Begin County Audit

The Frederick B. Hill Co. began an audit of the county books Monday. Will it pay? is a question that can not be answered this early in the game.

That it will cost many hundreds of dollars goes without saying, and will perhaps take many months. With men getting \$25 per day, it soon runs into money.

It seems impossible in these latter days to tell anything about public af-

airs, according to the opinion of some yet with all the improved methods we are scarcely more able to locate our selves than under the old system.

In our own county a complete check on all tax accounts has been made every year, and a full settlement made.

There is scarcely a probability that any irregularities will be found in any of the county accounts.

The New Ford

The new model Ford is now on our streets. The Williamston Motor Co. received their first one Wednesday.

The car presents considerable more conveniences than the old type, and some more style. There is a longer body, higher hood, change of gas tank, and numerous other things.

Yet the Ford voice is the same.

Perhaps the car is more substantial and better than the old model. While the price remains the same, the cost to produce the car must be considerably more than the old type.

It seems that no matter who makes automobiles, Ford always keeps ahead, producing more than all the other manufacturers combined.

Billboards on the Streets

Why does Williamston permit billboards to take up one-third of the sidewalks? Not only do the numerous signs and billboards obstruct and render travel unsafe and troublesome, but it makes the town very unsightly to have a board spread half across a sidewalk, advertising some brand of ice cream or some kind of dinner, requiring everybody to have to walk around. But show pictures; in fact,

just anything seems to be allowed on the sidewalks.

It will improve the looks of the town to keep the sidewalks cleaned up. It will not hurt anybody very much, either.

One good way to get along with the yellow races is to treat them white. Prohibition enforcement in the big cities would be easier if the traffic director can persuade all bootleggers to obey his signs.

RED LETTER DAYS

By A. B. CHAPIN

The Loaf of Bread

In looking over an old Red Cross Magazine the other day we found the following:

Behind a loaf of bread is an army of workers. First, there is the wheat grower. A big, clever man, with a trained mind. Then, there is the man who invented the wonderful machines that plowed and sowed and reaped and gathered the wheat for this loaf of bread.

Next comes the mill owner, whose mill ground and packed the flour. He manages his great mill and his workers by the strength of his trained mind.

Then, there is the manager in the bakery where this loaf was baked. Just as there are bakers and dish-washers, and packers. Just as there are delivery men.

Where in this line would your boy fit?

You see, he is worth just about \$3 a day from his feet to his ears. From his ears to the top of his head he is worth as much as a gold mine. That is, if he is trained.

Each year in school adds thousands of dollars to the earning power of your son. Put him in school. Take

him away from the three dollar and a half job. Put him in school and keep him there.

Brains pay! It is the trained mind that counts.

It is the trained hand that wins. Keep your boy in school.

BUY CONCORD YARNS—DIRECT
 from manufacturer at a big saving. Spun from long combed wool. Write for free samples of many beautiful shades and heather mixtures. 50c per 4 oz. skein. \$2.00 per lb. Postage paid on all orders. Also pure wool blankets. Concord Worsted Mills, W. Concord, N. H. s15 4tw

BUILD NOW!

As a matter of fact, there is no inopportune time for building. The quicker you get into the new home of your own—the quicker it will be "all yours."

Many experienced builders prefer fall's lively building days. There is a crispness in the air which makes for rapid and good construction.

Certainly materials of all kind are cheaper in the fall of each year. Our price scales have not been lower in many moons. We are also headquarters in Williamston for building materials and supplies of all kinds.

No matter what construction work you plan, whether large or small, we want to serve you. See our FREE plan books.

Firestone

will ALWAYS give
Most Miles per Dollar

No matter where crude rubber prices may go—Firestone advantages in securing raw material, in manufacturing and distribution are always active to make good the pledge of Most Miles per Dollar.

Racing drivers—hill-climbing and endurance record holders—taxicab, motor truck and bus operators—and hundreds of thousands of car owners—are daily emphasizing the unheard-of mileage and service delivered by Firestone Gum-Dipped Cords.

Gum-Dipping is one of the biggest factors in tire performance and long mileage, making Firestone Gum-Dipped

Cords the most economical tires ever offered motorists.

The cord from the fabric mills is first delivered to a separate plant where it is treated in a solution of gum, which insulates every fiber of every cord. This protects against internal friction and heat, giving the sidewalls greater flexibility and additional strength.

Prove Firestone's many superiorities for yourself. If you have never had the safety, comfort and economy of these serviceable, long-mileage tires—go to the nearest Firestone Dealer—for Firestone only builds Gum-Dipped Cords.

**"The Advance Will Not be Cut---
 The Grade Will Not be Changed!"**

THIS IS GENERAL MANAGER RICHARD R. PATTERSON'S PLEDGE TO THE
 MEMBERS OF THE TOBACCO GROWERS COOPERATIVE ASSOCIATION

Last week Mr. Patterson, with the bankers' valuation experts, made a survey of the markets in eastern North Carolina, and from them he received assurance that the Federal Intermediate Credit Banks will continue its support of the association to hold the price of tobacco up.

Growers who will receive full value this season have pooled their tobacco. Conditions responsible for low prices on auction floors are bound to adjust later. The tobacco which is marketed in an orderly way will be the tobacco which will show a profit when this adjustment comes.

WHAT IS THE ASSOCIATION GOING TO DO?

READ MR. PATTERSON'S REPLY TO THIS QUESTION:

"The association is going to do just what it has done since organization: Provide for the grower a service corporation which will enable him to market his tobacco in an orderly way. Unless and until the grower and the business man avail themselves of this service, no power beneath the blue canopy of heaven can do anything about the low prices the growers are now receiving."

THE TOBACCO GROWERS COOPERATIVE ASSOCIATION
