

Parents-Teachers Meeting Thursday

The parents-teachers association will meet at the school auditorium, Thursday evening at 8 o'clock. An interesting program has been planned for this meeting, it being the last one for this school year. The parents are urged to be there. The teachers will be there, and it is earnestly hoped by the officers that the parents will be as interested as the teachers of their children and go to this meeting.

G. A. Girls Hiked to River On Monday

(Crowded out of Friday's paper) The G. A. Girls, of the Baptist church, hiked to a pretty spot a short distance down the river on last Monday and had a picnic.

A very delicious lunch was served, and marshmallows were roasted for dessert.

The girls were chaperoned by Mesdames J. D. Biggs, Jr. and W. J. Hodges.

8,000,000 MORE FORD'S FIRST ALL OUR POLO LACKE YOU CAN'T JUDGE

The population of the United States has increased by eight millions during the past five years. There are 118,000,000 of us now. When the ill-informed suggest that population will outgrow the country, don't worry.

The State of Texas alone, under intensive cultivation, could feed easily two thousand million human beings about four hundred millions more than there are on earth now.

As for the ignorant man who says "more population will reduce wages," ask him how it happens that, when there were only four million people in the United States, wages averaged less than forty cents a day, whereas with one hundred millions they average close to four dollars?

Henry Ford has started his first regular flying machine route. The first all metal monoplane of the air route arrived from Dearborn in Chicago last week making the trip in two hours 50 minutes.

Crowds cheered the arrival of the airship, and well they might. Having built that one, you can rely on Henry Ford and his son to build 10,000 more.

Those 10,000 airplanes will wake up capital, including capital invested in railroads. The American airship problem will be solved and the country will have the protection it needs.

Postmaster General New announces that all the foreigners will be encouraged to organize flying machine routes and allowed to carry mail under Government contracts, as railroads carry it.

Joem Uncle John

With so many things to smile about, it's downright sin to frown; here comes the kindest joy of all—its clean-up work in your home.

Get out your pail and scrubbing brush and tighten up your cinch—our battle with the other trash is coming to a cinch.

It might be well to plug your nose in scientific terms—it takes discretion when you tackle woolly-whiskered germs! There's mobby several pop-corn bags and old tomato cans, respond! Toss 'em out of your abode—which is a virtue ban. Might even get a policeman or a resident's function, which shows how any sticky thing can damage civic pride.

Don't take no bumps or hand washes to clean the garbage dump—put on your army gaiters and deposit it in a hump. If you enjoy a payin' job, re-join it today, and fine the city's clean-up squad—you'll get it better pay! Stab any funder in his tracks that registers a frown—put off your coat and get it done!

Sworn to and subscribed before me this 20th day of April, 1925.

on the island of St. Napoleon said that if he had had the good fortune to die in Russia, he would have been called one of the world's greatest generals, and a great success. He thought he was a failure, because he was the prisoner of England. Now everybody knows that he was the world's greatest general and a most extraordinary genius in the accomplishment of his desires.

It is all right for the Maharajah of Jodhpur to bring native soldiers from his State to act as servants while he plays polo. But what does President Coolidge think of sending enlisted men from the United States army to play a lackey's part in England? Is that what the farmers pay taxes for? Is that the work for which American young men are invited to enlist?

Chicago is trying to select among her boys one that can hope to be the most useful citizen of 1950. Such a selection is impossible. The boy with the best brain in Chicago may seem the dullest, least promising today.

Newton, the greatest mathematical mind ever born on earth, was called dull when, as a mere child, he was working out mathematical problems that would have puzzled his teachers.

Gibbon, before he wrote his great History of Rome, was considered a gluttonous, unpromising, semi-military person.

Washington, as a young man, after he had undertaken important tasks, declared himself a failure. Demosthenes, greatest of orators, stuttered and stammered as a youth.

MAKE NO MISTAKE

Getting on the map in a big way is the rightful ambition of every town, but getting there is a job not finished in a day, week, month, or year. It is achieved only by the consistent effort of a town's citizens. In proportion to such collective effort does the town establish for itself a reputation of progressiveness. Its stores are better stores; its civic life is more entertaining and happier.

Make no mistake that it is someone else's job to accomplish those things right here in Williamston. It is your job, as it is every loyal citizen's job, day in and day out, in every thought and act. Read this message now—then resolve to add your mite to the program which will make Williamston a bigger and better town. If we all do this Williamston will grow; jobs will be more plentiful; wages will be higher; we will all be more prosperous; we will have better homes, and we will be happier.

Boost Williamston at every opportunity. Call attention to the good things in Williamston. Beat down subtle propaganda which in anyway would hold up to ridicule or belittle our town. Even amongst our own townfolks we should not let the habit grow of failing to appreciate the present development and growth of our town. If you live in Williamston and make your living in Williamston, then Williamston is entitled to your whole-hearted support.

Trade in Williamston. The quickest way to a bigger and better Williamston is through the growth and development of its commercial organizations. To be able to offer you bigger stocks of merchandise, merchants must have your trade. They can not hire more help nor can they put more money into circulation with new improvements and new buildings if their stores are to be used only as emergency shops. Think this over.
