"COME OUT OF THE KITCHEN"

"Come out of the kitchen" at the Strand Theater on Thursday night, week under the auspices of the Phi Kappa Theta class of the Memorial Baptist Church. Do not miss it. Not in the history of the town have two affairs given greater pleasure than the last two plays that were staged by Mrs. Biggs and Miss Richardson, and "Come out of the kitchen" will be directed by Mrs. Biggs with the very best cast that the town affords, and promises to be just as good or even better than either "Take my advice" or "The flapper grandmother."

FIVE GALLONS OF PAINT FREE

A large paint concern, in furtherance of an advertising and introductory campaign for its new product, offers to give, free of charge, five gallons of its best house paint, any color, to one property owner at each post office or on each jurisdiction in this county. This concern wants to put on a house in each locality this season, which is the purpose of the remarkable offer. It also wants a real salesman in each county. Persons interested are requested to write the Ken Paint Company, Louisville, Kentucky.

EDUCATION AN ASSET TO SUCCESS

No matter what a man's work, he can do it better if he is well-informed. And the point here is that education while it has a larger bearing than a mere preparation for one's trade or profession, is the very best equipment for any sort of efficiency.

Whatever your peculiar calling, your expertness is more telling if it rests upon a basis of general culture. As a stenographer you will do better work and your chances of advancement are much greater, if you are familiar with history, know your Shakespeare, and are not in doubt as to whether Botticelli is "the name of a cheese or a violin."

As a lawyer, doctor, or preacher, your reputation will very likely rest as much upon your "all-roundness," your wide acquaintance with the inside of great books and the general impression that you are not a narrow-minded specialist as it will upon your technical finish.

Culture means intellectual background.

It means accumulated force behind your stroke.

It means that you are not only capable yourself, but that you know how to absorb and use the capability of wiser persons.

It gives you perspective. It increases your personality. It strengthens your influence. It keeps you from settling down to become a mere cog in the wheel, a little specialized piece of machinery to do a certain task, and makes you a human being, alive, vibrant, radiating.

It makes you somebody, not just any body.

Many a mother has realized too late that she has no hold upon her children because of her lack of knowledge.

They have grown up and gotten away from her.

Many a man has risen in the business world only to be humiliated because he has neglected to acquire that education which alone would qualify him to mingle on terms of equality with well-informed people.

In fact, there is no man or woman who has neglected an education but bitterly regrets it sooner or later.

Useful knowledge are laziness, self-indulgence, weakness, and procrastitation.

Even if you did not get a chance to go to school, or if you failed to improve your opportunity when young, you can still set out upon the royal road to education if you have the will.

And even in the case of those who are college graduates the best part of their education is gotten from their studies in the 10 years after leaving school.

And no living person was ever sorry that he had secured an education.

There never was an age in the history of the world when it was so true as it is now that "knowledge is power." And knowledge is open to every body.

One gallon of Laredo soy beans returned nine bushels of threshed beans on the farm on Henry Barnhardt in Rowan County, reports County Agent W. G. Yeager. This was the most profitable acre on the Barnhardt farm last year.

Farmers of North Carolina continue to buy their fertilizer cooperatively, paying cash for it at the car door. Recently farmers of Lincoln County received a shipment of 60,000 pounds of sulfate of soda, saving \$5 per ton on the shipment, reports County Agent Graham Morrison.

The use of good bulls will show in the milk bucket. One dairyman who has

used good bulls gets 30 gallons of milk per day from 12 cows. A neighbor who has depended on any kind of bull gets but 20 gallons per day from an equal number of cows.

Encouraged by his success with dairy calf club work, County Agent J. W. Hendricks, of Catawba County, is now organizing a baby-beef calf club. Twelve members have already joined.
