Town Convention Meets Tonight---Time to Think

THE TOWN CONVENTION meets at the courthouse tonight at 8 o'clock for the purpose of electing a committee for mayor and members of the board of town commissioners.

The most important government is the nearest us, for this reason every person living in a town should exercise the right of attending the town conventions and help to elect the men who govern our local affairs. The present board of commissioners are made of noise and glare men, and though they have been considered successful in their own faces, it can be said that the town was not better off since they came on the board. The town's bonds had been saved, while they in their charge of about \$20,000 each year, before the present board went into office.

The general running expense of the town is well within the bounds of reason, no large expenditure have been made, and the street-keep program, which is the largest single item of cost, has been taken care of fairly well.

The articles of who govern the town, for many years taxes will be high, and it is of no importance to get good men, who will honestly and wisely conduct the business of the town.

A life we are small, it would not doubt pay us to have a town manager to do all the things that we are unable to do. We would be able to get more for our dollar, by having some one man responsible, who had both the time and ability to give everything due consideration.

The Building of Tomorrow

THIS FRIDAY we need the last debate on the port and terminal question, and while it may be the best oratorical contest its effect will, no doubt, be seen here. When the question was put before the people the port and terminal bill was defeated by a 50.00 or more majority. Out of the entire number of voters it can be said that a large number were cast by voters who knew little about the question. These debates served as a source of information to thousands of high school students, and who know that this information will be of service to them at some time in the future. And while the public decided against every school save one, the work was not lost by assuming for the work of the thousands of participants will go toward the building of tomorrow.

Easter Monday and the Herring

EASTER MONDAY and all the roads leads to Jamesville. It has long been known among both fishermen and those who eat fish that when dogwood blossoms and Easter Sunday comes, the fish will come up Roanoke River.

Certainly we do not attempt to say that the herrings know that the beautiful dogwood is blooming, brightening the hillsides, nor do they know that church choirs are singing the beautiful Easter anthems in memory of the day when the Mary visited the empty tomb. Yet the herring is home. Whether the water is low or high, muddy or clear, or whether the wind is from the east or the west, whether the clouds come from the north or the south, the herrings seem to know it is time to run up Roanoke River and prepare for the preparation of the fish family, that the waters may be replenished with living food for the use of man.

The herring is one of the best and cheapest of foods, Jamesville catches them by the millions in good years. Camp Point Fishery, a few miles below, catches more, and then when the Warren Neck section is reached, the twin fisheries, Kitty Hawk and Shad, belonging to W. R. Hampton, are still larger and make much larger catches.

The Jamesville and Camp Point Fisheries are run by the S. L. Wallace family, who have had them in charge for more than 30 years. They report the fish market better this year than any year in the history of fishing. The shad catch is generally small, but many rock are being caught.

Announcement

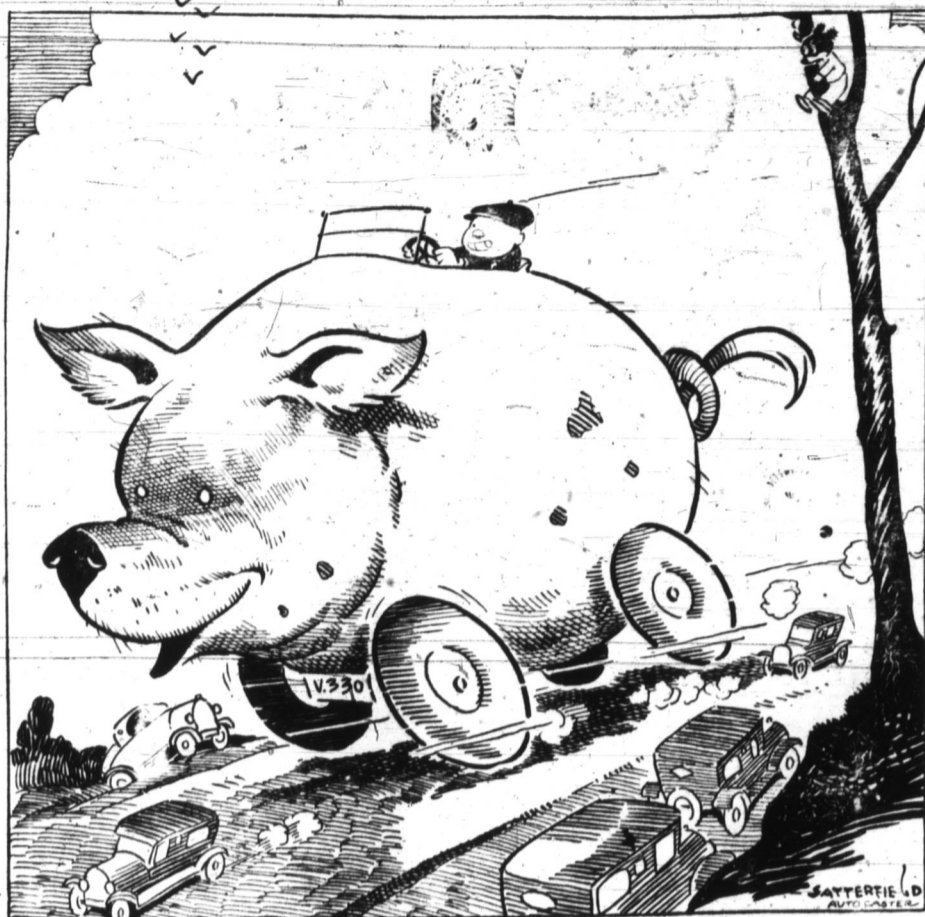

I wish to announce to my friends and the public at large that I have moved my jewelry store from the Leggett Building on Main Street to the building adjoining the Farmers Supply Co., on Washington Street.

Jewelry at the right prices, and repair work of all kind guaranteed.

ECONOMY, MR. COOLIDGE? AIR TRAVEL, 1 CENT PER MILE. SECY. WILBUR WANTS REPORT. THE LAST CHAPTER.

Speaking of economy, Mr. President, what is gained by sending the American army polo players to compete with Great Britain's army players across the ocean? Six army players, with twenty-five ponies and thirteen grooms, settled on the Atlantic transport liner Minnetonka last week. Are those grooms American soldiers? Did they enlist to be used as private servants for gentlemen playing polo? Does it make the army more efficient, in these days of tanks and flying machines, to have officers knocking little white balls along the grass?

Who authorizes the expedition? How do you think it will strike the average farmer? Thirteen grooms for twenty-five ponies will seem a good many to him. He and his hired man take care of ten horses and cows, besides plowing. They don't manure their horse hoofs.

A lady of Spokane demands a divorce because her husband, at breakfast, milked a goat directly into his cup of coffee. He keeps the goat in the house. The lady declares that such "table manners" could not be endured by any person of refinement. "Other times, other manners." Eye would have thought it very clever had Adam done exactly the same thing.

The Judge's Joke

GETTING UP ON YOUR EAR IS EASY--BUT GETTING DOWN GRACEFULLY IS QUITE A TASK.

Up in the air there are no road-beds or rails to be kept up, no friction or bumping, wearing out rolling stock. Before the Fords get through with their airplane building they will carry ten passengers from Detroit to California, or Florida, for one-quarter of the present fare, in one-third of today's running time.

Young men that perhaps envied and admired young Wood; son of General Wood, when he was gambling and winning in Wall Street, and envied and wondered more as they read the usual lies about his tremendous gambling profits in Europe, should not miss the last chapter of the story. It came with young Wood's return to this country, in reply to a reporter's question. "Yes," said Wood, "I made it in speculation; but what a jack-ass I was to go and lose it all!" That's the kind of jackass that gambling usually produces. Take warning against stocks, horse races, cards or get-rich-quick schemes.

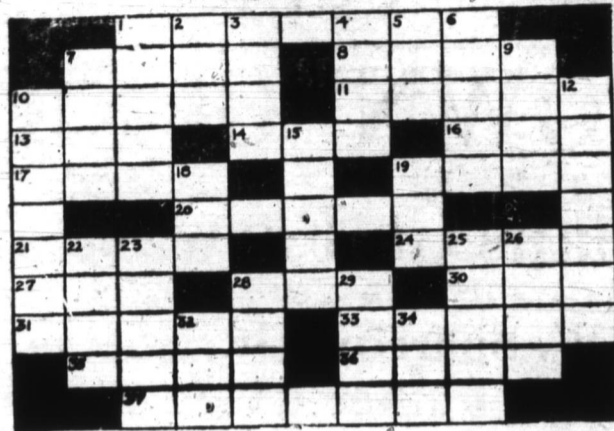

Secretary Wilbur, according to a dispatch to the New York Times, is worried. It seems that...
