

**OLD HICKORY CHIPS**

In many homes the fiver is fuller than the dinner pail.

Wild life isn't really disappearing. It is just moving to the cities.

"Be sure your sins will find you out". So will your creditors.

La Follette says he's glad he ran; but it looked more like a walk to us.

It begins to look as though alimony is the alter ego of matrimony.

The modern girl will stick at nothing—even the lip-stick.

George Bernard Shaw says people drink liquor to make them "stilly and happy." They are always 50 per cent successful.

La Follette found labor leader Compton a leader who didn't lead.

The flapper is a picture no artist can paint because she is already painted.

If Judge Landis be as proficient as picturesque, he's the last word in proficiency as well as baseball.

Are you living up to your last year's resolution as to when you'd do this year's Christmas buying?

Kissing may not be health, but it's a cinch that more are dying to be kissed than from being kissed.

"Good Advice," said Uncle Josh, "mostly don't git near de respectful attention dat's showed mos' any old kind of a hoss race tip."

It is some time since Daugherty took his typewrite in hand to write a letter to Davis. The burnt child dreads the fire.

It's real love case when she believes she knows even his telephone ring.

"What did your boy learn at college?" asked Hi. "All the latest slang, and now I need an interpreter to carry on a conversation with him", sighed Si.

Hi Johnson and Cal. Coolidge both employed silence to help the Republican national ticket.

Mexicans have an intoxicant called "Cocacohoum." We'll bet a fellow can't ask for it when drunk.

America now has half of the world's gold and about 86 per cent of its brass.

A scientist says the human race is 100,000,000 years old. If that be true his case is hopeless—for it is still ignorant of the futility of force.

Cebu voted last week and every hospital in the island was prepared for a victory of landslide proportions.

**NO DIFFERENCE.** Mary—Marriage must have been a great change in your life! —Alice—Not at all. I used to sit up half the night waiting for Alfred to go home, and now I sit up waiting for him to come home!

Coolidge says he doesn't like pie but he doesn't mind distributing it.

A CATCH TO IT. "Dinah," said the mistress, "I hear you are married." —"Yassum, I've got a good man now." —"Does he provide for you all right?" —"Yas, he's a good provider, but I've skinned he going to git cotted at it." It is a good idea to kiss the children good-night, if you don't mind waiting up for them.

Truth is not only stranger than fiction, but also it is a stranger to some people.

**WELL TURNED OUT.** "Did your last employer give you a reference?" "Yes, but it doesn't seem to be any

good." —"What did he say?" —"He said I was one of the best men his firm ever turned out."

**NO WONDER THEY'RE HIGH.** "But isn't that an awfully high price?" —"Why are apples so expensive?" —"Well, Ma'am, I might say—for entomological, meteorological and—ah—sociological reasons. In other words—the Tent-Caterpillar, the Drought and the Eighteenth Amendment."

Brookhart's promise to purge the Republican party would gain more credence if he excommunicated from it.

What we wonder has become of all the mechanical player-pianos in the old-fashioned saloons that used to run a couple of hundred miles on a nickel?

That new tunnel in the Andes of South America will be about 15,000 feet above sea level. It sounds more like an elevated railroad.

Why should any one be surprised at the discovery of finely embroidered fabrics in Nero's ancient bath house? Nero was that kind of a shell.

Al Lloyd says: "Any cook can be a bride but not every bride can be a cook."

**ATLANTIC COAST INVENTOR.** The following patents were listed by the Atlantic Coast Inventors, Inc., 101 N. 7th St., Washington, D. C., who will furnish copies of any of the above patents, including the drawings, for \$1.00 a piece to any of our readers.

Virginia—Marvin Smithley, Lawrenceville; Meter, Norman Underwood, Oakton; Making arsenic compounds, Levi L. Wynn, Graham; Knockdown seat, North Carolina—Charles J. Barnes,

Goldboro; Moving picture machine, Hubert J. Cary, Weldon; Two-color stamp, Charles E. Dickens, Hleasant Garden; Amalgamator and concentrator.

**HIGH SCHOOL GIRLS OF NATION WRITE COOK BOOK**

Chicago, Ill., Nov. 20.—The first book of its kind ever to be published, in that it is made up of material furnished by high school students of foreign economies in all parts of the United States, will soon be off the press, says a statement coming from the National Live Stock and Meat Board today. Under the title, "Meat and How I Cook It," this publication, featuring attractive ways of preparing the less-demanded cuts of meat, will be given free national distribution to schools, colleges and housewives who request it, according to the Board.

The publication is the outgrowth of the National Meat Story Contest held recently under the auspices of the Board. Nearly 12,000 girls competed in the Story Contest, which also required that they submit recipes tested at home or at school. The recipes appearing in the cook book were selected as the best of the thousands submitted and each is accompanied by the name and address of the girl sending it in.

Amusement in the theatre is not limited to the stage alone but has the entire house as a stage. The frightful but innocent murder of chewing gum is an outstanding attraction. The artistic touch of the power puff can't be entirely ignored. The action caused by a finished person is peculiarly expressed when the program is all but devoured and when it isn't eaten, it is torn to bits. The continuous punching of the hair as all but faded away, thanks to the inventor of bobbed hair. All these with an occasional bee-haw in the audience and a good performance on the

go to make an ideal evening's entertainment.

The Red Cross Roll Call is not over as yet; so if you think you are going to skip giving a dollar you had just as well give such an idea up.

**NOTICE OF SALE**

**betrayed**

*Their first conversation betrayed the fact that she was not fastidious.*

At a distance she had appeared unusually neat, immaculate. But upon their first face-to-face meeting he discovered that her teeth were not clean. And he soon lost interest.

Notice today how you, yourself, watch another person's teeth when he or she is talking. If the teeth are not well kept they at once become a liability.

*Listerine Tooth Paste cleans teeth in one step. At last our chemists have discovered a polishing ingredient that really cleans without scratching the enamel—a definite position finally solved.*

A large tube of Listerine Tooth Paste is only 25 cents; at your druggist's.—Lambert Pharmacal Co., St. Louis, U. S. A.
