by the Nashville Graphic that a "beau- tofore quoted and by order of the sec tifying campaign" would be put on retary of war, dated January 26,1923 in Nashville this week under the direction of Mr. F. E. McCall, landscape gardener from the division of horticulture.

It is being put on with the help of the school and the homes and pictures of these homes have been taken so that they may be compared with a picture of them in June and a prize will be given to the one showing the greatest improvement

Beautifying any town will enhance its value materially and will make the people happier that inhabit it so why should Williamston not benefit by the aid which the state is willing to render.

Mr. W. H. Gurkin, chairman of the beautifying committee of the Chamber of Commerce is preparing to do some real work in the near future, so let does not, feel so badly that he will

## USE OF LIME AGAIN PÅYS IN FIVE YEAR TEST

EXPERIMENT STATION GIVES OUT RESULTS OBTAINED IN THOROUGH TEST

RALEIGH, Feb. 5.-Excellent re ults have been secured in a test made every one begin to clear off their with ground limestone in a five year premises and make the fellow who crop rotation on the red clay loam soils of the Piedmont Branch station farm near Statesville, reports E. C Blair, extension agronomist for the State college and department of agriculture. Mr. Blair has recently secured the results of a test conducted by w. F. Pate, soil agronomist for agricultural experiment station. Mr. Pate applied two tons of ground limestone per acre early in the spring during the first year of the rotation.

The land was then planted to corn and the limed area produced 43 bushels per acre while the unlimed area produced only 35.5 bushels. This difierence of 7.5 was not much for the hrst year. The second year, the land was in wheat. The limed area proaucea 14.1 bushels while the unlimed produced 11.4, a difference of only . i busnets. Not much effect shown yet, but here is the third year, when

red clover was on the land. The first. crop was turned under and this was the second crop to be cut and used tor hay. 'The limed area produced 3,iva pounds of hay while the unlimed area produced 829 pounds and most or this was weeds. This is a difterence of 2,275 pounds of hay from time applied three years before.

The fourth year the limed area pro luced 1,350 pounds of seed cotton and the unlimed produced 1,302 pounds and

the fifth year, the limed area produced 50.2 bushels of corn while the unlim of the North Carolina Cotton Growers ed area produced only 38.6 bushels This was an increase of 11.6 bushels mentiy restrained from selling any col- as compared to the increase of 7.5 bushels secured the first year the lime was applied.

March 19: 1774, the general assem bly in session at New Bern ena tel law "erecting part of the counties of Halifax and Tyrrell into one coun ty and parish, to be called and known by the name of Martin county and the parish of St. Martin." It was stated that this was done "on account of the great extent of Halifax and Tyrrell, which rendered it exceedingly troublesome and expensive to many of the inhabitants to attend courts, el ections and general matters of the militia." The act was ratified in open assembly and signed by Josiah Mar-

tin, Esq., Governor, James Hassell, speaker of the council, and John Harvey, speaker of the lower house. The county was named for Josial Martin, the last royal governor of

North Carolina, who August 12, 1771, succeeded Gov. Tryon, who had been in May, 1771, appointed governor of New York, Governor Martin \* fied from the "palace" at New Bern in May 1775, and took refuge on a vessel of war at Fort Johnston, on the Cape Fear river. His administration really ended when he fled from New Bern. He stopped at the fort and Col. Jno. Ashe at the nead of a large body of armed men drove him aboard the vessel and then dismantled the fort and carried off the cannon. From the vessel Governor Martin issued a furrious proclamation forbidding th people to elect delegates to a "Con-

gress" at Hillsboro, but this proclamation was publicly burned by the The congress "common hangmen." met, all the 35 counties represented and also the borough towns, each of which had one delegate. There were 184 members and all signed the "test'

oath of patriotism. Governor Martin, before his flight from New Bern had sent his wife and children to New York. He went to Fort Johnston on a vessel by way of Ocracoke inlet. The six kannon in the palace" yard he had spiked, but the natriots took and used them, and they also used the lead which the roof was covered for bullets. His administration came to an end officially July 4

1778 The name of the county of Martin would have been changed by the pa triots but for the fact that general and later Governor Alexander Martin a native of Guilford county, made so brilliant a record and was so greatly beloved. He served as governor from April, 1782, to April 1785, and again from December, 1789, to December 14, 1792. His mauguraation in

Thomas Wiggins and enneth McKenzie, majors. The provincial council in session at New Bern March Srd, 1776, adopted the following res tion; "This council in the warmest terms returns the gentlemen, officers and soldiers from the counties of Martin, and Bertie, under the command of Col. William Williams, of Martin. thanks for their readiness and spirited conduct in marching against the nemies of their country.

In September, 1777, John Lewellen of Martin was convicted at Ed of high treason to the state and Thomas H. Hale wrote Gov. Richard Cas well, asking him to "respite the exeution of this unhappy and deluded man and permit him to apply to the next general assemblf for pardo being his first deviation from rectifud and virtue, and the certainty that disgrace and poverty must remain entailed on his family, consisting almost entirely of the softer sex and chiefly arrived to womanhood." prisoner's wife took this petition, Mr. Mayo accompanying her, with testimonials of her husband's previous good character.

Llewellen was in a Tory conspiracy, formed mostly in Martin and the adjoining counties in June, 1777, to attack and assassinate all the leading patriots on a certain night. Whitmell Hill discovered this conspiracy and said it was "generally delieved someprincipal persons were concerned in his horrible plan." Gen. Caswell was promptly advised and arrests followed. The ring leader was William Brimage, who tried to escape by Ocracoke but was captured and jailed. In 1778 Whitmel Hill was appointed colonel of the Martin militia to succeed Wil-
