DREADFUL PAINS

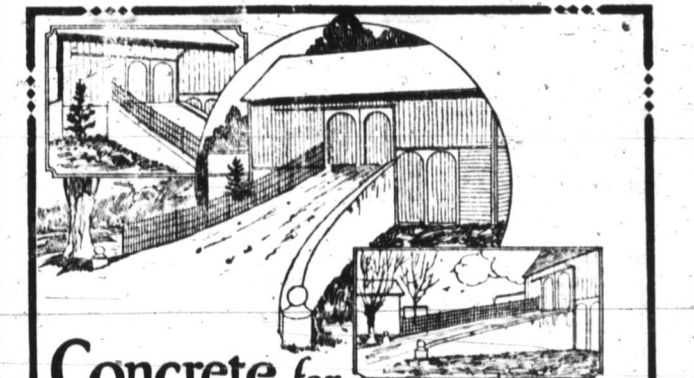

Georgina Lady, Who Had Lost Too Much Weight, Was Advised to Take Cardui and is Now Well.

Columbus, Ga.—Mrs. George S. Hunter, of this city, writes:
"After I married, thirteen months ago, I suffered with dreadful pains in my sides during... My side hurt so bad it nearly killed me. I had to go to bed and stay sometimes two weeks at a time. I could not work and I just dragged around the house.
"I got very thin—I went from 125 pounds down to less than 100. My mother had long been a user of Cardui and she knew what a good medicine it was for this trouble, so she told me to get some and take it. I sent to the store after it and before I had taken the first bottle I began to improve.
"My side hurt less and I began to improve in health.... The Cardui acted as a fine tonic and I do not feel like the same person. I am so much better. I am well now. I have gained ten pounds and am still gaining. My sides do not trouble me at all.
"I wish every suffering woman knew about Cardui."

the undersigned trustee will on Thursday, the 4th day of June, 1925, at 12 o'clock m., in front of the courthouse door in the town of Williamston, North Carolina, offer for sale to the highest bidder for cash at public auction the following described real estate, to wit:
Being one lot situate in the town of Farmele, N. C.
Beginning at an iron stake in Railroad Street, Roebuck's corner, thence southwardly with Roebuck's line 150 feet to an iron stake in said Roebuck's line, and J. L. Williams-corner, thence southwardly with Roebuck's line 150 feet to an iron stake in said Roebuck's line and J. L. Williams corner, thence northwardly with Roebuck's line 150

feet to a stake in Railroad Street, Roebuck's corner, thence eastwardly with Railroad Street 77 feet to the beginning.
Known as the house and lot conveyed to J. L. Whitehurst by J. T. Stokes, later conveyed by Whitehurst to L. D. Roebuck. Being the identical property conveyed in a deed from L. D. Roebuck and wife to said C. V. Carson and Lula W. Carson, dated on the 25th day of November, 1920. And this deed of trust is created for the purpose of securing the payment of a part of the purchase price mentioned as consideration in said deed.
This the 4th day of May, 1925.
T. JONES TAYLOR,
Trustee.

Concrete for Permanent Farm Construction

You know how quickly most things wear out - how often you must spend time and money to repair or replace them. Not so with Concrete Farm Improvements. First cost is last cost, when you build with Concrete. Concrete never wears out; never needs expensive repairs; never burns, rots, rusts or decays. Concrete Improvements add a dollars and cents value to farm property far in excess of their small cost.
Concrete is the farmer's easiest-to-work and least expensive construction material. The farmer can use Concrete to better advantage than anyone else, and for very little cash outlay can put in needed improvements that will save time and money, make his work easier, and make his place more profitable and more valuable. Put in Concrete Improvements this year. Ask any Security Cement dealer how you can do it yourself; or write direct to the manufacturer for helpful information.

Facts About the Tobacco Growers Cooperative Association

Number 3—EXPENSES

Opponents of cooperative marketing have claimed wild extravagance on the part of the management of the Tobacco Association. The directors of extension, chiefs of marketing bureaus, commissioners of agriculture and editors of farm journals from the Carolinas and Virginia, in reporting on the Tobacco Growers Cooperative Association, state:

"As stated above, there has undoubtedly been considerable extravagance in getting such a big organization under way, but the committee has gone over the expenses of operation very carefully and finds that for 1922 the total cost of all salaries, labor and traveling expenses amounted to approximately \$1.20 per hundred pounds, while in 1923 the total cost of salaries, labor and traveling expenses amounted to 97 cents per hundred pounds, showing that these items were materially reduced as time went on. Further reductions were put into operation during 1924, and the budget for the coming year shows still further reductions.

"The investigations of the committee have shown that, to date, payments on warehouses have been made promptly by the association, and at the present time more than half of the purchase price of these warehouses has been paid. The warehouses will be owned entirely by members of the association at the end of the present five-year contract."

97,000 FARMERS FIGHTING FOR THE FUTURE

Southern Land Plaster
is much more soluble than other brands on account of the gypsum used as raw material. Arhydrite, an allied mineral, very much less soluble than gypsum, is often ground for land plaster, but every soil chemist and every practical farmer knows
The Importance of Solubility in Fertilizer
You pay three times as much for acid phosphate as you do for raw rock phosphate. Why? Because it goes into solution in the soil more freely. For the same reason
BUY SOUTHERN LAND PLASTER
The superior results secured from Southern Land Plaster, tested repeatedly side by side with other brands, shows the importance of solubility.
