## Economy Another Great Need of the Day

Economy is one of the needs of the day. It makes not so much difference how much we get if we do not use economy in spending it. A dollar spent to make lands, roads, homes, churches, or schools better is an investment that will reflect itself in a better country and a better people in the coming years, such expenditures may be classed as economy. On the other hand, the dollar that is spent for some thing that wears out, rusts out, or burns may be called wastefulness.

By economy we do not mean stinginess, which is never economy.

A revival of the general business conditions of the country by theeshr conditions of the country is predicted by the largest banking institution in the United States, which says, "The trend of business for the past few months has been very satisfactory, justifying the prediction that the volume of fall trade will be the largest in the history of the country."

The railway traffic has been better than for the summer months of any previous years. Building activities, it is said, are good.

The year promises to be the largest automobile year in the history of the business. They cite the fact that we will export about 200,000 more cars than for last year, which in itself increases our trade balance.

The cotton mill business is said to be reviving rapidly. Many mills have already sold their output for months ahead.

The silk and rayon industries are enjoying a season of great prosperity.

The figures and forecasts tend to make the people feel good. Yet it

## Next Week National Fire Prevention Week

Seldom does the editorial page "scoop" the news columns. This is an exception. A tremendous disaster occurred today. Property value at \$1,466,744.44 was wiped out and 41 persons lost their lives by fire. The destruction proceeded continuously through 24 hours; every hour \$61,115.60—every minute \$1,018.59—every second \$16.97 was wiped out!

This is another way of stating what the National Board of Fire Underwriters—the highest authority on the subject—tell us, namely, that our national annual fire loss is \$325,372,782.

What this means may be comprehended from a few comparisons. Our annual production of gold and silver is \$103,119,741—less than one-fifth of our annual fire loss. As a people we produced wealth of \$1,900,287,000 in

preventable, the results of one form or another of carelessness. Carelessness certainly is to be denounced. But

it is a delusion to think that the time necessary to forestall the result of carelessness will ever come when it will not be carelessness.

## DREADFUL PAINS

Georgia Lady, Who Had Lost Too Much Weight, Was Advised to Take Cardui and Is Now Well.

Columbus, Ga.—Mrs. George S. Hunter, of this city, writes:

"After I married, thirteen months ago, I suffered with dreadful pains in my sides during ... My side hurt so bad it nearly killed me. I had to go to bed and stay sometimes two weeks at a time. I could not work and I just dragged around the house.

"I got very thin—I went from 126 pounds down to less than 100. My mother had long been a user of Cardui and she knew what a good medicine it was for this trouble, so she told me to get some and take it. I sent to the store after it and before I had taken the first bottle I began to improve.

"My side hurt less and I began to improve in health. ... The Cardui acted as a fine tonic and I do not feel like the same person. I am so much better. I am well now. I have gained ten pounds and am still gaining. My sides do not trouble me at all.

"I wish every suffering woman knew about Cardui."

# To Our FRIENDS and CUSTOMERS

We know that you have heard that our Mr. Jule J. James is in bed for a few days, but will be out by Monday and at his place of business. We are glad to say that since his sickness the interests of our customers have been keenly looked after—every one going home praising Rice and James for the glorious sales they are making, and hurrying to come again.

Many farmers who have sold on larger markets and who have sold with us are loud in praise of our sales, saying that we have decidedly the best market in the east, and the traveling men also say we have the strongest market in the east.

And Rice and James house is full every day. There is a reason—We have our good customers to answer.

All good grades are much higher this week, so come on with a load of good tobacco next week and let us sell it for you. Old Jule will be at his place of business Monday to welcome you again.

We lead in pounds and prices—We know tobacco from the seed to the plug—We don't jump back on your tobacco as do the big markets. We did not come from the crawfish family.

We are not afraid to buy, that's why we lead. Come to see us if you have not been; and if you have been you will surely come again.
