WORK PROGRESSING NICELY ON PERRY BUILDING

U. S. GOVERNMENT SPENDS LARGE SUM TO PROTECT PORT

The United States government has spent approximately \$5,000,000 on a mammoth breakwater to protect the harbor of Beaufort, the southern terminus of the Norfolk-Beaufort inland waterway—one of the greatest water transportation projects to which the Federal authorities has committed itself in recent years.

In addition Congress this year is appropriating a million and a half dollars for improvements to the channel, and with the increasing sentiment throughout the country for improved water transportation facilities, larger appropriations will be forthcoming if the people of the states affected are aroused to the importance of demanding adequate funds to push the work with rapidity.

As the southern terminus of the Norfolk-Beaufort waterway which passes along the eastern tier of North Carolina counties, Beaufort and West Beaufort, where extensive developments for an all-the-year health resort are now going forward, are laying claims for the support of the state in developing port and terminal projects along the line outlined in the recent report of the North Carolina Ship and Water Transportation Commission. A land-locked harbor almost directly on the coast, closer and more secure than any other terminal site offered, Beaufort believes that the inland waterway is an important factor in considering feeders for a state

port. Its harbor is capable of permitting the entire Atlantic fleet to ride at anchor and the expense of dredging for channels to piers would be almost negligible.

68TH CONGRESS MAY BE RE-INTRODUCED TO GIVE LIBETAL BILL FOR P. O. BUILDING

Washington, D. C.
May 31, 1924.

My dear Sir:
It is proper for you to know, and it is especially due me that you should know, the status of the bill for the building of a Postoffice in your town. This bill as you know, was introduced in the 67th and reintroduced in the 68th Congress. I think President Harding's position that the country could not well afford to go to building Postoffices so soon after the war, especially before the settlement of the foreign debt was in sight, was approved by the country. For myself, I found no place in my conscience to lodge any objection to it.

At the beginning of the 68th Congress we thought we would have a bill that would not be extravagant, but would possibly spend \$200,000.000 or thereabout. Out of that I had hoped to get a start for a complete appropriation for the Edenton building, which comes first in my district by reason of a site having been purchased, and a start at least on the other four, but about the time that the bill was being formed and gotten into shape, the great misfortune of official corruption became known to the country by the scandal investigations which spread until, to my keen personal regret, they fell upon the Chairman of the Committee on Public Buildings and Grounds of the House, and which went step by step until that unfortunate man was taken entirely from his public service, finally carried to a federal court in Kentucky,

convicted and sentenced to serve in the Federal penitentiary, and from the effect of it is now a helpless paralytic in this city. The Steering Committee of the House no doubt refused to reorganize the Committee, waiting for the result of his trial which came on late and so near adjournment that it was then unnecessary.

NOTICE OF SPECIAL TAX ELECTION ON TUESDAY JULY 1ST, 1924 IN FARM LIFE SCHOOL DISTRICT, MARTIN COUNTY, N. C.

In compliance with the wishes of a petition signed by a necessary number of the qualified voters of Farm Life School District, which was duly approved by the Board of Education of Martin County, and in accordance with the provisions of Article 17 of the New School Code of 1923,

NOTICE is hereby given that an election will be held in the Farm Life School House on Tuesday July 1st 1924 in said Farm Life School District, which is described hereinafter, for the purpose of ascertaining the will of the qualified voters of said District as to whether a majority of such voters favor the levying and collecting, annually, of a Special Tax with which to supplement the Public School funds already annually appropriated to the above Farm Life School District, by the Board of Education, the rate of said Special School Tax not to exceed a maximum of twenty-five cents on the one hundred Dollar valuation of all property, real and personal, within the bounds of the District described as follows, viz:

"Beginning at the old Jamesville and Williamston Road where Haw Branch crosses it, running Eastwardly the Township (Griffins) Line to the Beaufort County Line; thence following the Beaufort and Martin County Line to the Lightwood Stump Pocoson; thence down said Pocoson to the head of Hayes Swamp; thence down said Swamp to W. E. Tice's line; thence along said line to P. Peel's line; thence along said line to N. J. Corey's line; thence along said line to Smithwick Creek; thence down said creek to Griffins and Williams Township line; thence along said line to the beginning."

At said election, those who are in favor of the levy and collection of a Special Tax of not more than twenty-five cents on the \$100.00 valuation as aforesaid, shall vote a ticket on which shall be written or printed the words "For Local Tax", and those who oppose the levy and collection of a Special Tax of not more than twenty-five cents on the \$100.00 valuation as aforesaid, shall vote a ticket on which shall be written or printed the words

sary. So that since about the middle of March we have had no Committee and of course we have no bill.

The 69th Congress may be relied upon, I think, to give a bill, as it will have been more than ten years since any considerable Postoffice building has been built in the country. I had eagerly hoped that I might be the instrument of at least starting the appropriation for the buildings, and I personally share the disappointment of yourself and your community.

Very sincerely yours,
H. S. WARD.

RED SEAL LYE
Ideal for Cleaning Grimy Walls, Steps and Floors

DON'T take chances with stored vegetables and preserves in the cellar "cold" room. Wash walls and floors with Red Seal Lye solution. This powerful disinfectant prevents mold and fermentation and keeps the storage room clean and sanitary.

HOUSEHOLD HINTS
Things Our Readers Want to Know
When plumbing becomes clogged, the quickest and best way of clearing it is to sift some Red Seal Lye into the outlet. This frees the obstructing material almost instantly.

Much unnecessary labor may be saved on wash day by softening the wash water with Red Seal Lye. This serves to loosen the dirt from the clothes without the usual hours of laborious rubbing.

Pots and pans (except those made of aluminum) will let go their dirt and grease more quickly if Red Seal Lye is used as a cleaner.

County, and if you think me worthy of your further trust and confidence I shall be glad to have your support in the Primary on June 7th, 1924.

I prefer no charges against any candidate and have no stones to throw.

J. C. SMITH.
