Quick Way to End Dangerous Cough
 Why let a dangerous cough hang on when you can, through a simple treatment, get speedy relief and often break it up completely in 24 hours?
 This treatment is based on the famous Dr. King's New Discovery for Coughs. You take just one teaspoonful and hold it in your throat for 15 or 20 seconds before swallowing it. It has a double action. It not only soothes and heals irritation, but also removes the phlegm and congestion which are the real cause of the coughing. So the worst cough quickly disappears.
 Dr. King's New Discovery is for coughs, chest colds, bronchitis, spasmodic croup, etc. Fine for children, too - no harmful drugs. Very economical, as the dose is only one teaspoonful. At all good druggists. Ask for
