WHAT CHEAP ELECTRICITY WOULD MEAN

Will the sunshine of super oppor tunity blaze over Eastern Carolina in the near future? With the scientific discovery of the forces of electricity came one of the most valuable discoveries of all the ages.

It was more than a century ago that Benjamin Franklin begun to get in touch with that great force which had been in reach of every age, though not seen nor touched. The wasting waters have played their games from mountain sides to angry waves and back again through the spray until ward along the Allegheny Ranges, unin the central and western part of it. The Piedmont section begun to develop and today no more prosperous territory can be found anywhere than in our own State, which is in reach of cheap electric power.

Cheap power has drawn all of our manufacturing plants to those centers, leaving Eastern Carolina with no in dustry except tilling the soil. Now with new inventions it seems possible Indications are now that both the Virginia Railway & Power Co., which has much surplus power at its Roanoke Rapids plant, and the Caro lina Light & Power Co., which utilizes the power from the Cape Fear and

For natural advantages, few coun tries on earth surpass Eastern Caro world, being within 24 hours of 35, 000,000 people. When we tie our nataral advantages up with the epporunities that knock at our doors, ther this section will take its place as one of the important sections of the entire

duce electricity is evidently over in lies in the way which is that it might take too much tribute from the peo when a monopoly attempts to crush the rights and interests of the people enfairly for its own selfish end, then it becomes a nuisance and a detriment to the service it pretends to fos-
