CAUSE FOR ALARM

Scientists say mental defectiveness is growing rapidly, and predict that in 50 years there will be more unit than in people in the United States.

It will be a hard thing to regulate the nature of the antenna. No age has discovered a successful rule to regulate the birth of people, distinguishing between classes, and North Carolina nor the United States will not be able to do it now, and it is doubtful whether that is the true cause of the trouble.

We will have to admit that we are living in a "proxy" age, a time when everything is handed us already hashed. Our music now comes to us on a wheel, and we don't have to do any thing but scratch it with a needle and pay Edison for the record.

We are casing in the same way everything is sent us already mixed and suited. We don't have anything to do.

Again, all that we see is sent us on reels and unwound before us in amazing fashion.

Another thing we do is to use the breathing power that God created in us in sucking cigarettes, a poison to the nervous system.

We all set down and let machines do the work.

It may be after all that we are not living in the way that we were intended to live.

It requires work to succeed. No man can play ball by looking at the game. He must harden his muscles and quicken his mind by actual personal contact. No man can weld iron by looking at the other fellow hit the anvil. He must swing the hammer himself.

No woman can play the piano or draw the bow across the violin until after long and tedious practice.

No man can plow until he practices.

If the body of every man is built up upon active work it will be strong; if it is built by looking on a machine it will be weak.

If the mind engages in no thought except the sayings and doing of others it will always be weak.

We are getting things in this age without work of thinking, and it is under these conditions that we are so rapidly growing unfit. We have neither minds nor bodies capable of meeting and overcoming the tides that always flow against the stream of life.

We must think for ourselves, if we would have accurate and capable minds, and we must do for ourselves if we would develop bodies worthy and strong enough to reproduce its kind.

EXECUTOR'S NOTICE

Having qualified as executor of the estate of K. E. Roberson, deceased, late of Martin County, North Carolina, this is to notify all persons having claims against the estate of the said deceased, to exhibit them to the undersigned at Williamston, North Carolina on or before the 26th day of January, 1926, or this notice will be pleaded in bar of their recovery.

All persons indebted to said estate will please make immediate payment this the 26th day of January, 1926.

T. F. HARRISON, Executor of K. E. Roberson.

NOTICE OF SALE

In the superior court, in the case of M. Smith vs. J. Lass Wynn, et al by virtue of an execution directed to the undersigned from the superior court of Martin County in the above-entitled cause, I will, on Monday, the 22nd day of March, 1926, at 12 o'clock, noon, at the courthouse door of said county sell to the highest bidder for cash, to satisfy said execution all the right, title, and interest which the defendants have in the following described property, to wit:

HOG PRICES IN 1925, according to a market analysis by the Sears-Roebuck Agricultural Foundation, have been the highest since 1920 and the number of hogs slaughtered nearly 20 per cent less than in 1924 and 1925, when production was at a record level. With prices approximately 50 per cent higher this year than last year, hog producers have had an especially profitable season. The range of prices has run from \$10 to almost \$14.50 per hundred pounds, the peaks being reached in March, July and September.

The ratio between prices of hogs and corn prices turned favorably for the feeder last spring and is now the best that it has been since 1922. Last spring's pig crop in the corn belt, which is now coming on the market, was estimated to be 10.6 per cent less than the pig crop of the spring of 1924. This indicates that rather high prices are likely to be maintained during most of the 1926 season, unless a very large crop of hogs is produced and pushed rapidly into the markets. Excepting the months of January and February, receipts at the eleven leading markets of the country have gone below the 475,000 level and from time to time have been below the 500,000 mark.

dated March 5, 1925, and recorded in the office of the register of deeds of Washington County, North Carolina, in book 85, page 245, to which reference is hereby made, default having been made in the payment of the indebtedness thereby secured as hereinafter provided, the undersigned trustee will offer for sale, to the highest bidder for cash, at the courthouse door in Plymouth, at 12 o'clock noon, on the 17th day of February, 1926, all of that certain property described in the said instrument as follows:

Being lots numbers sixteen, eighteen and twenty, twenty-two, twenty-four and twenty-six, containing twenty-seven acres, being part of that property known as the "Dock Bateman farm," said lots being designated and described upon the map of the subdivision of the said property made by Respass and Ross, civil engineers, and recorded in book of maps, page 22, in the office of the register of deeds of Washington County, and being the same property conveyed to Mrs. Martha Harris by deed from W.
