

WHAT IS THE MATTER WITH NORTH CAROLINA

An interesting vacation filled with peace, educational and entertainment features and all kinds of athletic as well as army instruction...

Our young men do not realize that as a rule they are not old-fashioned army men...

Our young men will benefit greatly mentally and physically. The work is necessary to some of our most prominent citizens and everyone who has a son should attend...

It will be much better for men who are not yet settled for life to go to these one month camps and get their commissions and be ready for something worth while in case of emergency...

WELL KNOWN FOLK ARE MARRIED

Greenville, N. C., May 29.—News reached here by wire, that R. L. Smith and Miss Nettie Lynn Tucker, both prominent citizens of Greenville, were married in Richmond.

To some of the local people this was a surprise while to others it was not. Mr. and Mrs. Smith, together with Mrs. W. L. Hall, the sister of the bride, and a chauffeur, left Greenville a couple of days ago...

Mr. Smith is not only a popular and prominent business man, his business consisting largely of extensive farming and conducting one of the largest sales tables in the State...

Mrs. Smith is daughter of Mr. and Mrs. K. A. Tyson and is very prominent here among the social circles.

WHAT ABOUT TOWNSHIP ROADS

The question "What About Township Roads" is put to us so often, that we are offering space to anyone to comment on the work being done or to express their opinions publicly.

The township pays quite a large sum of road taxes annually but little signs of the excess are seen by the taxpayers. As the state highway commission takes over practically all the roads in the township there will be no further need for the present heavy expenditure that is being made even though we are seeing little results.

STORIES OF GREAT INDIANS

By Elmo Scott Watson

CHIEF GALL, A GENERAL OF THE HUNKPAPA

"PAINFUL as it is to me to look upon the pictured face of an Indian, I never dreamed that there could be so fine a specimen of the warrior in all the tribes as this man," wrote Mrs. Custer of a photograph of Gall (1849), chief of the Hunkpapa Sioux.

Although the honors there were about equally divided between Gall and Crazy Horse, the credit for one vital Indian maneuver in the battle belongs to the Hunkpapa alone. When Reno attacked the Indian village, the Indians were thrown into confusion.

They obeyed him and a few minutes later he led the charge which forced Reno to retreat. With this officer eliminated, Gall led his savage host across the river to join Crazy Horse in overwhelming Custer's five troops.

Gall followed Sitting Bull to Canada in 1877, but three years later withdrew his support and returned to the United States to surrender. As a fighting man, Gall despised the high pretensions of Sitting Bull and dared to denounce his leader as a fraud and a coward even when Sitting Bull was still a power among his people.

Another great program is promised for tonight. The first number will be the Fara Groves Musical text. Each artist is musically talented. Music to please every taste will make up their program with plenty of variety and no wails.

"FULL OF ENTHUSIASM" I am full of cooperative enthusiasm, and why should I not be? I pooled my one-half of crop of tobacco...

Every landowner and tenant should sign up their tobacco, as it is the only way to maintain and stabilize a good profitable price for the crop.

ANOTHER BIG MAN SIGNS UP One of the first acts of A. W. McLean upon expiration of his term as a member of the War Finance Corporation was to sign the five year contract of the Tobacco Growers' Co-operative Association.

Road-Building in County Is Progressing Rapidly

SALE OF POPPIES VERY GRATIFYING

It was gratifying to see a liberal purchase of poppies in Williamston yesterday and today in connection with the drive for hospital funds. The abundant sprinkling of the little red flowers showed that Williamston people appreciated the American Legion, realized the privilege they had in helping alleviate the condition of service men lingering in hospitals and entered heartily into this sensible observance of the memorial occasion.

Every person is indebted to the soldiers and sailors who exposed their lives for their country in the memorable days of 1917-18 and none should lose an opportunity of making known a sense of their appreciation. Particularly is this due those who were disabled in the war and are now special objects of sympathy and concern.

It was eminently appropriate that on the eve of the National Memorial Day when the nation pauses to drop a tear for these gallant men who made the greatest of all sacrifices, practical steps should have been taken to render more comfortable those who, while their lives were not taken, only narrowly escaped and whose sacrifices in many instances are such as will be a wearing and burdensome load for the remainder of their lives.

FARMERS ARE SERVES OF THE MONEY LENDERS The farmers are bankrupt, "tenants at will" to the banks and investment public that lent them money. The farming industry has been on the down grade for many years, in spite of various plans, Federal and State, to put agriculture on a sound basis.

FEDERAL AID TO HIGHWAYS IN NORTH CAROLINA As Federal Aid in the construction of highways since 1916, the government has appropriated \$350,000,000.00. The mileage of roads constructed in each state with this fund in conjunction with other funds is shown by a report of the Bureau of Public Roads of the United States Department of Agriculture dated March 31.

Resident Engineer A. K. Haxstun, of the State Highway Commission and in charge of road building operations adjacent to Williamston is about the busiest man in Martin county these days. Four o'clock in the morning, or four o'clock in the afternoon, it is all the same to Chief Haxstun if there is anything to be attended to, or any special work to be done.

Chief Haxstun in speaking of the work being done in Martin county stated to the writer that with low water and favorable weather conditions that the work on the great Bertie county bridge will be completed in a short while, and the great, grand and glorious celebration to be held in Williamston upon the opening of the bridge should already begin to take form and the programme outlined.

Already there is a new road graded on the Bertie County side to Windsor, the county seat, and projects are being let for several miles of road between Windsor and the Virginia State Line.

Contracts have been let for hard-surfacing of road between Tarboro and the Martin county line, and the grading of the road on to Williamston is being finished around Everetts only seven miles from here, and within a few weeks the graders will reach this immediate vicinity.

Engineer Moon was here the past week with regard to the grading of the road from Williamston to Hamilton, and very soon grading will also start on the Jamesville-Plymouth road.

The Southern Wiltite Company, under the supervision of Engineer Wilson, are now ready to start laying the concrete foundations on a two mile stretch of road out of Williamston towards the Beaufort County line and within a very short while many miles of this road will be ready for use.
