A woman afraid of a mouse—a mouse of a man—a man of a mouse of a woman.

Note from the Heckville Bulletin: Our distinguished citizen, Colonel Cuzzler, of Civil War veteran, recently celebrated his fiftieth anniversary of his marriage. The colonel tells some interesting stories of the great conflict.

Yes—today morning a fragrant, persistent odor of perfume invaded a certain busy Williamston business office to the distraction of everyone present. Everybody denied the use of perfume on that certain morning, save to the two young women employees of the office, and finally, the source of the fragrance becoming so mysterious, the whole force stopped work and started on a hunt for it. The search ended at the hat of a new looking gentleman caller who was in another part of the office. The hat gave out a fragrance like unto violet and roses drenched in dew.

For Good Concrete SECURITY CEMENT

Concrete Around the Back Door!

Make your place more modern and more livable, and add to the value of your property, by using Concrete around your house. For a few dollars you can have a new walk or driveway, build a new cellar entrance or replace the rotted back porch steps. When you use Concrete, they will never need replacing again. Clothesline posts and flower beds are useful conveniences every housewife appreciates. Your local contractor can make them all for you; and you might even help him and thus further reduce the cost.

There are many such improvements you can make without great expense. Any Security Cement dealer named below will give you full information on how you can make needed improvements quickly.
