

NOTICE

At a regular meeting of the Board of Town Commissioners held last night I was instructed to have all Water and Light Bills collected by the 15th, day of May or have the customer cut off from the service.

Of course this has been the rule but we have not strictly enforced it as we should and some customers have gotten very much in arrears.

The Board censured me for my tardiness and in justice to myself any one not having a clean sheet by the 15th, his lights will go out that night. Please govern yourselves by this notice and be on time.

J. L. HASSELL, Mayor.
This 6th day of May, 1924.

Misses Mary Leggett, Mary Clyde Leggett and Helen Taylor and Tom Cox spent yesterday afternoon in Washington.

GOOD FOUR ROOM HOUSE WELL located, water and lights for sale. Cheap and easy terms. See W. C. Manning. 2-267

TRACTOR STANDARD FARM EQUIPMENT?

Ohio famous 100-Bushel Corn Club now on the ground at 4 of the best corn growers of that il-

lustrous farming state. The list has gradually grown over the past eight years, the University of Ohio requiring at least 10 acres measuring up at least 100 bushels of corn to admit the farmer. Research by the National Association of Farm Equipment Manufacturers revealed the fact that over half these farmers were tractor owners and those tractor owners handled about four acres to the non-tractor farmers' one acre, or 125 acres of corn to 27 acres in favor of tractor farming. In other words, the farmer with a regular sized farm could achieve 10 bushels corn production and carry on regular farm operations, because he had a reserve of time and power at his command to do his field work when it should be done and as thoroughly as it should be done.

And when you try your first success You feel that all is well; The bathroom seems a paradise, Your "Missus" thinks it hell. The boy with a rich uncle never has any trouble in getting married. It is too bad that a barber can't tell in advance whether a customer will look well on a woman. But what difference would it make if he could tell? He wouldn't dare do it. Let a barber try telling a customer that she wouldn't look well with bobbed hair and he would quickly learn that his opinion didn't amount to much. She—what is the shape of a kiss? He—I dunno; but give me one, and we'll call it square.—Toronto O. Tribune. We always thought it was elliptic!

OWL-LAFFS

Friends, a rolling stone may gather no moss, but the stone that has gathered no moss had better keep rolling. The crying need of America is more labor. That's a lie, shouted the golfer as he had stepped six inches from the hole. Look in your mirror—there is your enemy. Uncle Jule observes that in a small town, people will forgive almost anything except a secret and a walking stick. Horses like steak medium, well done and rare. Nashville Banner. And too much of it is tough. The grave was dug for Bill Metgeop. And now his body's in it. He took his eyes from off the road. For just a little minute. Lawrence Peel hopes the scandal mongers will keep their tongues off W. J. Bryan and Henry Ford so we will have some presidential timber left. Collins Peel suggests when you're told the steak is as tender as a woman's heart, choose your ace. Economists tell us that it will take ten years to resume a pre-war basis. Beginning when? When there are four balls you take your case, but where there are three balls you take your watch. A back town is a place where any
