily prevented of all preventable diseases. Anti-typhoid vaccination gives immunity for a period of at least three years, and may be taken without inconvenience or ill effects. That is why the county commissioners have arranged to offer the treatment free of any charge to all the people of the county during the course of the next few weeks.

The treatment is harmless and practically without pain. It causes no sore arms or unpleasant after effects, and will not stop a person from ordinary work. The treatment is given in a hypodermic injection in the left arm in three doses, each administered a week apart. All three doses must be taken to be effective. A person vaccinated is immune from typhoid fever for a period of at least three years.
