Just as this is true of the arm, it is also true of every other part of the budy—the stomach must receive its life force from the brain, as must the liver, the kidneys, the heart, the lungs, and

Nerves comeant through tiny openings in the spine. If the segments of the spine are in normal position and the openings of normal size—them health is natural. If the segments of the spine are out of alignment and the size of the openings reduced, then the nerve is punched and discase in proportior to the degree of the impringement results. Chiropractors are trained to locate these malposithods of the segments of the spine and to correct them—thus insuring health.

TO THE DEMOCRATIC VOTERS OF THE

FIRST CONGRESSIONAL DISTRICT

I shall be a candidate in the Primary on June 7, 1924, for the nomination by the Democratic party as your candidate for Con-

This is the first time I have asked my fellow citizens for office, and I hope that you will give me your hearty support.

For more than 30 years I have been an active worker in every campaign for the success of our party and have always stood for the principles contended for by the Democratic platform.

I am and have at all times been for progress in the State and Nation, for good schools, for good roads, and for strict economy in the administration of all the affairs of Government. I believe the burden of taxes upon our people has grown too great and I therefore favor reduction in taxes and, if elected, will do my best to help bring such to pass.

I favor the League of Nations to make another World War, or any other war, impossible: I am for the bonus for our soldiers and sailors in the late war, and if elected I pledge my efforts to faithfully represent your interests at all times.

E. F. Aydlett
