IN MEMORIAM

M. W. A. In memory of our neighbor, Mr. W. Wallace Whitehurst.

On the twenty-eighth day of April, As the sun was setting low,
The death angels took Wallace away
Up to the golden palace we know.

Our hearts were all saddened;
But nothing like his poor wife.
Oh, how hard it is to live without
Wallace,
Through this sad and lonesome life.

By what better sign or token
Can one be known in life,
Than one of simple neighbor
In this world of pain and strife.

'Tis a privilege all are given
Just to help our fellow men
In time of grief and trouble,
For duty calls us then.

'Tis a blessing sent from heaven,
And if we heed the call,
'Twill mean our own salvation
And the betterment for all.

And oh, it is so easy to ever
Find sweet tasks to do,
Helping those around us,
Till our work on earth is through.

So that when we reach the kingdom
From whence all blessings flow,
We'll leave a wealth of gratitude
In the loving hearts below.

Written by the widow's sister,
Mrs. LOYD COWEN.

PAINS ALL OVER

Lady Says She Took Cardui and Never Saw Such Improvement—Was So Weak Couldn't Stand.

Weatherby, Miss.—Mrs. James M. Hall, of this place, writes that she was "getting weaker all the time" when Cardui, the woman's tonic, was first brought to her attention. After she had taken Cardui a while, she writes that she "never did see such an improvement."

"I suffered all the time and had pains all over," says Mrs. Hall. "My skin was cold and flabby. I did not have any color. I had always been a very active woman—used to outdoor exercise, walking and going where I pleased, and to get down, not able to get myself a drink, was indeed a hardship."

"Nothing seemed to help me, till I began on Cardui. The first bottle seemed to strengthen me, and I sent for five more. By the time I had taken these, I was on my feet, going around, doing my work, gained in health and strength."

"I took two more bottles, and I am well and strong. Can work my garden. I haven't had any more sickness."

The Importance of Solubility in Fertilizer

You pay three times as much for acid phosphate as you do for raw rock phosphate. Why? Because it goes into solution in the soil more freely. For the same reason

Facts About the Tobacco Growers Cooperative Association

Number 2—SALARIES

The following extracts from the report of the investigating committee of State officials from Virginia, North and South Carolina shows that the opponents of cooperative marketing have been talking "wildly" about salaries:

"We find that the general manager has twice voluntarily reduced his own salary, and that the salary listed for him in the budget for 1925-26 is but two-thirds that provided for in the contract under which he accepted employment with the association in 1922. All others of more highly paid employees have taken reductions in salaries about commensurate with that of the general manager. Smaller reductions have been made in the salaries of other employees.

"The members of the association must realize that their association is conducting a big business amounting to from \$25,000,000 to \$35,000,000 annually, and that it takes a high type of man to run the various departments of such a big business. It appears that the present salaries of the highest paid employees of the Tobacco Growers Association are not in excess of salaries being paid officers in similar positions with other big tobacco companies or other big cooperatives, and that this is a necessary expense attached to the marketing of tobacco under any system of marketing."

The highest salary paid by the growers' organization is \$20,000 a year.

Compare this with the \$75,000 salary of one of the "head men" in America of the Imperial Tobacco Company.
