When service counts

More speed for the speedy

"WAY for the United States Mail!" Men have suffered, sacrificed and died in order to expedite the country's mail. In fact, the mail has become a symbol not unlike the flag itself; whatever else happens, the mail must go through.

Many people even today scarcely realize the great advance in mail service that has been brought about in the age of gasoline. In the cities, motor trucks whisk the mail from railway to postoffices. In the rural part, even more credit is due to the gasoline engine. And it is in these out-of-the-way places particularly that the Standard Oil Company (New Jersey) has shown its sincerity of purpose by marketing "Standard" Motor Gasoline, making this efficient motor fuel available to all motorists alike.
