Analyzing cost records and farm management systems on 28,000 farms is one of the diverse roles played by the United States department of agriculture the past year. The purpose of this work is to discover the factors that make for an efficient, business-like agriculture, and then to spread the gospel of better farm management among farmers.

During September 430,191 cattle were tuberculin tested under the systematic plan of tuberculosis eradication conducted by various states and the United States department of agriculture. A total of 14,604 reactors were found. The popularity of tuberculin testing is shown by the extent of the waiting list, which at the end of September consisted of 146,487 herds.

# BILLY SUNDAY

— IN —  
**The Charlotte Observer**

SIX WEEKS FOR \$1.00  
CHARLOTTE — NORTH CAROLINA

Every sermon delivered by the world's greatest evangelist during the six weeks' revival campaign he will open in Charlotte, December 30, will be printed in full in the issue following its delivery. Billy Sunday's thrilling phraseology, his striking gestures and platform antics, and the manner in which his sermons are received by the thousands who will jam the specially constructed tabernacle, will be duly recorded by an Observer staff reporter.

The fact that The Observer is a morning paper will enable it to give a more complete report of the services than any other Charlotte newspaper. In addition to the complete Billy Sunday reports, The Observer will carry every piece of news developing in North and South Carolina, the local news handled by a large corps of reporters, and the world news gleaned from a complete Associated Press service. Features, comics, special articles of general interest and an editorial page second to none in the South, make up a paper that is more than desirable.

**SPECIAL RATE OF ONE DOLLAR TO NEW SUBSCRIBERS FOR THE SIX WEEKS IF SENT IN BEFORE DECEMBER 20th**
