COLE BLEASE BREAKS LOOSE AGAIN

Cole Blease has broken out again. This time in the United States Senate, where men generally at least play the roles of gentlemen. But alas, poor Cole don't know the rules that make gentlemen. He belongs to the type of uncertainties liable to do the fool thing any time.

When the country thinks of Wade Hampton and Ben Tillman, then look at Cole Blease, there is nothing but sadness for South Carolina at the decrepitude and decay of its mentality and morality as expressed by one of its representatives in the United States Senate.

Imagine Cole Blease vilifying Woodrow Wilson and challenging his purpose for good in his efforts for the League of Nations. Few people could breed a thought so low when they read the life and work of Woodrow Wilson. Blease is equally as radical in his charge against the foreign diplomats and representatives of foreign nations against the use of liquor by them.

It seems that our government permits all foreign representatives, who are in Washington solely for the purpose of representing their countries in their relations with our country, to observe the laws of their respective nations within the confines of their own houses, which permits them to have liquor if they desire. Senator Blease is trying to make a big thing out of that, perhaps not to take their liquor away from them so much as it is to get more for himself.

WHY DOESN'T THE AVERAGE MAN READ EDITORIALS?

The newspapermen wonder why the public seldom read editorials. As many as two opinions may be advanced in answer to the question. The subscriber would doubtless say because the editorial column is not worth reading and will not throw away the time to read them. The newspaper man, on the other hand, would say that the reader is too often interested in nothing but the sensation, the gossip, the scandal, the news that thrills, and never regards the editorial as the essence of the condition of things as they exist and the forecaster of the opportunities for things that should and may exist.

BEGINNINGS

How beautiful beginnings are! I watch for the tiny crocus flowers of early spring. I go out into the woods and look for their tiny heads poking their exquisite beauty into an incoming summer time. They make me think of the roses that the flower girls scatter before the bride on her way to the altar.

The beginnings of a city, of a building, of a business, of a book, of a work of art. How fascinating each step. Whenever I pass the great Woolworth building in New York City I think of that country lad who started the five and ten cent store idea—with just a single store in a country town. And I am reminded that that first store was a failure! Now I think of the millions upon millions of dollars earned each year by that great organization—started by an idea that failed at first.

I like to read of the beginnings of a man or woman. I think of Marshall Field, who used to stay late at night to work at his stock when but a boy in the Potter Palmer store in Chicago. And then I think of the greatest retail store in the world that he left as his monument.

The most-contagious thing in this world is an idea! One of the surest ways you have to be happy is to start something. Or to be the means of starting some one else to start something.

PECAN GROWING IS PROFITABLE interesting, helps to diversify, easy to learn, trees long lived, has unlimited markets. For particulars and prices, write J. B. Wight, Cairo, Ga.

New Way to End Dangerous Cough

The most stubborn cough is relieved with the first dose, and is very often broken up entirely in 24 hours by a new method based on the famous Dr. King's New Discovery for Coughs. Here is the method: You simply take one teaspoonful and hold it in your throat for 15 or 20 seconds before swallowing it. The prescription has a double action. It not only soothes and heals soreness and irritation, but also loosens and removes the phlegm and congestion which are the direct cause of the coughing. So with the cause removed, the severest cough usually disappears quickly.

ATE TOO FAST

South Carolinian Took Black-Draught For indigestion, and Says He Could Not Eat Anything.

Ballentine, S. C.—Mr. W. B. Bousnight, of this place, gave the following account of his use of Thedford's Black-Draught. "Just after I married I had indigestion. Working out, I got in the habit of eating fast, for which I soon paid by having a tight, bloated feeling after meals. This made me very uncomfortable. I would feel stupid and drowsy, didn't feel like working. I was told it was indigestion. Some one recommended Black-Draught and I took it after meals. I soon could eat anything any time. I use it for colds and biliousness and it will knock out a cold and carry away the bile better and quicker than any liver medicine I have ever found. Eating too fast, too much, or faulty chewing of your food, often causes discomfort after meals. A pinch of Black-Draught, washed down with a swallow of water, will help to bring prompt relief. Bloating, constipation, eructations, bad breath and other common symptoms of indigestion have disappeared after Black-Draught has been taken for several days. NC-184

No Demonstration can reveal all of BUICK Excellence

ANY time you drive a Buick you will wonder how such a remarkable car can be sold at such a moderate price. In just a few minutes you will realize that you are starting, stopping, parking, driving with much greater ease and security. And that you are surrounded by quality and luxury which rank with the very finest. But demonstration will tell only part of the Buick story, and you should know all of it. A demonstration cannot show you the enduring stamina of body and chassis that belongs to Buick. Years are necessary for that. It can only suggest the powerful ability of Buick's 75 horsepower Valve-in-Head engine, built for hills. It cannot tell you how thoroughly the Buick "Sealed Chassis" and the Buick "Triple Sealed" engine will protect Buick performance on dusty, gritty roads. And it cannot even hint of the mental ease you will enjoy, with Buick Authorized Service "just around the corner," everywhere in America.
