PALE, NERVOUS

West Virginia Lady Says That She Was in a Serious Condition, But Is Stronger After Taking Cardui.

Huntington, W. Va.—"I was in a very weak and run-down condition—in fact, was in a serious condition," says Mrs. Fannie C. Blom, of 1944 Madison Avenue, this city. "In my left side the pain was very severe. It would start in my back and sides. Part of the time I was in bed and when up I didn't feel like doing anything or going anywhere."

"Life wasn't any pleasure. I was very pale. I was nervous and thin, and so tired all the time."

"My druggist told me that Cardui was a good tonic for women and I bought a couple of bottles. I took two bottles, then I noticed an improvement. I kept on and found it was helping me. I have taken nine bottles. I'm stronger now than I have been in a long time."

Cardui is made from mild-acting medicinal herbs with a gentle, tonic, strengthening effect upon certain female organs and upon the system in general.

What it Means to You!

In three years of cooperative marketing in Virginia, North and South Carolina the average price of tobacco, exclusive of war prices, has been twelve cents higher than the average for twenty-four years prior to the organization of the Tobacco Growers Cooperative Association.

The opponents of cooperative marketing will say that the average price of other farm products has shown an increase in the past three years also. That is true.

They will not tell you, however, that the PURCHASING POWER of the tobacco increase has, during these three years, been greater than the purchasing power of any other farm dollar. Why will they not tell you this also?

When the opposition propagandist tells you cooperative marketing of tobacco won't do, ask him to suggest a substitute for it. If he's sincere, he ought to be able to offer a better plan. But if it isn't going to be cooperative marketing, orderly marketing,
