**IN MEMORY OF MARVIN EARL GAYLORD**

**Killed November 5th, 1925**

A dear one from us has gone to that fairer land above. Still, Father, I thank thee for thy undying love, and thank thee for giving the gift to make life worth living. For a little over six years he brightened my life

and then went to rest on that unchanging breast. He is gone, but in heaven there is room for a mother, and to repay my father I will strive to live a life of love like that above, and when I see my dear child on high I will know that the steps that led that way were better far than human hands could plan. Then I will know why my precious one was taken from me.

This Christmas was the saddest my life has ever known. It must have been like that first Christmas when God gave His only begotten Son. It seems that where there are sweets to be given, the pathway must be filled with sadness. The clouds must come or there'd be no rainbow. Still, my heart aches, and my comfort is only in knowing of the Divine on whose breast my baby now rests, but who commanded the winds and waves to obey, will keep my baby in heavenly peace until his side I, too, have reached.

MOTHER.

**To All Of My Good Friends**

Asheville, N. C., February 24, 1926.

Just a line to advise that I am now connected with the firm of Patterson and deVebre, Asheville, N. C., and of course my business is to sell real estate. You may not be at all interested in anything I have to offer, but knowing you as always on the alert to make your money bring you a good profit, am willing to take a chance.

Western North Carolina, and Asheville in particular, is today experiencing a new state in its evolution, realty transfers amounting to hundreds of thousands of dollars are being consummated daily. The mountains, the climate, and the geographical location of this section produce a combination of conditions that offers unlimited possibilities for development, and Asheville can well be termed the hub of the entire movement, having practically doubled its population in the past five years and indications are that this summer will see a greater influx than ever before, which means that activity in real estate will reach its peak during the coming season, and the fellow that gets in early will clean up.

As a concrete illustration of just what is going on up here, our office on the 1st day of January, 1926, arranged with a party to handle 3,000 feet of railroad

frontage on a basis of \$22 per foot to owner and one-half of all over That amount the property brought. On the 12th day of February it was placed on the market, and within five hours the entire frontage was sold at \$100 per foot, or a total of \$300,000. This is just one of the few things of its kind that happen here almost daily.

In addition to the unusual activity in business and semi-business property here at this time, we represent Montford Hills, "The Suburb in the City," which is conceded by all to be one of the highest class residential subdivisions now on the market anywhere in this section. Within the past eight months 35 homes, representing an expenditure of \$250,000 have been built in Montford Hills. New sales are being made practically every day and a number of lots have already been resold at a handsome profit, which means that real estate in Asheville NOW is a good buy.

If you could arrange to come up here for a day or so, it would be a real pleasure to me to take you around and show you just what is going on, and incidentally put you in the way of making some real money.

Drop me a line advising when to expect you.

Yours very truly,

**B. R. BARNHILL**
