

AT LAST!—THE ONE PERFECT NEWS STORY

For years young and verdant newspaper men have been instructed, "If a dog bites a man, it's not news—if a man bites a dog—that's news."

Thomas Lynch, nineteen years old, 841 Harvey avenue, Oak Park, bit a dog, according to the Chicago Tribune of June 9. He admitted to the police that he had been drinking moonshine and later fell in with a large mongrel which he tried to bite.

BWARE OF CIVIL SERVICE "SCHOOLS"

Warning Against Coaching Courses for Government Positions

Washington, D. C., June 16—The United States Civil Service Commission and the National Vigilance Committee of the Associated Advertising Clubs of the World today issued a joint warning against misleading advertising of many so-called civil service coaching schools.

- (1) No "school" of this kind has any connection whatever with the Civil Service Commission or with any other branch of the Government. (2) No school can give advance information regarding examination questions. (3) No school can furnish civil service information of value which can not be obtained without cost from the Civil Service Commission at Washington or its representative at the post office or customhouse in any of approximately 3500 cities.

(4) No school can "guarantee" appointment in the classified civil service. Appointment can be secured only through open competitive examination under the civil service rule. No school can cause a competitor to be certified for appointment out of the regular order as determined by his examination rating.

The Civil Service Commission state that large numbers of application for examination received at its offices indicate that many civil service school accept as clients and take money from practically illiterate persons who could not possibly pass any kind of examination.

E. I. McKinley, deputy labor commissioner of Arkansas, it is said in the joint warning, recently has investigated correspondence schools of this class and authorized the state attorney to sue for their return. He said the "fakes" as the postal laws permit. The "schools" that Mr. McKinley condemns are the ones that offer to qualify persons for civil-service position or make a professional man of laborer in a few weeks. Mr. McKinley says that schools which prepare for civil-service examinations rank second to "detective schools" in number.

United States Senator F. M. Simmons is one of the first men of state wide prominence to become identified with the movement to develop Eastern North Carolina as an all-the-year-around health resort and playground. The senator has long recognized the possibilities of such an accomplishment, and has frequently discussed the matter with his friends, but with his active duties in Congress, it was impossible for him to devote the time

Mr. J. H. Rogers returned to Fayetteville Saturday afternoon.

WRIGLEYS After Every Meal

It's the longest-lasting confection you can buy—and it's a help to digestion and a cleanser for the mouth and teeth.

The weather conditions generally are reported as having been rather cool with too much rain. However, the conditions at the present are favorable to farm work and growing crops. Most numerous reports of unfavorable weather came from the weather as hot but showery. Recent days have been very favorable to growing cotton, and with continued hot weather the state's cotton crop will show marked improvement.

Frequent complaints of high taxes and the high price of farm labor were received. Counties in the northern Piedmont and Coastal sections state that they have poor stands in most all crops and that the season is unusually late. The most frequent complaint of farmers is the low price of farm products. A noticeable improvement in the prices of farm products, however, in the past few months should improve the situation in this respect. Crops are reported as fairly clean with few grassy fields. In this respect, the average cleanliness of fields seems to be above the average. A few reports from the southern Coastal Counties state that grass is getting ahead of cultivation but this is not a general complaint. In the majority of the counties the stands of most crops are fairly good. Plants that were replanted are coming up fine. Cotton farmers are expecting their worst trouble to be the boll weevil. Although some state that crop pests are very numerous, there is very little evidence of severe damage from them as yet.

Tobacco has a late growth but the stands are unusually good. It is now coming out rapidly and a good crop expected. Of course, it is late. Cotton is later than for many years. In many sections the stands are irregular and some replanting has been done. Chopping has progressed rapidly.

Leaders from among the ranks of the boys' and girls' clubs of North Carolina will gather at the State College for a week's short course on June 23. These boys and girls will be under the careful supervision of workers from the extension division during their stay.

Watch the label on your paper, if it shows your subscription is in arrears call in to see us.

but due to heavy growth of grass is slower than usual. In the southeastern counties grassiness is an important factor. Increased acreage is recognized.

In many Piedmont counties idle fields are on an increase due to labor shortage and unsatisfactory farm prices. The increase seems to be occurring in almost all parts of the state but least so in the Coastal or cotton belt.

There are conspicuous evidences of increased fertilizer usage, especially so of high quality goods. The condition of livestock is generally good, but some central and western counties report the economic situation at a low ebb. Dairying, hogs and chickens are favored most.

Labor is distinctly scarce and high, especially in the Piedmont areas where idle lands are most conspicuous. Poor and unsatisfactory conditions are reported from all parts of the state. The northeastern counties indicate the most satisfactory conditions.

The corn crop is late in being started. The stands are generally good but the crop almost everywhere is grassy, distressingly so in many sections. Cotton is requiring most of the labor to keep it clean.

Helen in the Gift Shop—buys prizes and gifts. HELEN glanced at her shopping list and remembered that she wanted to get a few little things for the house—some neckties for Tom, a wedding gift for Winifred and prizes for her card party. While Helen went off to the housewares department in the down-stairs store, Louise went to the information desk on the main floor to mail a letter and incidentally to look up the trains for Helen. Helen was having a perfectly glorious time shopping. She marveled at the broad, roomy aisles, and the absence of crowding. She was intensely happy in this great, big beautiful store. There was something new, something to please and fascinate her on every side. The salespeople were pleasant, willing and helpful, and, after all her shopping, she didn't feel a bit tired. In the housewares department she found just the things for Winifred's wedding present—a set of water glasses beautifully hand-decorated, of very thin glass and blue stems. Winifred would be pleased beyond word, she knew, because these were the very latest in table appointments. Louise met her again at the Gift Shop near the Sixth and Grace Streets entrance. In the Gift Shop there was every imaginable sort of thing suitable for gifts and prizes. There were charming costume beads, pretty and inexpensive, from Czech-Slovakia; leather novelties from England; beaded bags from France—an almost endless variety of articles, nearly all of them done by hand. Helen selected a small flower-holder for the ladies' prize and a leather match-box for the men's prize, and her shopping was done. It was five o'clock. The last train home was to leave at five-thirty—but Louise and Helen hadn't half finished their visit. Louise wouldn't listen to Helen's going away like that. She insisted that Helen stay over at her house and return home the next morning. Helen agreed and decided to send a telegram home. This was appreciated by both Helen and Louise to be able to send a telegram directly from the information desk on the main floor. So Helen ended a day of adventures in shopping. Helen is just one of the thousands of women, some of them in your own community, who do their shopping at Miller & Rhoads while in Richmond. Miller & Rhoads RICHMOND, VA.
